*(Chapter IV.—Bazar Fund and Property. Chapter V.—Powers for Sanitary and other Purposes.)*

27. (1) The Deputy Commissioner may, from time to time, with the previous sanction of the Chief Commissioner, invest any portion of the Bazar Fund in securities of the Government of India or such other securities as the Governor General in Council may, from time to time, approve in this behalf, and may vary such investments for others of a like nature, and may, with like sanction, realise any investments made under this sub-section.

(2) The income resulting from the securities and the proceeds of the sale of the same shall be credited to the Bazar Fund.

CHAPTER V.

POWERS FOR SANITARY AND OTHER PURPOSES.

*Streets and buildings.*

28. When any land in a bazar is required for new street or for the improvement of an existing street, the Deputy Commissioner may cause to be acquired, in addition to the land to be occupied by the street, the land necessary for the sites of the buildings to be erected on the sides of the street.

29. The Deputy Commissioner may close temporarily any streets or parts thereof for any public purpose, and with the Chief Commissioner's permission may divert, discontinue or permanently close any street.

30. The Deputy Commissioner may grant permission in writing for the temporary occupation of any street for the purpose of depositing any building materials or making any temporary excavation therein or erection thereon, subject to such conditions and the payment of such fees as he may prescribe, and may at his discretion withdraw such permission.

31. The Deputy Commissioner may attach to the outside of any building brackets for lamps in such manner as not to cause injury thereto or inconvenience.

32. (1) The Deputy Commissioner may name any street, and cause that name and likewise any number to be affixed on any building, and may from time to time cause the same to be altered.

(2) Whoever destroys, pulls down, alters or defaces any such name or number shall be punishable with fine which may extend to twenty rupees.

33. (1) Every person intending to erect, re-erect, alter or repair any upper storey or other building shall give notice in writing of his intention to the Deputy Commissioner, and shall, if required to do so, submit a plan showing the levels at which the foundations and lowest floor are proposed to be laid and specifications of the works intended to be constructed and the materials to be used, and shall obey any written directions consistent with this Regulation given by the Deputy Commissioner thereupon; and the

Deputy Commissioner may prohibit such erection, re-erection, alteration or repair, if in his opinion it is likely to be injurious to the neighbourhood or in respect of free passage or roadway, free circulation of air, facilities of scavenging, ventilation, drainage level, stability, line of frontage or any other matter which the Chief Commissioner may from time to time prescribe:

Provided that no compensation shall be claimable on account of any direction or prohibition under this section.

(2) If the erection, re-erection, alteration or repair of any building is begun without the permission of the Deputy Commissioner, or in disobedience to any direction issued by the Deputy Commissioner under this section, or continued contrary to those directions, the Deputy Commissioner may, by notice, require such building to be altered or demolished, and the person so erecting, re-erecting, altering or repairing shall be punishable with fine which may extend to five hundred rupees.

34. The Deputy Commissioner may, by notice in writing, require the owner or occupier of any building to remove or alter any projection, encroachment or obstruction built or placed against or in front thereof, if the same overhangs or projects into or encroaches on any street, public drain, aqueduct or sewer.

*Bathing and washing places.*

35. The Deputy Commissioner may set apart suitable places for the purpose of bathing, and may specify the times at which, and the sex of the persons by whom, such places may be used, and may also set apart suitable places for washing animals or clothes, or for any purpose connected with the health, cleanliness and comfort of the inhabitants; and may, by public notice, prohibit bathing, or the washing of animals or clothes, in any public place not so set apart or at times or by persons other than those specified, and all other acts by which water in public places may be rendered foul or unfit for use.

*Deposit of offensive matter and slaughter-places.*

36. The Deputy Commissioner may fix places within, or beyond, the limits of a bazar for the deposit of refuse, rubbish or offensive matter of any kind or for the disposal of the dead bodies of animals, and may by public notice give directions as to the time, manner and conditions at, in and under which such refuse, rubbish or offensive matter or the dead bodies of animals may be removed along any street and deposited at such places.

37. (1) The Deputy Commissioner may fix and abolish places either within or beyond the limits of a bazar for the slaughter of animals or any specified description of animals for sale, and may grant and withdraw licenses for the use of such places, or, if they belong to a Bazar Fund, charge rent or fees for the use of the same.

*The British Baluchistan Bazaars Regulation, 1910.**(Chapter V.—Powers for Sanitary and other Purposes.)*

(2) When any such place has been fixed, no person shall slaughter any such animal for sale within a bazar at any other place.

(3) Whoever slaughters any such animal at any other place for sale within a bazar shall be punishable with fine which may extend to twenty rupees.

*Burial and burning places.*

38. (1) The Deputy Commissioner may by public notice order any burial or burning ground which is, in his opinion, dangerous to the health of persons living in the neighbourhood, to be closed from a date to be specified in the notice.

(2) Private burial grounds in such burial-grounds may be excepted from the notice, subject to such conditions as the Deputy Commissioner may impose in this behalf.

(3) No burial or burning ground, whether public or private, shall be made or formed after the passing of this Regulation without the permission in writing of the Deputy Commissioner.

(4) Whoever buries or burns, or causes or permits to be buried or burnt, any corpse in any burial or burning ground made or formed contrary to the provisions of this section, or after the date fixed thereunder for closing the same, shall be punishable with fine which may extend to fifty rupees.

(5) The Deputy Commissioner may by public notice prescribe routes for the removal of corpses to burial or burning places.

*Inflammable materials.*

39. The Deputy Commissioner may, where it appears to him to be necessary for the prevention of danger to life or property, by public notice, prohibit all persons from stacking or collecting wood, straw or other inflammable materials, or placing mats, erecting booths or thatched huts, or lighting fires, in any place or within any limits specified in the notice.

*Powers of entry and inspection.*

40. (1) The Deputy Commissioner, or any person authorised by him in this behalf, may, after giving six hours' notice in writing to the occupier of any land or building in which any drain, privy or cesspool is situated, inspect any such drain, privy or cesspool at any time between sunrise and sunset, and may, if necessary, cause the ground to be opened wherever he may think fit for the purpose of preventing or removing any nuisance arising therefrom.

(2) If on such inspection it appears that the opening of the ground was necessary for the prevention or removal of a nuisance, the expenses thereby incurred shall be paid by the owner of the land or building or by the occupier, as the Deputy Commissioner may direct; but if it is found that no nuisance exists, or but for such opening would have existed, the ground shall be closed and made good as soon as may

be, and the expense of opening, closing and making it good shall be paid from the Bazar Fund.

41. The Deputy Commissioner, or any person authorised by him in this behalf, may, after giving twenty-four hours' notice in writing to the occupier, or, if there is no occupier, to the owner, of any building, at any time between sunrise and sunset, enter and inspect the building, and may by notice direct all or any part thereof to be forthwith internally or externally lime-washed, disinfected or otherwise cleansed for sanitary reasons.

42. The Deputy Commissioner, or any person authorised by him in this behalf, may, after giving twenty-four hours' notice in writing to the occupier, or, if there is no occupier, to the owner, of any building or land at any time between sunrise and sunset—

(a) enter on and survey and take levels of any land;

(b) enter, inspect and measure any building for the purpose of valuation; or

(c) enter into any building or any land for the purpose of examining works under construction, of ascertaining the course of sewers or drains, or of executing or repairing any work authorised by this Regulation.

43. The Deputy Commissioner, or any person authorised by him in this behalf, may, at any time between sunrise and sunset, enter and inspect any stable, coach-house or other place wherein there is reason to believe that there is any vehicle or animal liable to taxation under this Regulation, for which a license has not been duly taken out.

44. The Deputy Commissioner, or any person authorised by him in writing in this behalf, may, at all reasonable times, enter into and inspect any market, building, shop, stall or place used for the sale of food or drink for human consumption, or as a slaughter-house, or for the sale of drugs, and inspect and examine any food or drink, animal or drug which may be therein, and, if any article of food or drink or any animal therein appears to be intended for human consumption and to be unfit therefor, may seize and remove the same or may cause it to be destroyed, or to be so disposed of as to prevent its being exposed for sale or used for such consumption;

and, in case any drug is reasonably suspected to be adulterated in such manner as to lessen its efficacy or to change its operation or to render it noxious, may remove the same, giving a receipt therefor, and may cause it to be brought before a Magistrate for inquiry whether any offence has been committed in respect thereof, and for his orders as to its disposal.

45. (1) The Deputy Commissioner may provide for the performance by servants of the bazar of the duties usually performed by sweepers in respect

*The British Baluchistan Bazars Regulation, 1910.*

*(Chapter V.—Powers for Sanitary and other Purposes.)*

of any building or lands, or of any drains, privies, cesspools or other receptacles for offensive matter pertaining to buildings or land.

(2) Such provision may be made in respect of individual buildings or lands or of buildings or lands generally.

(3) Nothing in this section or section 9 shall be deemed to preclude the Deputy Commissioner from making provision of a different nature for different buildings or lands, and charging scavenging-tax at different rates therefor, or from exempting wholly or in part from such tax at his discretion any individual who has made arrangements to his satisfaction for the performance of the duties aforesaid.

(4) When the Deputy Commissioner has undertaken to provide for the performance of such duties as aforesaid, the persons employed by him to perform the same may enter on the property at all reasonable times so far as may be necessary for the proper discharge of those duties; and the Deputy Commissioner, or any person authorised by him in this behalf, may enter on the property at all reasonable times for the purpose of ascertaining that such duties have been duly performed.

46. When any building used as a human dwelling is entered under this Regulation, due regard shall be paid to the social and religious sentiments of the occupiers, and before any apartment in the actual occupation of any woman, who, according to custom, does not appear in public, is entered under this Regulation, notice shall be given to her that she is at liberty to withdraw, and every reasonable facility shall be afforded to her for withdrawing.

*Water-pipes, privies and drains.*

47. The Deputy Commissioner may, by notice in writing, require the owner of any building in any street to put up and keep in good condition proper troughs and pipes for receiving and carrying the water from the roof and other parts thereof and for discharging the same, so as not to inconvenience persons passing along the street.

48. (1) The Deputy Commissioner may, by notice in writing, require the owner of any building to provide any privy or cesspool or additional privies or cesspools which should in his opinion be provided for the building.

(2) The Deputy Commissioner may, by notice in writing, require the owner or occupier of any building or land to have any privy provided for the same shut out by a sufficient roof and wall or fence from the view of persons passing by or dwelling in the neighbourhood, or to remove or alter, as he directs, any door or trap-door of a privy opening on to any street or drain.

(3) The Deputy Commissioner may, by notice in writing, require any person employing more than twenty workmen or labourers to provide such latrines and urinals as the Deputy Commissioner may think fit and to cause the same to be kept in proper order and to be daily cleaned.

49. (1) The Deputy Commissioner may, by notice in writing, require the owner or occupier of any building or land to repair or alter and put in good order any drain, privy or cesspool or to close any cesspool belonging thereto.

(2) The Deputy Commissioner may, by notice in writing, require any person who constructs any new drain, privy or cesspool without his permission in writing or contrary to his directions or rules or to the provisions of this Regulation, or who constructs, rebuilds or opens any drain, privy or cesspool which has been ordered to be demolished or closed or not to be made, to demolish such drain, privy or cesspool or to make such alteration therein as he thinks fit.

50. The Deputy Commissioner may, by notice in writing, require any person who, without his permission in writing, newly erects or rebuilds any building over any public sewer, drain, culvert, water-course or water-pipe, to pull down or otherwise deal with the same as he thinks fit.

51. The Deputy Commissioner may, by notice in writing, require any owner or occupier on whose land any drain, latrine, urinal, cesspool or other receptacle for filth or refuse for the time being exists within fifty feet of any spring, well, reservoir or other water-source, to remove or close the same within one week.

52. The Deputy Commissioner may, by notice in writing, require any owner or occupier of any land or building to cleanse, repair, cover, fill up or drain off any private land, well, reservoir, pool or excavation therein which appears to him to be injurious to health or offensive to the neighbourhood.

*Dangerous buildings and places.*

53. If any building or any well, tank or other excavation is for want of sufficient repair, etc., to be so situated as to be dangerous to persons passing by, or dwelling or working in the neighbourhood, the Deputy Commissioner may, by notice in writing, require the owner or occupier thereof to repair, protect or enclose the same; and if it appears to him to be necessary in order to prevent imminent danger, he shall forthwith take such steps as are necessary to avert the danger.

54. If any building, wall or structure, or any thing affixed thereto, is in a ruinous or dangerous state, or is deemed by the Deputy Commissioner to be in a ruinous state or in any way dangerous, he may, by notice in writing, require the owner or occupier thereof forthwith either to remove the same or to cause such repairs to be made to it as he considers necessary for the public safety; and, if it appears to him to be necessary in order to prevent imminent danger, the Deputy Commissioner may forthwith take such steps as are necessary to avert the danger.

*The British Baluchistan Bazaars Regulation, 1910.**(Chapter V.—Powers for Sanitary and other Purposes.)**Buildings and grounds in unsanitary condition.*

**55.** The Deputy Commissioner may, by notice in writing, require the owner or occupier of any land to clear away and remove any thick or noxious vegetation, jungle or undergrowth which may appear to be injurious to health or offensive to the neighbourhood.

**56.** The Deputy Commissioner may, by notice in writing, require the owner or occupier of any land within three days to cut or trim the hedges thereof bordering on any street, or branches of trees growing thereon which overhang any street and obstruct the same or cause any street therein or which so overhang any well, tank or other water-source as to be likely to pollute the water thereof.

**57.** If the owner or occupier of any building or land suffers the same to be in a filthy or unwholesome state, the Deputy Commissioner may, by notice in writing, require him within twenty-four hours to cleanse the same or otherwise put it in a proper state.

**58.** If any building appears to the Deputy Commissioner to be unfit for human habitation in consequence of the want of proper means of drainage or ventilation or for any other sufficient reason, the Deputy Commissioner may, by notice in writing, prohibit the owner or occupier thereof from using the same for human habitation or suffering it to be so used until the Deputy Commissioner is satisfied that it has been rendered fit for such use.

**59.** The Deputy Commissioner may, by notice in writing, require the owner or person claiming to be the owner of any building or land which, by reason of abandonment or disputed ownership or other cause, remains untenanted and thereby becomes a resort of idle and disorderly persons or otherwise a nuisance, to secure or enclose the same within a reasonable time to be fixed in the notice.

**60. (1)** The Deputy Commissioner may, on the report of the Chief Medical Officer of the district that the cultivation of any description of crop or the use of any kind of manure or the irrigation of land in any specified manner in any place within the limits of a bazar is injurious to the health of persons dwelling in the neighbourhood, by notification prohibit the cultivation of the crop, the use of the manure or the irrigation so reported to be injurious, or regulate such cultivation, use or irrigation by imposing such conditions thereon as may prevent injury :

Provided that, when on any land to which such notification applies the act prohibited has been practised during the five years next preceding the notification in the ordinary course of husbandry, compensation shall be paid from the Bazar Fund to all persons interested therein for any damage caused to them by the effect of such notification.

(2) Whoever cultivates, uses manure or irrigates in disregard of any prohibition or conditions notified under sub-section (1), shall, on conviction by a Magistrate, be punishable with fine which may extend to fifty rupees, and with a further fine which may extend to five rupees for every day after the date of such conviction during which the offence is proved before a Magistrate to have been persisted in.

*Registration of trades.*

**61. (1)** The owner or occupier of every place within a bazar used for any Regulation of offensive and dangerous trades, of the following purposes, namely :

- melting tallow, or boiling bones, offal or blood ;
- as a soap-house, oil-boiling house, dyeing house or tannery ;
- as a brick-kiln, pottery or lime-kiln ;
- as any other manufactory or place of business from which offensive or unwholesome smells arise ;
- as a yard or dépôt for trade in hay, straw, thatching grass, wood, coal or other highly inflammable material ; or
- as a store-house for kerosene, petroleum, naphtha or any inflammable oil, spirit or explosive substance ;

shall register the same in a book to be kept by the Deputy Commissioner for the purpose.

(2) No place shall be newly used for any of the said purposes except under a license from the Deputy Commissioner which shall be renewable annually.

(3) The license shall not be withheld unless the Deputy Commissioner considers that the business which it is intended to establish or maintain would be offensive or dangerous to persons residing in or frequenting the immediate neighbourhood.

(4) The Deputy Commissioner may charge such fees for such licenses and may impose such conditions in respect thereof as he may deem fit.

(5) Whoever without such registration or without a license uses any place for any such purpose shall, on conviction, be punishable with fine which may extend to fifty rupees, and with further fine which may extend to ten rupees for every day during which the offence is proved before a Magistrate to have been persisted in after he has been convicted thereof ; and the Deputy Commissioner may, after conviction, by notice in writing, direct that the use of such place for such purpose shall be discontinued.

(6) The Deputy Commissioner, or any person specially authorised by him in writing in this behalf, may at any time enter and inspect any place or building which there is reason to believe is used without license for any of the purposes enumerated in this section.

**62. (1)** If it is shown to the satisfaction of the Deputy Commissioner that any place licensed under section 61 is a nuisance to the neighbourhood or likely to be dangerous to life, health or property, he may, by notice in writing, require the occupier thereof to

discontinue the use of the place, or to use it in such manner as will in the opinion of the Deputy Commissioner render it no longer a nuisance or dangerous.

(2) Whoever after such notice has been given uses the place or permits it to be used in disregard of such requisition shall, on conviction be punishable with fine which may extend to two hundred rupees, and with further fine which may extend to forty rupees for every subsequent day during which the offence is proved before a Magistrate to have been persisted in.

63. (1) When any notice under this Chapter requires any act to be done for which no time is fixed by this Regulation, it shall fix a reasonable time for doing the same.

(2) When the owner or occupier of any land or building fails to comply with the terms of any notice under this Chapter requiring him to do any act upon that land or building, the Deputy Commissioner may, after six hours' notice in writing, cause that act to be done, and may recover the expenses incurred in so doing from the person in default.

64. The Deputy Commissioner may make compensation out of the Pazar Fund to any person sustaining any damage by reason of the exercise of any of the powers vested in him, his officers and servants under this Regulation, and shall make such compensation where the person sustaining the damage was not himself in default in respect of the matter in respect of which the power was exercised: where the compensation is claimable on account of injury to buildings or land, it shall be calculated with due regard to the provisions of the Land Acquisition Act, 1894.

*Restraint of infection.*

Information to be given of cholera or small-pox or plague.

(a) being a medical practitioner or a person openly and constantly practising the medical profession and in the course of such practice becoming cognizant of the existence of cholera or small-pox or plague in any dwelling other than a public hospital, or, in default of such medical practitioner or person practising the medical profession,  
(b) being the owner or occupier of such dwelling, and being cognizant of the existence of cholera or small-pox or plague therein, or, in default of such owner or occupier,  
(c) being the person in charge of or in attendance on any person suffering from cholera or small-pox or plague in such dwelling, and being cognizant of the existence of the disease therein,  
fails to give information, or gives false information, to the Deputy Commissioner respecting the existence of such disease, shall be punishable with fine which may extend to fifty rupees:

Provided that a person not required to give information in the first instance but only in default of some other person, shall not be

punishable if it be shown that he had reasonable cause to suppose that the information had been, or would be, duly given.

Removal to hospital of cholera, small-pox and plague patients. 66. When any person suffering from cholera or small-pox or plague is—

- (a) without proper lodging or accommodation, or
- (b) living in a sarai or other public hostel, or
- (c) living in a room or house which he neither owns nor pays rent for, or
- (d) lodged in premises occupied by members of two or more families, and any of such occupiers objects to his continuing to lodge in such premises,

the Deputy Commissioner, by any person authorised by him in this behalf, may, on the advice of any medical officer, remove the patient to any hospital or place at which persons suffering from such disease are received for medical treatment, and may do anything necessary for such removal.

67. Should the Deputy Commissioner consider that the water in any well, tank or other place is unwholesome water, likely, if used for drinking, to engender or cause the spread of any dangerous disease, he may, by public notice, prohibit the removal or use of such water for drinking.

68. The Deputy Commissioner may, by bye-laws, and with the previous sanction of the Chief Commissioner,—

- (a) prohibit the manufacture or preparation for sale of any specified articles of food or drink in any premises not licensed by the Deputy Commissioner;
- (b) regulate the grant and withdrawal of licenses to premises for the manufacture or preparation for sale of such specified articles of food or drink;
- (c) regulate the hours and manner of transport within a bazar of any specified articles of food or drink;
- (d) fix the places in which any specified article of food or drink may be sold or exposed for sale or the places in which it may not be sold or exposed for sale;
- (e) fix the conditions on which licenses under this section are to be granted and may be revoked;

Provided that no person shall be punishable for breach of any bye-law made under clause (a) or clause (d) by reason of the continuance of such manufacture, preparation or exposure for sale or sale upon any premises which are, at the time of making of such bye-law, used for such purposes, until he has received from the Deputy Commissioner six months' notice in writing to discontinue such manufacture, preparation or exposure for sale or such sale in such premises.

*The British Baluchistan Bazaar Regulation, 1910.**(Chapter VI.—Offences affecting the Public Health, Safety or Convenience.)*

## CHAPTER VI.

OFFENCES AFFECTING THE PUBLIC HEALTH,  
SAFETY OR CONVENIENCE.

69. Whoever, without the permission of the Deputy Commissioner or in disregard of his orders, throws or deposits, or permits his servants or members of his household under his control to throw or deposit, earth or materials of any description, or refuse, rubbish or offensive matter of any kind upon any street or public place, or into any public sewer or any drain communicating therewith, shall be punishable with fine which may extend to twenty rupees.

70. Whoever, without the permission of the Deputy Commissioner, causes or knowingly or negligently allows the water of any sink, sewer or cesspool or any other offensive matter to pass or be put upon any street or public place or into any sewer or drain not set apart for the purpose, shall be punishable with fine which may extend to twenty rupees.

71. Whoever, being the owner or occupier of any building or land, keeps or knowingly or negligently allows to be kept for more than twenty-four hours, or otherwise than in some proper receptacle, any dirt, dung, bones, ashes, night-soil or filth, or any noxious or offensive matter, in or upon such building or land, or suffers any such receptacle to be in a filthy or noxious state, or neglects to employ proper means to cleanse and purify the same, shall be punishable with fine which may extend to fifty rupees.

72. Whoever, without the permission of the Deputy Commissioner, makes or causes to be made, or alters or causes to be altered, any drain leading into any public sewer or drain under the management of the Deputy Commissioner, shall be punishable with fine which may extend to fifty rupees.

73. Whoever, without the permission of the Deputy Commissioner, makes or keeps for a longer time than one week after notice under section 51, any drain, latrine, urinal, cesspool or other receptacle for filth or refuse within fifty feet of any spring, well, tank, reservoir or other source from which water is or may be derived for public use, shall be punishable with fine which may extend to twenty rupees, and, when a notice has been issued, with a further fine not exceeding five rupees for each day during which the offence is continued after the lapse of the period allowed for removal.

74. Whoever keeps any swine in disregard of any orders which the Deputy Commissioner may give to prevent them from becoming a nuisance, or keeps any other animals so as to be injurious to health or to become a nuisance, shall, on conviction, be punishable with fine which may

extend to twenty rupees, and with a further fine which may extend to five rupees for every day after the date of the conviction during which the offence is proved before a Magistrate to have been persisted in.

75. Whoever feeds or allows to be fed any animal which is kept for dairy purposes or may be used for food on deleterious substances, filth or refuse of any kind, shall be punishable with fine which may extend to fifty rupees.

76. Whoever drives any vehicle after dark in any public street or thoroughfare unless the vehicle is properly supplied with lights, or there is sufficient moonlight to render lights unnecessary, shall be punishable with fine which may extend to twenty rupees.

77. Whoever discharges fire-arms or air-guns or lets off fire-works or fire-balloons, or engages in any game in such a manner as to cause danger to persons passing by or dwelling or working in the neighbourhood or risk of injury to property, shall be punishable with fine which may extend to twenty rupees.

78. Whoever, being a camel-driver, omits, on being requested to do so, to remove his camel so far as may be practicable to a safe distance on the approach of a horse, whether ridden or driven, shall be punishable with fine which may extend to twenty rupees.

79. Whoever, being the owner or person in charge of any dog which is likely to annoy or intimidate passengers, neglects to restrain it so that it shall not be at large without a muzzle in any street or public place, shall be punishable with fine which may extend to twenty rupees.

80. (1) The Deputy Commissioner, by any person authorised by him in this behalf, may destroy or cause to be destroyed, or confine or cause to be confined, for such period as the Deputy Commissioner may direct, any ownerless dog or any dog suffering from rabies or reasonably suspected to be suffering from rabies.

(2) No damages shall be payable in respect of any dog destroyed under this section.

81. Whoever, without the permission of the Deputy Commissioner, alters, obstructs or encroaches upon any street or public drain, aqueduct or sewer, or displaces, takes up or alters the pavement or other materials or the fences or posts of any street or public place, or deposits building materials or makes any hole or excavation on or in any street, shall be punishable with fine which may extend to fifty rupees.

82. Whoever, contrary to the orders of the Deputy Commissioner, pickets animals or collects carts on any public ground, or uses any such ground as a halting-place for vehicles or animals of any description or as a place

of encampment, or causes or permits animals to stray, shall be punishable with fine which may extend to twenty rupees.

**83.** Whoever carries a corpse along a prohibited route or in a manner likely to cause annoyance to the public, shall be punishable with fine which may extend to ten rupees.

*Carrying corpses by prohibited routes or so as to cause annoyance.*

**84.** Whoever, without being authorized by the Deputy Commissioner, defaces or disturbs any direction-post or lamp-post, or extinguishes any light in any street or public place, shall be punishable with fine which may extend to twenty rupees.

*Destroying direction-posts, lamp-posts, etc.*

**85.** Whoever disobeys any bye-law issued under section 88 or any lawful directions given by public notice or disobeys any written notice lawfully issued under the powers conferred by Chapter V or by rules under section 88 or fails to comply with the conditions subject to which any permission was given to him under those powers, shall, if the disobedience or omission is not an offence punishable under any other section, be punishable on conviction with fine which may extend to fifty rupees, and, in the case of a continuing breach, with a further fine which may extend to five rupees for every day after the date of the conviction during which the offence is proved before a Magistrate to have been persisted in:

*Penalty for disobedience to orders under Chapter V.*

Provided that when the notice fixes a time within which a certain act is to be done and no time is specified in this Regulation, it shall rest with the Magistrate to determine whether the time so fixed was a reasonable time within the meaning of this Regulation.

**CHAPTER VII.**

**SUPPLEMENTAL.**

**86.** The Deputy Commissioner shall be subject in all respects to the control of the Commissioner and of the Chief Commissioner.

*Control.*

**87.** The Chief Commissioner may, by notification in the Gazette of India, declare that from a date to be fixed in the notification, the Vaccination Act, 1880, shall apply, so far as it can be made applicable, to a bazar.

*Vaccination.*

XIII  
1880.

**88. (1)** The Chief Commissioner may from time to time make rules consistent with this Regulation as to—

(a) the assessment and recovery of taxes, fees and monies claimable under this Regulation and for preventing evasion of the same;

(b) the authority on which money may be paid from the Bazar Fund, and the management and regulation of any Provident Fund which may be estab-

lished under section 5, sub-section (3);

(c) the conditions on which property under management of the Deputy Commissioner may be transferred by lease or otherwise;

(d) the control of traffic, public processions and music;

(e) the registration of births and deaths, the regulation of vaccination, compulsory or otherwise, and the taking of a census;

(f) the offences under this Regulation or under rules made thereunder which shall be cognizable by the police; and

(g) generally for the purpose of this Regulation.

(2) The Deputy Commissioner, with the previous sanction of the Chief Commissioner, may by bye-law—

(a) grant licenses necessary for the proprietors or drivers of vehicles, drawn by animals or persons, kept or plying for hire within the limits of a bazar, and fix the fees payable for such licenses, and the conditions on which they are to be granted and may be revoked; and

(b) limit the rates which may be demanded for the hire of any vehicle, and the loads to be carried by such vehicle when hired within a bazar for a period not exceeding twenty-four hours, or for a service which would ordinarily be performed within twenty-four hours.

**89.** The Chief Commissioner may make rules with respect to rules for the suppression of disorderly persons, mendicancy and of loitering or importuning for the purpose of prostitution, and for the removal and exclusion from a bazar of disorderly persons, of persons convicted under Chapter XVII of the Indian Penal Code, or ordered under the Code of Criminal Procedure, 1898, to execute a bond for their good behaviour, and of persons whom the Chief Commissioner deems it necessary to exclude from the bazar with or without assigning any reasons for excluding them therefrom.

**90. (1)** In making any rule or bye-law under either of the two last foregoing sections, the Chief Commissioner or the Deputy Commissioner, as the case may be, may direct that a breach of it shall be punishable on conviction with fine which may extend to fifty rupees, and, when the breach is a continuing breach, with a further fine which may extend to five rupees for every day after the date of such conviction during which the breach is proved before a Magistrate to have been persisted in.

(2) No rule or bye-law under either of the said sections shall come into force until it has been notified by the Chief Commissioner or the Deputy Commissioner, as the case may be.

*The British Baluchistan Bazaars Regulation, 1910.**(Chapter VII.—Supplemental.)*

**91.** On the complaint of three or more inhabitants of a bazar that a house, in their immediate neighbourhood and within the limits of the bazar, is used as a brothel or by disorderly persons of any description to the annoyance of the respectable inhabitants of the vicinity, any Magistrate of the first class having, as such, jurisdiction in the place where the house is situated may summon the owner or tenant of the house to answer the complaint; and on being satisfied that the house is so used, and is a source of annoyance and offence to the neighbours, may order the owner or tenant to discontinue such use of it; and, if he fails to comply with such order within five days, may impose upon him a fine not exceeding twenty-five rupees for every day thereafter on which it is proved that the house has continued to be so used.

**92.** If any officer or servant of a bazar is otherwise than with the permission in writing of the Commissioner, directly or indirectly interested in any contract made with the Deputy Commissioner, he shall be deemed to have committed an offence under section 188 of the Indian Penal Code.

**93.** No suit or prosecution shall be entertained by any Court against the Deputy Commissioner or any officer or person for anything in good faith done or purporting to be done in pursuance of powers conferred by or under this Regulation on the Deputy Commissioner, officer or person, whether the thing done was or was not authorised by the powers so conferred.

**94.** Where any land, whether within or without the limits of a bazar, is required for the purposes of this Regulation, the Chief Commissioner may proceed to acquire it under the provisions of the Land Acquisition Act, 1894; and, on payment by the Deputy Commissioner of the compensation awarded under that Act, and of the charges incurred by the Government in connection with the proceedings, the land shall vest in the Chief Commissioner for the time being for the purposes of this Regulation.

**95.** No Judge or Magistrate shall be deemed to be a party to, or personally interested in, any prosecution for an offence punishable under this Regulation or any rule thereunder.

or any other enactment within the meaning of section 556 of the Code of Criminal Procedure, V of 1898, because as Deputy Commissioner he merely approved the prosecution.

**96.** (1) Subject to such rules as the Chief Commissioner may make under section 88 prescribing the offences which shall be cognizable by the police, no Court shall take cognizance of an offence punishable under this Regulation or rule made thereunder except on the complaint of the Deputy Commissioner or of some person authorised by him in this behalf.

(2) In default of payment of any fine imposed under this Regulation or rule made thereunder, the defaulter shall be liable to simple imprisonment for a term not exceeding eight days.

**97.** Any arrear of any tax or any fee or other money claimable by or on behalf of the Deputy Commissioner may, in addition to any manner provided under section 88, be recovered on application to a Magistrate having jurisdiction within the limits of the bazar by the distress and sale of any moveable property within those limits belonging to the person from whom the money is claimable; and if payable by the owner in respect of any property, moveable or immovable, such arrear shall be a charge on the property.

**98.** No act done nor any proceeding taken under this Regulation, shall be questioned on account of any defect or irregularity not affecting the merits of the case.

**99.** All acts of executive authority, proceedings, decrees and sentences which have been done, taken or passed in any bazar before this Regulation comes into force by any officer of the Government or by any person acting under his authority, or otherwise in pursuance of an order of the Government and which have been or may hereafter be ratified by the Chief Commissioner, shall be as valid and operative as if they had been done, taken or passed in accordance with law; and no suit or other proceeding shall be maintained or continued against any person whatever on the ground that such acts, proceedings, decrees or sentences were not done, taken or passed in accordance with law.

**No. 48.**—In exercise of the power conferred by section 6 of the Indian Councils Act, 1909 (9 Edw. 7, ch. 4), the Governor General in Council is pleased, with the approval of the Secretary of State for India in Council, to direct that the following Schedule shall be substituted for Schedule VII of the Regulations for the nomination and election of Members of the Legislative Council of the Lieutenant-Governor of Bengal, which were published with this Department's Notification No. 17, dated the 15th November 1909, namely:

## SCHEDULE VII.

[See Regulation II, sub-head (vi), and Regulation III.]

## RULES FOR THE ELECTION OF MEMBERS BY THE BENGAL CHAMBER OF COMMERCE.

*Preliminary.*

1. "Returning officer" means the Secretary to the Bengal Chamber of Commerce and includes any officer of the Chamber deputed for the time being by the Secretary to perform his duties under these rules.

*Qualifications of electors.*

2. The members specified in Regulation 11, sub-head (vii), shall be elected by the votes of persons who—

(a) are permanent members of the Bengal Chamber of Commerce ; or

(b) are entitled to exercise the rights and privileges of permanent membership of the said Chamber on behalf, and in the name, of any firm or Joint-Stock Company or other Corporation,

and who have a place of residence in India (hereinafter referred to as "electors").

*Qualifications and nomination of candidates.*

3. (1) Any person not ineligible for election under these Regulations who is qualified to vote under this schedule may be nominated as a candidate for election.

(2) Every nomination shall be made by an elector, by letter sent to the Returning officer.

(3) The Returning officer shall ascertain in respect of every person so nominated whether he is willing to serve if elected.

(4) Any person who has been nominated for election may withdraw his candidature at any time before the day appointed for the counting of votes.

*Voting.*

4. (1) If the number of nominated candidates does not exceed the number of candidates to be elected, the Returning officer shall forthwith declare such candidate or candidates to be elected.

(2) If the number of nominated candidates exceeds the number of candidates to be elected, the Returning officer shall send to each elector a list of the nominated candidates and a voting paper.

5. Any elector may send his voting paper to the Returning officer after recording his vote thereon :

Provided that voting papers which are not received by the Returning officer before the day appointed for the counting of votes shall be rejected.

*Counting of votes and declaration of result.*

6. (1) On receiving the voting papers, the Returning officer shall examine them to see whether they have been correctly filled up.

(2) The Returning officer shall endorse "rejected" on any voting paper which he may reject as being imperfect.

7. (1) The Returning officer shall attend for the purpose of counting the votes on such date and at such time and place as may be appointed by the Local Government in this behalf.

(2) Every candidate may be present in person, or may send a representative duly authorized by him in writing, to watch the process of counting.

(3) If an objection is made to any voting paper as being imperfect, or to the rejection by the Returning officer of a voting paper, it shall be decided at once by the Returning officer, whose decision shall be final, subject to reversal by the Local Government in the event of the election being questioned under Regulation XVI.

(4) In such cases the Returning officer shall record on the voting paper the nature of the objection and his decision thereon.

8. (1) When the counting of the votes has been completed, the Returning officer shall forthwith declare the candidate or candidates to whom the largest number of votes has been given to be elected.

(2) Where an equality of votes is found to exist between any candidates, and the addition of a vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning officer, and in such manner as he may determine.

9. Upon the completion of the counting and after the result has been declared by him, the Returning officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months, and thereafter cause them to be destroyed unless otherwise directed by an order of competent authority.

*Publication of result.*

10. The Returning officer shall without delay report the result of the election to the Local Government, and the name or names of the candidate or candidates elected shall be published in the local official Gazette.

*Appointment of dates, times and places.*

11. The Local Government shall appoint, and shall notify in such manner as it thinks fit, such date, and (if necessary) such time and place, as it may think suitable for each of the following proceedings, namely:—

- (a) the sending of nominations under rule 3 (2);
- (b) the sending of lists and voting papers under rule 4 (2);
- (c) the sending of voting papers under rule 5; and
- (d) the counting of votes under rule 7 (1).

**No. 49.**—In exercise of the power conferred by section 6 of the Indian Councils Act, 1909 (9 Edw. 7, ch. 4), the Governor General in Council is pleased, with the approval of the Secretary of State for India in Council, to direct that the following Schedule shall be substituted for Schedule XV of the Regulations for the nomination and election of Additional Members of the Legislative Council of the Governor General of India, which were published with this Department's Notification No. 14, dated the 15th November, 1909 namely:

**SCHEDULE XV.**

[See Regulation II, sub-head (xx), and Regulation III.]

**RULES FOR THE ELECTION OF AN ADDITIONAL MEMBER BY THE BENGAL CHAMBER OF COMMERCE.**

*Preliminary.*

1. "Returning officer" means the Secretary to the Bengal Chamber of Commerce, and includes any officer of the Chamber deputed for the time being by the Secretary to perform his duties under these rules.

*Qualifications of Electors.*

2. The Member specified in Regulation II, sub-head (xx), shall be elected by the votes of persons who—

- (a) are permanent members of the Bengal Chamber of Commerce, or
- (b) are entitled to exercise the rights and privileges of permanent membership of the said Chamber on behalf, and in the name, of any firm or Joint-Stock Company or other Corporation,

and who have a place of residence in India (hereinafter referred to as "electors").

*Qualifications and nomination of candidates.*

3. (1) Any person not ineligible for election under these Regulations who is qualified to vote under this schedule may be nominated as a candidate for election.

(2) Every nomination shall be made by an elector, by letter sent to the Returning officer.

(3) The Returning officer shall ascertain in respect of every person so nominated whether he is willing to serve if elected.

(4) Any person who has been nominated for election may withdraw his candidature at any time before the day appointed for the counting of votes.

*Voting.*

4. (1) If one candidate only is duly nominated, the Returning officer shall forthwith declare such candidate to be elected.

(2) If more candidates than one are duly nominated, the Returning officer shall send to each elector a list of the nominated candidates and a voting paper.

5. Any elector may send his voting paper to the Returning officer after recording his vote thereon:

Provided that voting papers which are not received by the Returning officer before the day appointed for the counting of votes shall be rejected.

*Counting of votes and declaration of result.*

6. (1) On receiving the voting papers, the Returning officer shall examine them to see whether they have been correctly filled up.

(2) The Returning officer shall endorse "rejected" on any voting paper which he may reject as being imperfect.

7. (1) The Returning officer shall attend for the purpose of counting the votes on such date and at such time and place as may be appointed by the Local Government in this behalf.

(2) Every candidate may be present in person, and a representative duly authorized by him in writing, to watch the process of counting.

(3) If an objection is made to any voting paper as being imperfect, or to the rejection by the Returning officer of a voting paper, it shall be decided at once by the Returning officer, whose decision shall be final, subject to reversal by the Governor General in Council in the event of the election being questioned under Regulation XVI.

(4) In such cases the Returning officer shall record on the voting paper the nature of the objection and his decision thereon.

8. (1) When the counting of the votes has been completed, the Returning officer shall forthwith declare the candidate to whom the largest number of the votes has been given to be elected.

(2) Where an equality of votes is found to exist between any candidates, and the addition of a vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning officer and in such manner as he may determine.

9. Upon the completion of the counting and after the result has been declared by him, the Returning officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months, and thereafter cause them to be destroyed unless otherwise directed by an order of competent authority.

*Publication of result.*

10. The Returning officer shall without delay report the result of the election to the Local Government and also to the Secretary to the Government of India in the Legislative Department, and the name of the candidate elected shall be published in the local official Gazette and in the *Gazette of India*.

*Appointment of dates, times and places.*

11. The Local Government shall appoint, and shall notify in such manner as it thinks fit, such date, and (if necessary) such time and place as it may think suitable for each of the following proceedings, namely,—

- (a) the sending of nominations under rule 3 (2);
- (b) the sending of lists and voting papers under rule 4 (2);
- (c) the sending of voting papers under rule 5; and
- (d) the counting of votes under rule 7 (1).

R. SHEEPSHANKS,

Offg. Secretary to the Government of India.

## HOME DEPARTMENT.

## NOTIFICATIONS.

## ESTABLISHMENTS.

*Simla, the 30th September, 1910.*

No. 1472.—Mr. L. P. Shirres is permitted to resign His Majesty's Indian Civil Service with effect from the 1st October 1910.

## EXAMINATIONS.

*The 30th September, 1910.*

No. 337.—The following regulations respecting the examination of candidates for the Civil Service of India, to be held in August 1911, are published for general information :

*[Copies of this paper may be obtained on application to the Secretary to the Government of India, Home Department.]*

## EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

An open Competitive Examination for admission to the Civil Service of India will be held in London, under the subjoined Regulations, commencing on the 1st August 1911.

*The number of persons to be selected at this examination will be announced hereafter.*

*No person will be admitted to compete from whom the Secretary, Civil Service Commission, has not received on or before the 1st July 1911, an application on the prescribed form, a copy of which is sent herewith. No question as to the delay or loss in the post of any such Application Form can be entertained. Candidates, who delay their applications until the last days, will do so at their own risk.*

*Acknowledgments of such Application Forms are sent, and any Candidate who has filled up and returned the printed Application Form but has not received an acknowledgment of it within four complete days should at once write to the Secretary, Civil Service Commission, Burlington Gardens, London, W. Failure to comply with this provision will deprive the Candidate of any claim to consideration.*

*The Order for admission to the Examination will be posted on the 20th July 1911, to the address given on the Form of Application. It will contain instructions as to the time and place at which Candidates will be required to attend and as to the manner in which the fee (£6) is to be paid.*

CIVIL SERVICE COMMISSION,

*August 1910.*

## REGULATIONS.

*\*\* The following Regulations, made by the Secretary of State for India in Council, are liable to alteration from year to year.*

1. An examination for admission to the Civil Service of India, open to all qualified persons, will be held in London in August of each year for such number of appointments to that Service as the Secretary of State may on each occasion determine. The date of the Examination and the number of appointments to be made for each Province will be announced beforehand by the Civil Service Commissioners.

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners :—

(i) That he is a natural-born subject of His Majesty.

(ii) That he had attained the age of twenty-two, and had not attained the age of twenty-four on the first day of August of the year in which the Examination is held.

[N.B.—In the case of Natives of India it will be necessary for a Candidate to obtain a certificate of age and nationality issued under Notification of the Government of India, no. 2152, dated 21st August 1888, as amended by Notification no. 404, dated 19th May 1898, and signed, should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division within which his family resides, or should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides.]

(iii) That he has no disease, constitutional affection, or bodily infirmity, unfitting him, or likely to unfit him, for the Civil Service of India.\*

(iv) That he is of good moral character.

3. Should the evidence upon the above points be *prima facie* satisfactory to the Civil Service Commissioners, the Candidate, on payment of the prescribed fee, will be admitted to the Examination. The Commissioners may, however, in their discretion, at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries in the case of any Candidate should be unsatisfactory to them in any of the above respects he will be ineligible for admission to the Civil Service of India, and, if already selected, will be removed from the position of a Probationer.

\* The Civil Service Commissioners will regard no person as constitutionally fitted for appointment to the Civil Service of India who has not been satisfactorily vaccinated within the last seven years.

(a) A Syllabus, defining the character of the Examination in the various subjects, may be obtained on application to the Secretary, Civil Service Commission, London, W.

From the marks assigned to Candidates in each subject such deduction will be made as the Civil Service Commissioners may deem necessary in order to secure that no credit be allowed for merely superficial knowledge.

Consistently with the limitations specified above Candidates are at liberty to name any of the foregoing subjects, provided that the maximum number of marks that can be obtained from the subjects chosen is limited to 6,000. If this maximum is exceeded by a Candidate's selection he will be required to indicate one of his subjects the marks for which should, in his case, be reduced so as to bring his maximum marks within the prescribed limit. The marks so reduced will be subject to a correspondingly reduced deduction.

Moreover, if a Candidate's handwriting is not easily legible a further deduction will, on that account, be made from the total marks otherwise accruing to him (a).

5. A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order so many competitors up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination, shall be designated to be Selected Candidates for the Civil Service of India, provided that they appear to be duly qualified in other respects. Should any Selected Candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a Selected Candidate.

6. Selected Candidates, before proceeding to India, will be on probation for one year, at the end of which time they will be examined, with a view of testing their progress in the following subjects (b) :—

*Compulsory—*

	Marks.
1. Indian Penal Code ...	400
2. Code of Criminal Procedure ...	200
3. The Indian Evidence Act ...	200
4. Indian History ...	400
* 5. The principal Vernacular Language of the Province to which the Candidate is assigned ...	400

*Optional.* [Not more than one of the following subjects.]

	Marks
1. Hindu and Muhammadan Law ..	450
† 2. Sanskrit ...	400
† 3. Arabic ...	400
4. Persian ...	400
5. Hindustani (for Candidates assigned to the Province of Burma only) ...	400

\* The principal Vernacular Language prescribed for each Province to which Candidates are assigned is as follows :—

For the United Provinces of Agra and Oudh, the Punjab, and the Central Provinces ... Hindustani.

For Bengal ... Hindustani or Bengali  
(at the option of the Candidate).

For Eastern Bengal and Assam ... Bengali  
(unless it is the Candidate's mother tongue.)

For Burma ... Burmese.

For Bombay ... Marathi.  
(unless it is the Candidate's mother tongue).

For Madras ... Tamil or Telugu.  
(at the option of the Candidate).

In Hindustani the Candidate will be required to be acquainted with both the Persian and the Nagari character.

A Candidate assigned to Eastern Bengal and Assam, whose mother tongue is Bengali, must offer for examination Hindustani; a Candidate assigned to Bombay, whose mother tongue is Marathi, must offer for examination Hindustani; and a Candidate assigned to Bengal or Madras, whose mother tongue is either of the languages shown against his Province, must offer the other for examination.

† These subjects may not be offered by any Candidate who has offered them at the Open Competition.

(a) It is notified for general information that the number of marks deducted for bad handwriting may be considerable.

(b) Instructions, showing the extent of the examination, will be issued to Selected Candidates, as soon as possible after the result of the Open Competition is declared.

In this Examination, as in the Open Competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the Open Competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The Examination will be conducted on paper and *virā voce*, as may be deemed necessary. This Examination will be held at the close of the year of probation, and will be called the "*Final Examination*."

If any Candidate is prevented by sickness or any other adequate cause from attending such examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination.

7. The selected Candidates will also be tested during their probation as to their proficiency in Riding.

The examinations in riding will be held as follows:—

- (1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.
- (2) Again, at the time of the Final Examination. Candidates who may then fully satisfy the Commissioners of their ability to ride well and to perform journeys on horseback will be awarded from 100 to 200 marks, according to the degree of proficiency displayed, to be added to their marks in the Final Examination. Candidates who obtain 100 marks, but are reported by the Civil Service Commissioners to have reached a minimum standard of proficiency in riding, and are certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, will, on their arrival in India, be subjected to such further tests, being as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government.

A Candidate who fails at the end of the year of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding, will be liable to have his name removed from the list of Selected Candidates.

8. The Selected Candidates who, on examination, shall be found to have a competent knowledge of the subjects specified in Regulation 6, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, conduct during the period of probation, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force, at the time, for that Service.

9. Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary to the Civil Service Commissioners, London," at any time after the 1st December, in the year previous to that in which the Examination is to be held. No person will be admitted to the Examination from whom the Secretary to the Civil Service Commissioners has not received on or before the 1st July (or, if that date should fall upon a Sunday or public holiday, then, on or before the first day thereafter on which their office is open), in the year in which the Examination is to be held, an application in the handwriting of the Candidate, on the prescribed form,

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:—

- (i) *Selected Candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration,*
- (ii) *An allowance amounting to £150 will be given to any Candidate who passes his probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrews, Aberdeen and London (University College or King's College); Victoria University, Manchester.*

*This allowance will be paid to the selected Candidate in four instalments on the following dates respectively:—December 24, after his selection, March 25, June 24, and the date of his signing his covenant on being finally appointed to the Service.*

*With the final instalment an allowance on account of passage to India will be paid to each newly appointed civilian to the amount of £37 10s. od., for passage to Calcutta, Madras or Bombay, and £43 for passage to Rangoon, the Officer then making his own arrangements for his passage.*

*The payment of each of the first three instalments will be conditional on the receipt, by the Secretary of State, through the Civil Service Commissioners, of a Certificate that the Candidate has fulfilled up to date the requirements of the Authorities, and shown satisfactory conduct at the Authorized University or College; the fourth and final instalment will be paid as soon as the selected Candidate has signed his covenant, and for its payment no certificate from College Authorities will be required.*

*The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.*

- (iii) *Each Candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself to defray all monies he may have received from the Secretary of State for India in the event:—*

- (1) *his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Civil Service of India;*
- (2) *his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.*
- (iv) *All Candidates obtaining Certificates will be also required to enter into covenants, by which amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force, they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to £1.*
- (v) *The seniority in the Civil Service of India of the Candidates obtaining Certificates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations.*
- (vi) *Candidates obtaining Certificates will be required to report their arrival in India within such period after the grant of their Certificates of Qualification as the Secretary of State may in each case direct.*
- (vii) *Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the Candidate.*

A Manual of Rules and Regulations applicable to members of the covenanted Civil Service of India has been compiled by permission of the Government of India, and may now be procured from the under-mentioned Agents for the sale of Indian Official publications. ## CIVIL SERVICE OF INDIA ; ETC., ETC.

**SYLLABUS** of any open Competitive Examination for the Civil Service of India; Clerkships (Class I) in the Home Civil Service, and Eastern Cadetships in the Colonial Service that may be held in the year 1911, and of any other competition that may be held in combination therewith.

In view of the importance of legible handwriting in the public service, Candidates are warned that the provision as to deductions for bad handwriting in these competitions will be strictly enforced.

Candidates are warned that full marks cannot be obtained on any paper unless the whole of it is answered, or, in cases where the number of questions to be answered is specified, unless the full number specified is answered.

**English Composition.**—An Essay to be written on one of several specified subjects.

**Sanskrit Language and Literature.**—Translation from Sanskrit (Vedic and Classical) into English, and from English into Classical Sanskrit; History of Sanskrit Literature (Vedic and Classical), including a knowledge of such Indian History as bears upon the subject; critical questions on the Sanskrit Language (Vedic and Classical).

Candidates are expected to make a special study of the Seventh Mandala of the Rig-veda, but other, Vedic hymns may also be set in the examination.

**Arabic Language and Literature.**—Translation from Arabic into English, and from English into Arabic; original composition in Arabic; History of Arabic Literature, including a knowledge of such Arabian History as bears upon the subject; Arabic Grammar; Arabic Prosody.

**Greek Literature.**—Critical questions on the Greek Language (including questions on Philology) and Literature.

**Latin Literature.**—Critical questions on the Latin Language (including questions on Philology) and Literature.

**English Language and Literature.**—The Examination will be in two parts. In the one the Candidates will be expected to show a general acquaintance with the course of English Literature, as represented (mainly) by the following writers in verse and prose, between the reign of Edward III and the accession of Queen Victoria :

Verse—Chaucer, Langland, Spenser, Shakespeare, Milton, Dryden, Pope, Gray, Collins, Johnson, Goldsmith, Crabbe, Cowper, Campbell, Wordsworth, Scott, Byron, Coleridge, Shelley, Keats.

Prose—Bacon, Sir Thomas Browne, Milton, Cowley, Bunyan, Dryden, Swift, Defoe, Addison, Johnson, Burke, Scott, Macaulay (Essays and Biographies).

A minute knowledge of the works of these authors will not be looked for in this part of the Examination, which will, however, test how far the Candidates have studied at first hand the chief productions of the greatest English writers, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English Literature. Candidates will also be expected to show that they have studied in these authors the history of the English Language in respect of its vocabulary, syntax, and prosody.

The other part of the Examination will relate to one of the periods named below, which will follow each other year by year in the order indicated.

1. For the year 1911 : A.D. 1800 to A. D. 1832, [Nineteenth Century writers to the death of Scott].

2. For the year 1912 : A.D. 1350 to A.D. 1600, [Chaucer to Spenser].

3. For the year 1913 : A.D. 1600 to A.D. 1700, [Shakespeare to Dryden].

4. For the year 1914 : A.D. 1700 to A.D. 1800, [Pope to Cowper].

The Examination in this part will require from Candidates a more minute acquaintance with the history of the English Language and Literature, as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners. The names placed beside the dates are intended to suggest the general character of the literary development of the period, and, consequently, the natural limits of the Examination. All the works of Shakespeare, for example, will be regarded as falling within the period 1600 to 1700; all the works of Swift within the period 1700 to 1800; all the works of Scott and Wordsworth, and all the works of Macaulay within the period 1800 to 1832.

The books specified for the year 1911, period 1800 to 1832, are:—

Wordsworth. Sonnets.

Shelley. Prometheus Unbound; Adonais; Hellas.

Sydney Smith. Works.

Keats. Poems.

Rejected Addresses.

Scott. Heart of Midlothian; The Antiquary; Old Mortality.

Jane Austen. Novels.

Byron. Letters.

**Italian, History of the Language and Literature.**—Passages for translation may be set, and questions asked, demanding a knowledge of the language in its early stages; but it will not be obligatory upon candidates to master in detail the old forms in use before the time of Dante.

**French, History of the Language and Literature.**—Passages for translation may be set, and questions asked, demanding a knowledge of the language in its early stages; but it will not be obligatory upon candidates to master in detail the old forms in use before 1500.

**German, History of the Language and Literature.**—Passages for translation may be set, and questions asked, demanding a knowledge of the language in its early stages; but it will not be obligatory upon candidates to master in detail the old forms in use before 1500.

**Lower Mathematics.**—Plane Geometry including conic sections; Solid Geometry including the method of orthogonal projection; Algebra and Plane Trigonometry; Elementary Plane Co-ordinate Geometry; Elementary Mechanics of solids and fluids; Geometrical Optics, Elements of Differential and Integral Calculus with simple illustrations from other branches of the subject. **Higher Mathematics.**—Higher Algebra (including Theory of Equations), Plane and Spherical Trigonometry, Differential Calculus, Integral Calculus, Differential Equations, Analytical Geometry (Plane and Solid), Statics including Attractions, Dynamics of a Particle, Rigid Dynamics, Hydrodynamics, the Mathematical Theory of Electricity and Magnetism. The questions may involve the use of drawing instruments. The use of the slide rule is allowed.

**Chemistry, Physics, Geology, Botany, Zoology, Animal Physiology.**—Candidates are warned that the practical Examinations carry a large proportion of the marks.

**Geography.**—The history of geographical ideas and methods.

The construction and use of the more familiar map-projections. A general knowledge of the methods of exploratory surveying.

The characteristics and cartographical analysis of the physical regions of the world. The configuration of the continents and of the bed of the ocean. The characteristics and distribution of typical land forms. The circulation of air and water. The climatic characteristics of different parts of the earth. The distribution of plant and animal-associations.

The classification and distribution of the races of mankind. Past and present lines of communication. The influence of geographical environment (physical features and other natural conditions) upon the habits, arts, industries, social organisation and, generally, the political and economical development of the more important existing peoples.

**Greek History.**—Questions (a) on the General and (b) on the Constitutional History of Greece to the death of Alexander. Candidates will be expected to show a knowledge of the original authorities. They must also be prepared to answer questions on historical geography, and to draw sketch maps.

**Roman History.**—Questions (a) on the General and (b) on the Constitutional History of Rome to the death of Trajan. Candidates will be expected to show a knowledge of the original authorities. They must also be prepared to answer questions on historical geography, and to draw sketch maps.

Period II, 1485 to 1848: Prothero, *Statutes and Constitutional Documents* [Clarendon Press]; Gardiner, *Documents of the Puritan Revolution* [Clarendon Press].

In each period the number of marks assigned to the question or questions dealing with the text of the prescribed books will be about one-sixth of that assigned to the whole period. Candidates must be prepared to answer questions on historical geography, and to draw sketch maps.

**General Modern History.**—Candidates may, at their choice, be examined in any one of the following periods. Periods III., IV. and V. will include Indian History. Candidates are warned that high marks will not be awarded in this subject unless the text of the prescribed books has been carefully studied by them. Candidates must be prepared to answer questions on historical geography, and to draw sketch maps.

I. From the accession of Charlemagne to the Third Crusade. [A.D. 800 to A.D. 1193.]

II. From the Third Crusade to the Diet of Worms. [A.D. 1193 to A.D. 1521.]

SIR,

I beg to inform you that I wish to be admitted to the Open Competitive Examination for the Civil Service of India, which is appointed to commence in London on the 1st of August, 1911.

Candidates not born within the British Dominions should state this fact in a separate letter.

I hereby declare that I was born on the \_\_\_\_\_ of \_\_\_\_\_, 18\_\_\_\_, and that therefore I shall have attained the age of \_\_\_\_\_ years on the 1st of August, 1911; I also declare that I have no disease, constitutional affection, or bodily infirmity unfitting me, or likely to unfit me, for the Civil Service of India; and that I am of good moral character, and otherwise eligible under the Regulations; and I undertake that, if I am successful, I will conform, during my period of probation, to such rules respecting the conduct of Public Servants as have been laid down, or may hereafter be laid down, by the Secretary of State for India in Council.

Candidates who are not Natives of India should strike out this paragraph.

I send herewith a Certificate of age and nationality issued in accordance with the rule respecting Natives of India printed in paragraph III on the next page.

\* If you have never been examined, insert here the word "never"

† If you have been examined, give the date, etc., of the last occasion.

I beg to inform you that I was\* \_\_\_\_\_ examined before the Civil Service Commissioners in the month of \_\_\_\_\_ in the year 1\_\_\_\_, as a Candidate for the situation of \_\_\_\_\_.

I am, SIR,

Your obedient Servant,

Name in full \_\_\_\_\_

‡ If a London address, state the postal district; if a country address, state the post town.

Address to which it is desired that the Order for Examination should be sent‡ \_\_\_\_\_

Date \_\_\_\_\_

The Secretary,

Civil Service Commission.

Certificates of age (except as mentioned above) health, and character should not be supplied until after the result of the Examination is known.

N. B.—Attention is drawn to the annexed Form, which must be filled up by every Candidate.

This Application Form relates only to the Competition for the Civil Service of India, and does not entitle a Candidate to compete also for the Home or Colonial Service. Intending Candidates for either or both of these services must obtain the proper form or forms of application and forward them so as to reach the Secretary, Civil Service Commission, on or before July. See next page.

If an Open Competitive Examination for Clerkships (Class I.) in the Home Civil Service should be appointed to be held in August 1911, I request that a prescribed Form of Application may be forwarded to me when ready for issue.

#### EVIDENCE OF AGE TO BE REQUIRED FROM CANDIDATES FOR THE CIVIL SERVICE OF INDIA.

I. Every Candidate born in the United Kingdom should be prepared to produce, when required, a Certificate from the Registrar-General of Births, Marriages, and Deaths, or from one of his provincial Offices; or, if the Certificate may be obtained from Registrar-General in London, Dublin, or Edinburgh, from the Superintendent Registrar of the District in which the birth took place.

II. A Candidate born in British India should be prepared to produce, when required, a Certificate of Baptism from the district in which he was baptised. If this does not also mention the date of birth it should be accompanied by a statutory declaration by one of the Candidate's parents, stating the date and place of birth. When such certificates are not in the possession of the Candidates an Extract from the Registers kept at the India Office will probably be obtainable.

III. A Candidate who is a Native of India must, on or before the 1st July 1911, produce a certificate of age and nationality issued under Notification of the Government of India, no. 2252, dated 21st August 1888 as amended by Notification no. 404, dated 19th May 1898, and signed, should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division within which his family resides; or, should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides. *No other Certificates will be accepted for this Competition.*

---

*To be filled up by the Candidate himself, and returned with the Form of Application.*

† For the Practical Examination in Chemistry, Candidates may bring any standard books on Analysis; and, for the Practical Examination in Botany, any standard Flora. All books brought must be submitted to the Presiding Examiner for his approval; no written notes of any kind will be allowed.

N.B.—Attention is drawn to the annexed Form, which must be filled up by every Candidate.

[Copies of this paper may be obtained on application to the Secretary to the Government of India, Home Department.]

NOTE.

If Open Competitive Examinations for the following Services, *viz.* :—

- Eastern Cadetships in the Colonial Service ;
- Clerkships (Class 1.) in the Home Civil Service ;

should be held in 1911 concurrently with the Open Competitive Examination for the Civil Service of India, candidates duly eligible in respect of age will be admitted to compete for any two or all three of these Services, subject to the following conditions :

(1) They must enter and return to the Secretary, Civil Service Commission, within the time limited by the several regulations, an application on the form prescribed for each of the respective services.†

(2) Every successful candidate who may have been admitted to compete for either the India or the Colonial Service (or both), as well as for the Home Service, will be called upon to declare, immediately after the announcement of the result of the competitions, whether he prefers his name to remain on the list of candidates for the India or Colonial Service or on the list of candidates for Clerkships in the Home Civil Service.

The name of any candidate who fails to declare his choice when called upon to do so will be removed from the list of candidates for Clerkships in the Home Civil Service.

(3) Every successful candidate who may be allowed to compete for both the India and Colonial Services will be called upon immediately after the announcement of the result of the competitions, whether he prefers to remain on the list of candidates for the Civil Service of India or on the list of candidates for Eastern Cadetships in the Colonial Service.

The name of any candidate who fails to declare his choice when called upon to do so will be removed from the list of candidates for Eastern Cadetships.

(4) All declarations of choice are irrevocable.

(5) Candidates for all three or any two of the above-mentioned services will be required to pay a consolidated fee of £6.

Civil Service Commission,

5th August 1910.

† Candidates who may desire to enter the competitions for the Home and Colonial Services should apply about Easter next to the Secretary, Civil Service Commission, London, W., for the prescribed forms of application.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 29th September 1910, based on the Indian Daily Weather Reports of the period.**

1. Conditions were unsettled throughout the week in the Bay and, although they did not result in any cyclonic storm, they influenced the distribution of rainfall, which accordingly occurred chiefly in the Peninsula, the central parts of the country and Lower Burma. At the close of the week a depression appeared over Gujarat and the adjacent sea area, and was the cause of moderately heavy rain in the Konkan.

2. The rainfall of the week was 20 per cent or more in excess in the Bay Islands, Lower Burma, Orissa, Chota Nagpur, Central India, the Central Provinces (except Berar), the Konkan, the Bombay Deccan, Hyderabad and Madras. It was more than 20 per cent in defect in Upper Burma, Eastern Bengal and Assam, the United Provinces East, the Punjab, Kashmir, Rajputana and Gujarat.

3 *Burma*.—Rainfall was general in Lower Burma, but only a few falls occurred in Upper Burma. Skies were generally cloudy.

*Northeast India, including Orissa*.—Only local falls of rain were reported, and skies were lightly to moderately cloudy.

*The United Provinces, Berar, Madhya Pradesh and the Central Provinces*.—Rainfall was recorded at every observatory in the Central Provinces and Central India, being most widespread in these areas on the 28th; in the United Provinces it was restricted to local falls. Skies were generally clear or only lightly clouded except in the west and south of the Central Provinces.

*Northwest India*.—A few falls of rain occurred in Kashmir, the southeast Punjab, east Rajputana and Gujarat. Skies were clear or lightly clouded; and up to the 28th temperature was higher than usual in Kashmir.

*The Peninsula*.—Rainfall was nearly general on most days in all parts of the Peninsula except the southeastern districts. Skies were moderately to heavily clouded, and temperature was locally lower than usual.

4. The following are the principal amounts of rainfall as reported at 8 hrs. each day:—

September 23rd. Shillong 2'00" and Balasore 1'82".

" 24th. Cherrapunji 3'60", Jessore 2'03", Cuddalore 3'90", Kurnool 3'20", Vizagapatam 2'54" and Ootacamund 2'23".

" 25th. Karwar 2'12" and Hyderabad (Deccan) 1'94".

" 26th. Chittagong 3'00", Raipur 2'53", Galbarga 2'95" and Calicut 2'26".

" 27th. Thayetmyo 1'90", Poona 1'74", Gopalpur 2'58", Vizagapatam 3'23" and Cocanada 2'66".

" 28th. Tavoy 3'30" and Balasore 2'20".

" 29th. Mergui 4'76", Tavoy 3'46", Moulmein 5'75", Raipur 1'77", Aurangabad 2'84", Sholapur 3'39", Bombay 3'27", Ratnagiri 2'06", Goa 3'35", Mormugao 2'25" and Karwar 2'10".

5. The rainfall of the whole period from the 29th April to the 29th September is 20 per cent or more in excess in the North-West Frontier Province, Sind, the Bombay Deccan, Mysore, the Madras Deccan, Madras Southeast and the Madras Coast North; and in similar defect in Kashmir and Baluchistan. Over the remainder of the country it differed from the normal by less than 20 per cent.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
24th September 1910.

**Burma.**—The rainfall was good in Lower Burma. Reports have not been received from six districts of Upper Burma, but last week's belated reports are favourable and good rain has fallen in districts from which reports have been received. The usual operations for winter rice are proceeding normally in Lower Burma and prospects remain good. Standing crops in Upper Burma are satisfactory. The prices of unhusked rice have fallen slightly at Rangoon and Bassein but they are generally normal.

**Eastern Bengal and Assam.**—More rain fell during the week, the fall being heavy in parts of Chittagong, Rajshahi and the Surma Valley divisions and moderate elsewhere. The heaviest fall recorded was 20 inches at Sunamganj. Steeping and washing of jute still continue. Harvest of the summer rice and transplantation of winter rice are nearly finished. Plucking of pargar, ploughing of fields for mustard are in progress. Sowing of pulses has commenced in places. Prospects of winter rice are fair and cotton and sugarcane promise well. Average price of common rice has risen about one per cent. Cattle disease is reported from Barisal, Goalpara, Kamrup, Darrang, Nowgong and the Garo Hills.

**Bengal.**—The rainfall was general all over the Province. The fall was heavy in Birbhum, Patna, Saran, Purnea and Darjeeling; moderate in Midnapore, Hooghly, Gaya, Shahabad, Champaran, Muzaffarpur, Darbhanga, Balasore, Puri, Ranchi and in the Presidency division and light elsewhere. The rainfall has been beneficial but more rain is wanted for standing crops in Burdwan, Bankura, Midnapore and Hooghly. Harvesting of autumn crops is in progress. Transplantation of winter paddy is well nigh completed. Weeding is going on. The condition of standing crops is good in most districts. Damage by insects is reported from Sambalpur. The price of common rice has fallen in Burdwan, Bankura, Jessore, Shahabad, Champaran, Darbhanga, Bhagalpur, Purnea, the Sonthal Parganas, Hazaribagh, Ranchi and Palamau and has risen in Nadia, Murshidabad and Monghyr. Cattle disease is reported from Midnapore, Jessore, Bhagalpur, Purnea, Angul, Sambalpur, Hazaribagh, Ranchi and Manbhum and from the Patna and Tirhut divisions except Shahabad and Saran. The fodder and water supply is sufficient throughout the Province.

**United Provinces.**—Rain fell throughout the Provinces. The rainfall was heavy in a few Himalayan and submontane districts and light elsewhere. Harvesting of maize, small millets and early rice continues. Cotton-picking has commenced and sowing of gram has begun. Preparation of fields for spring crops is in full swing and prospects are generally good. Sporadic cattle disease is reported in thirty-three districts but the general condition of agricultural stock is satisfactory. Fodder and supplies are ample everywhere. Prices have again fallen over nearly half the Provinces and are stationary elsewhere.

**Punjab.**—Slight rain has fallen in parts of Delhi and Ambala. Harvesting of autumn crops is in progress in certain districts. Ploughings for and sowings of spring crops are in progress. The condition of standing crops is average in Lahore and Multan, average to below average in Lyailpur, average to poor in Mianwali, average to bad in parts of Ferozepore, good to fair in Hissar and good elsewhere. Crops are suffering for want of rain in Mianwali. Insects are injuring great millet in parts of Rohtak and slight damage by rats is reported from parts of Ferozepore. Crops have been damaged to some

extent by river floods in Gurgaon, Delhi and parts of Ferozepore. Prices are generally unsettled. They are rising in three districts and falling in seven. The condition of cattle is generally good. Fodder is sufficient except in parts of Ferozepore and Mianwali. Complaints of a short canal water supply are being received from three tahsils of the Lyallpur district.

**North-West Frontier Province.**—No rain fell during the week except slight showers in the Mardan and Peshawar tahsils. Sowings of spring crops are in progress. The condition of standing crops and the expected outturn are average. The fodder and water supply is sufficient. Very little irrigation is being done from the Paharpur canal. The condition of cattle is good though disease is prevalent in some villages. The public health is good except in some villages of the Charsadda, Nowshera and Peshawar tahsils and in several northern villages of the Dera Ismail Khan tahsil. Malarial fever is prevalent in the Nowshera tahsil. Prices of food grains are falling slightly. Prices:—wheat 13½ to 17½; maize 15 to 27½; gram 16½ to 26 and *bajra* 18 to 20 seers per rupee.

**Jammu.**—There was no rain during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevalent in some parts of the Province. Fodder is sufficient.

**Kashmir.**—It rained on one occasion during the week. There is no disease among cattle. Fodder is sufficient. Prices are stationary.

**Rajputana.**—The rainfall reported, in cents, was:—Jaisalmer 21; Partabgarh 163; Bundi 61; Kotah 144; Jhalawar 59 and Karauli 51. No rain was received elsewhere. Agricultural operations continue. Standing crops are in good condition except for slight damage by hot winds in Marwar, by heavy rains in some parts of Partabgarh, by insects in Tonk and by insects and a break in the rains in the Jaipur district. Cattle disease is prevalent in Mewar, Banswara, Jhalawar, Bharatpur and Merwara. Fodder is sufficient. Prices are falling in most places.

**Central India.**—No rain fell during the week in Malwa. It was insufficient in parts of Indore and general elsewhere. Harvesting of autumn crops and sowings of spring crops continue. Crops are generally in excellent condition but they have been damaged slightly by insects in parts of Indore and by excessive rain in Bhopal, Malwa and Bhopawar. The weather is cloudy and unsettled and bright dry weather is now required for maturing and harvesting the crops. Fodder is plentiful. Cattle disease is reported in all Agencies except Gwalior and Malwa. Prices are falling generally and are fairly easy everywhere. Prospects are generally favourable.

**Central Provinces.**—The weather has been showery but heavy falls were also received measuring 9 inches in Yeotmal, 6½ inches in Bilaspur and Wardha and 5 inches in Narsinghpur. The average rainfall to date has been exceeded in several districts, especially in Wardha, Nagpur, Yeotmal and Raipur. The average has not yet been reached in Saugor, Damoh, Jubbulpore, Mandla and Nimar but these districts have had sufficient rain. In tracts under cotton and *juar*, crops have suffered in low-lying lands from excessive moisture. The general condition of standing crops is satisfactory but a break in the rains is now necessary. Reaping of minor crops continued in Damoh, Mandla, Seoni, Hoshangabad, Nimar, Betul and Chanda. Fodder and water are sufficient and cattle are doing well. Prices:—The price of *juar* in Nimar became cheaper and that of gram in Chhindwara dearer by 4 seers per rupee. In Buldana *juar* fell by 2 seers. Prices are falling slightly in most districts.

**Feudatory States.**—During the week Sakti had 5 inches of rain. In the remaining States the quantity registered ranged between 4½ cents and 3 inches. Grasshoppers

continue to damage rice in Sakti. Otherwise the condition of crops is generally good. The supply of fodder and water is adequate. Prices—rice in Sarangarh, Sakti and Jashpur fell from 2 to 3 seers per rupee.

**Bombay.**—The rainfall during the week was heavy in parts of Ahmednagar; good in Nasik, Sholapur, Satara, Bijapur, Dharwar, Savantvadi and Kolhapur, moderate in Surat, the Konkan, West Khandesh and Belgaum and slight elsewhere, except in Sind. The rainfall was general and sufficient but more rain is needed in parts of Thar and Parkar, Gujarat, Colaba, Kanara, West Khandesh, Satara, Belgaum and Baroda. Standing crops are suffering from insufficient moisture in parts of Ahmedabad and Cutch and from excessive moisture in Ahmednagar. They have been damaged slightly by rats in Karachi, by insects in Larkana, Hyderabad and the Upper Sind Frontier, by grasshoppers in Ahmednagar, Poona, Belgaum and Dharwar and are generally good elsewhere. Harvesting of autumn crops is progressing in Hyderabad, Thar and Parkar, Ahmedabad, the Panch Mahals, Kaira, Ratnagiri, Baroda, Mahi Kantha, Rewa Kantha and Savantvadi. Lands are being prepared for cultivation of spring crops in parts of Sind, the Panch Mahals, Khandesh, Nasik, Poona, Satara and Rewa Kantha. Sowing of spring crops is in progress in Broach, Poona, Sholapur, Satara, Bijapur, Belgaum, Baroda and Rewa Kantha. The fodder supply is generally adequate. Agricultural stock is deficient in Ahmednagar, Poona, Sholapur and Satara but is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have fallen in Hyderabad, the Upper Sind Frontier, the Panch Mahals, Kaira, Broach, Nasik and Ahmednagar and are generally stationary elsewhere. The quantity per seer per rupee is 19 to 40 per cent; in the Konkan 13 to 20 per cent and in Katak 10 to 35 per cent less than the normal. In Gujarat prices ranged from 10 per cent more than the normal to 26 per cent less and in the Deccan from 25 per cent more to 23 per cent less.

**Hyderabad.**—The average rainfall in the Dominions was 2 inches 18 cents. The rain was general but somewhat excessive in the Gulbarga and Usmanabad districts and fair to good in other places. The heaviest fall occurred in Seram in the Gulbarga district. Rain and crop reports are satisfactory in all talukas of the Raichur district. The autumn crop is fair to good but has suffered from rain in parts of the Parbhani and Nander districts. Harvesting of autumn crops has begun in some places. Lands are being prepared for spring crops and sowings are proceeding. Cattle disease is prevalent in sixteen talukas. Prices:—wheat  $6\frac{1}{2}$ ; coarse rice  $6\frac{1}{2}$  and *juar*  $14\frac{1}{2}$  seers per rupee showing a fall of  $\frac{1}{2}$  seer in the price of *juar*. White *juar* is selling in Hyderabad City at  $11\frac{1}{2}$  seers and yellow *juar* at 13 seers. The highest price in districts is 8 seers in Karimnagar and the lowest 25 seers in Bidar.

**Mysore.**—The rainfall was good during the week throughout the State. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

**Coorg.**—Rainfall 5 inches 84 cents. The condition of the rice crop is good. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

**Madras.**—The rainfall was very heavy in Kurnool; heavy in Godavari, Kistna, Guntur, Bellary, Anantapur and South Canara; good in Vizagapatam, Cuddapah, Nellore, Chingleput, Malabar and the Nilgiris; *nil* in Tinnevely and light to fair elsewhere. The rainfall in sixteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Bellary, Anantapur, Cuddapah, Trichinopoly, Tanjore, the west coast of Ramnad and the Nilgiris and insufficient in Chingleput and in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in

parts of Bellary have been damaged by locusts and some in parts of Guntur, Salem and Coimbatore require more rain. Harvests continue in parts with outturn generally fair to normal. Pasture is insufficient in parts of Tinnevely. Fodder is scanty in parts of Ganjam, Godavari, Nellore, and North Arcot. The condition of cattle is generally good. The price of rice is stationary in twelve districts, has fallen in nine and has risen in three. The prices of millets have fluctuated as follows:—*Ragi* is stationary in five districts, has fallen in sixteen and has risen in one. *Cholam* is stationary in three districts, has fallen in seven and has risen in five. *Cumbu* is stationary in six districts, has fallen in nine and has risen in one. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

*Conditions.*

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The explosive shall be kept in a substantially constructed unflammable building approved by such officer as the Resident in Mysore may prescribe, or in a fireproof safe separated from any dwelling house, highway street, public thoroughfare or public place by a distance of 50 yards and made and closed so as to prevent unauthorised persons from having access thereto, and to secure it from danger from without :

Provided that 50 lbs. of gunpowder may be kept inside a dwelling-house or in any building other than as last aforesaid in a receptacle exclusively appropriated to keeping explosives.

3. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosive and from any room or part of a building, fireproof safe or receptacle containing the same, and no person entering such room or part of any building or such safe or receptacle shall have any iron or steel in his possession or attached to or on his boots or shoes.

4. Neither the building exclusively appropriated for the purpose of keeping the explosive, nor the fireproof safe or receptacle referred to above, shall have any exposed iron or steel in the interior thereof :

Provided that this condition shall not be obligatory in a building, fireproof safe or receptacle in which no explosive other than an explosive of the 1st division of the 6th (Ammunition) class is kept.

5. Gunpowder or other explosives exceeding one pound in quantity shall be kept in a substantial case bag, canister or other receptacle made and closed so as to prevent the explosive from escaping.

6. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases and under the vendor's signature :—

- (a) the name and address of the person who takes delivery of the articles purchased;
- (b) the nature and amount of the articles purchased ; and
- (c) the date of purchase.

*The 6th October, 1910.*

**No 3103-Est.-A.**—In supersession of the orders contained in the Notification by the Government of India, in the Foreign Department No. 1680-G., dated the 27th July 1906, the Governor-General in Council is pleased to publish the following rules regulating the admission of junior military officers to the Political Department of the Government of India :—

1. All applications for employment in the Political Department should be submitted officially through the proper channels, with information in the form attached. Such applications will be considered in the Foreign Department and each candidate will be duly informed, through the military authorities of the result of his application. Applications should not be submitted until the applicant has passed all the prescribed examinations for admission to the Indian Army.

Officers are not ordinarily eligible for appointment to the Political Department if they are married.

2. The name of an accepted candidate for the Political Department will ordinarily be removed from the list (a) in the event of his marriage; or (b) if he should obtain any other permanent extra-regimental employ, in the Bombay Political Department, or the Military Accounts Department; or (c) when he has completed seven years' army service; or attains the age of twenty-seven years.

Urdu and Hindi, Persian, and Russian, French.

3. In making selections much weight will be given to linguistic attainments, especially in Urdu and Hindi, as specified in the margin.

4. Officers selected for the Political Department will be required to undergo a medical examination by the Medical Board.

5. First appointments to the Political Department will ordinarily be made with effect from the 1st April in each year. All officers who are appointed to the Department will be on probation for a period of not less than three years, from the date of first appointment.

6. An officer, on first appointment to the Political Department, will, as a general rule, be attached to a district in the United Provinces of Agra and Oudh for a period of not less than eighteen months, to undergo a course of training in revenue and judicial work similar to that prescribed for Assistant Collectors in that Province, and to acquire proficiency in Urdu. During this period he will be required to pass a departmental test, which will be identical with that prescribed for members of the Indian Civil Service in the United Provinces, except that (1) the use of books will be allowed in all subjects, except in Urdu, (2) Probationers will not be expected to pass the local examination in Hindi. Particular importance will be attached to a probationer's ability to speak Urdu fluently and in a manner befitting the occasion.

7. Should an officer fail to pass the departmental examination within the period of his training, he will ordinarily revert to military duty.

8. On the expiry of the period of preliminary training, a probationer will be posted for six months to a Native State or a Frontier District, for training in political or frontier work. At the end of this period, his general knowledge of Indian History and political subjects or frontier conditions will be tested by examination which will be both oral and in writing and include questions on the following works :—

*For officers under training in a Native State.*

- (a) Lyall's "Rise and Expansion of the British Dominion in India."
- (b) The introduction to Aitchison's Treaties for Central India or Rajputana as the case may be; and
- (c) The Political Department Manual.

*For officers under training on the Frontier.*

- (a) Lyall's "Rise and Expansion of the British Dominion in India."
- (b) The introduction to Aitchison's Treaties in regard to Afghanistan.
- (c) Articles in the Imperial Gazetteer on the North-West Frontier Province and Baluchistan.

Candidates will also be expected to have some knowledge of standard works bearing on the country in which they are serving; i.e., in the case of

*Native States.*—Tod's *Rajasthan*, Malcolm's "Central India", Sleeman's "Rambles and Recollections", Lyall's "Asiatic Studies"; and in the case of

*The Frontier.*—Edwardes' "Year on the Punjab Frontier", Thornton's "Life of Sir Robert Sandeman", Chrol's "The Middle Eastern Question".

9. During the period of an officer's probation, reports on his work and general suitability for the Political Department will be submitted once every six months through the proper channels, by the Collector or Political Officer under whom he is serving. Should an officer marry during this period, he will ordinarily revert to military duty.

10. Nothing in these rules shall interfere in any way with the absolute discretion of the Viceroy to select any officer for the Political Department.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 6th October 1910, based on the Indian Daily Weather Reports of the period.**

1. The depression in Gujarat referred to in last week's report extended northwards, and caused abnormally heavy rain in the west of the United Provinces and the adjacent districts of the Punjab. As this depression filled up another appeared off the Orissa coast and, travelling to the neighbourhood of Cawnpore, occasioned widespread rain in the east of the United Provinces. Both depressions also gave rain in the central parts of the country and the north of the Peninsula, but on their disappearance rainfall ceased in all these areas and at the end of the week was occurring only in Burma and northeast India.

2. The rainfall of the week was more or less in large excess in Assam, Bengal, the United Provinces, the Punjab East and North, Rajputana East, Gujarat, Central India Berar, the Central Provinces, the Konkan, Hyderabad North and the Madras Coast North. The only areas where rainfall was more than 20 per cent in defect were Eastern Bengal, Kashmir and the south of the Peninsula.

3. *Burma*.—Rainfall was local and general. Skies were lightly clouded.

*Northeast India, including Orissa*.—Fairly general rain was reported from Bengal and Eastern Bengal on the 3rd, but during the rest of the week there were only local falls. Skies were moderately clouded.

*The United Provinces, Central India and the Central Provinces*.—Rainfall was nearly general, and in parts heavy, in the west of the United Provinces on the first four days of the week, and in the east of the United Provinces on the 2nd and 3rd October; it was fairly general on most days in Central India, and more or less local in the Central Provinces. Cloud was moderate to heavy, and temperature was much lower than usual where heavy rain fell.

*Northwest India*.—Rainfall occurred during the first half of the week in the southeast Punjab and east Rajputana, but there was practically no rain on the remaining days. Skies were heavily clouded in the area of rainfall and were clear or only lightly clouded elsewhere. Temperature was lower than usual in the Punjab and Rajputana.

*The Peninsula*.—Rainfall was light and local. Cloud was moderate to heavy at the beginning of the week, but became light at the end. Day temperature was in defect locally in the north of the Peninsula.

4. The following are the chief amounts of rainfall as reported at 8 hrs. each day:—

September 30th.	Saugor Island 3'50", Pachmarhi 3'05", Vellore 2'25", Bombay 4'76", Ratnagiri 3'82" and Cocanada 2'17".
October 1st.	Muktesar 3'09", Bareilly 3'70", Mainpuri 2'17", Agra 6'68", Jaipur 1'92", Kotah 2'30", Bombay 3'83" and Gwalpur 3'76".
" 2nd.	Bareilly 6'30", Meerut 4'88", Roorkee 4'31", Dehra Dun 3'62", Chakrata 3'31" and Delhi 6'00".
" 3rd.	Toungoo 2'45", Myitkyina 2'25", Lucknow 3'70", Bahraich 5'19", Agra 3'31", Meerut 2'18" and Roorkee 4'57".
" 4th.	Gorakhpur 2'17".
" 5th.	Dibrugarh 2'63".
" 6th.	Akyab 4'42" and Zeyar 3'19".

5. The rainfall of the whole period from the 29th April to the 6th October is within 20 per cent of the normal everywhere, except in Kashmir and Baluchistan where it is more than 20 per cent in defect, and in the North-West Frontier Province, Sind, Berar, Mysore, the Madras Deccan, and the Madras Coast North where it is 20 per cent or more in excess.

Season and Crop Prospects for the week ending Saturday,  
1st October 1910.

**Burma.**—The rainfall was heavy in Tenasserim, moderate in the rest of Lower Burma and mostly light in Upper Burma. Reports for ten districts have not been received. Sowing and transplanting of winter rice have nearly been completed in Lower Burma and are progressing normally in Upper Burma. Operations have been retarded by floods in parts of four districts. Standing crops are on the whole in good condition and prospects are favourable. The price of unhusked rice has risen considerably in Pegu and has fallen considerably in Tharrawaddy. Slight variations are reported for three other centres. Prices are generally normal.

**Eastern Bengal and Assam.**—Less rain was received during the week. No rain fell in Darrang and Nowgong but the fall was fairly heavy in parts of the Chittagong division, Bakarganj and Mymensingh and light to moderate elsewhere. Steeping and washing of jute continue. Transplantation of winter rice and harvesting of autumn rice have been nearly completed. Ploughing for spring crops, plucking of tea and sowing of pulses are in progress. Prospects of cotton, sugarcane, tea and winter rice are good. The average price of common rice has fallen about one per cent. Cattle disease prevails in Goalpara, Kamrup, Darrang and the Garo Hills.

**Bengal.**—The rainfall during the week was general over the Province. The fall was heavy in Cuttack, Balasore, Puri and also in Manbhum and Singhbhum; moderate in Hooghly, Khulna, Muzaffarpur, Darbhanga, Purnea, the Sonthal Parganas, Angul and Ranchi and light in the rest of the Province. More rain is wanted for standing crops in Bankura, Midnapore, Hooghly, the 24 Parganas and Murshidabad. Harvesting of autumn crops is in progress. Weeding of winter rice continues. The condition of winter rice and other standing crops is good in most districts. The price of common rice has fallen in Burdwan, Midnapore, Nadia, Murshidabad, Jessore, Patna, Gaya, Saran, Muzaffarpur, Darbhanga, the Sonthal Parganas, Angul, Hazaribagh and Palamau and has been stationary in the remaining districts. Cattle disease is reported from thirteen districts. The fodder and water supply is sufficient throughout the Province.

**United Provinces.**—Excessive rain fell at the close, or just after the close, of the week over a large part of the Provinces causing some damage to standing crops especially in low-lying tracts. The state of prices however indicates no material damage to general prospects. Cotton-picking and harvesting of maize and millets continue. The heavy rainfall retarded in places the preparation and sowing of fields for spring crops and fine weather is now required. The condition of agricultural stock continues good but sporadic cattle disease is reported from twenty-nine districts. Supplies are everywhere ample. Prices have fallen in fourteen districts and are for the most part stationary elsewhere.

**Punjab.**—The rainfall during the week was heavy to good in the Delhi division; moderate in Jullundur and light in parts of Rawalpindi and Mianwali. Autumn crops are being harvested in certain districts. Ploughings for and sowing of spring crops continue. The condition of standing crops is average in Amritsar, Lahore, Sialkot and Multan, average to below average in Lyallpur, average to poor in Mianwali, average to bad in parts of Ferozepore, good to fair in Hissar and good elsewhere. Crops are withering for want of rain in parts of Sialkot, Shahpur and Mianwali. Insects are injuring rice in Ambala and great millet and maize in parts of Lyallpur. Slight damage by rats is reported from Ferozepore. Crops have also been damaged to some extent by heavy rainfall in Gurgaon and Delhi. Prices have fallen slightly. The condition of cattle is generally good. Fodder is sufficient except in parts of Mianwali. Complaints of a short canal water supply are still being received from the Toba Tek Singh and Samudri tahsils in the Lyallpur district. Water is scarce in parts of Mianwali.

**North-West Frontier Province.**—Slight showers fell during the week in the Hazara and Kohat districts and in the Swabi and Mardan tahsils of the Peshawar district. Rain is badly wanted in the Dera Ismail Khan district. The condition of standing crops and the expected outturn are average. Rice is being reaped and cotton picked in some parts of the Peshawar district. Sowings of spring crops are in progress. The fodder and water supply is sufficient throughout the Province. Very little irrigation is being done from the Paharpur canal. Cattle are generally in good condition but disease is prevalent in some villages of the Peshawar tahsil and in one village of the Charsadda tahsil. The public health is generally good. Malarial fever is prevalent in the Dera Ismail Khan district. Prices of food grains show a tendency to fall. Prices :—wheat 13½ to 18½; gram 16 to 26; maize 15 to 29½ and *hajra* 18 to 25 seers per rupee.

**Jammu.**—No rain fell during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

**Kashmir.**—There is no disease among cattle. Fodder is sufficient. Prices are stationary.

**Rajputana.**—The rainfall report in cents, was :—Banswara 116; Partabgarh 58; Tonk 461; Bundi 3; Kotah 3; Jhalwar 86; Jaipur 265; Alwar 551; Karauli 517; Dholpur 539 and Ajmer 14. Bharatpur received 17 inches. No rain or practically none fell elsewhere. The rain though sufficient for crops has left many tanks in Ajmer-Merwara empty. Agricultural operations are in progress. Standing crops are generally good. Damage by insects is reported in Tonk and by heavy rains in Bharatpur and Karauli. Crops are withering in Sambhar for want of rain. The outturn in Bharatpur may be below the average unless good sunshine follows the heavy rains. Cattle disease is prevalent in Jaisalmer, Banswara, Jhalwar, Bharatpur and Merwara. Fodder is sufficient. Prices are low and have a tendency to fall.

**Central India.**—The rainfall was general and sufficient in all the Agencies but was somewhat excessive in Gwalior and Malwa. Harvesting of autumn crops and sowing of spring crops continue. Crops are generally in excellent condition but have been damaged slightly by insects and excessive rain in Gwalior, Bhopal, Malwa and Bhopawar. The weather continues overcast and unsettled and bright clear weather is now badly wanted for maturing and harvesting crops. Fodder is plentiful. Some cattle disease prevails in all Agencies except Gwalior and Malwa. Prices are falling slowly everywhere.

**Central Provinces.**—Light to moderate rain was received during the week throughout the Province. The quantity registered at head-quarters ranged from 35 cents to 4 inches in the districts of Jabulpore division, 3 to 5 inches in the Nerbudda division, 1 to 4 inches in the Nagpur division, 2½ to 4 inches in the Chhattisgarh division and 1½ to 5 inches in Berar. A break would now be welcome especially in the important *juar* and cotton-growing districts where crops have suffered somewhat from excessive moisture. Harvesting of early sown rice and *mahua* crops, weeding of autumn crops and preparation of land for sowing of spring crops have been retarded in several districts owing to continuous rain. The condition of standing crops is generally good. The supply of fodder and water is adequate. Agricultural stock is in good condition. Prices :—The price of wheat remained stationary in 12 districts, gram in 14, rice in 15 and *juar* in 17. Gram in Jabulpore and Raipur and *juar* in Betul and Buldana fell from 2 to 3 seers per rupee. Elsewhere fluctuations were unimportant and generally indicate a tendency to fall.

**Feudatory States.**—During the week Nandgaon had heavy rain amounting to 9 inches. Elsewhere the rainfall was from 62 cents to 3 inches. A break is needed in Sakti and Sirguja. Excessive rain has damaged *til* in Kawardha. The condition of crops is generally satisfactory. Fodder and water are sufficient. Prices :—Wheat, gram and *kodua* in Chhuikhadan and rice in Udaipur became cheaper by 2 to 3 seers per rupee. Wheat in Jashpur rose by 2 seers.

**Bombay.**—The rainfall during the week was heavy in parts of the Konkan, Nasik, Ahmednagar and Savantvadi; good in Surat, Khandesh, Poona, Satara, Bijapur, and Kathiawar; moderate in Ahmedabad, the Panch Mahals, Kaira, Dharwar, Baroda, Mahi Kantha and Rewa Kantha and slight in Broach, Palanpur and Cutch. The rainfall was sufficient and generally beneficial. Standing crops have been damaged slightly by excessive rain in Ratnagiri, Nasik, Ahmednagar, Bijapur and Savantvadi, by rats in Karachi, by insects in Larkana, by grasshoppers in Ahmednagar, Poona and Dharwar and are generally good elsewhere. Harvesting of autumn crops is progressing in parts of Sind, Gujarat, Thana, Ratnagiri, Baroda, Mahi Kantha and Rewa Kantha. Lands are being prepared for cultivation of spring crops in parts of Sind, the Panch Mahals, West Khandesh, Nasik, Poona, Satara and Rewa Kantha. Sowing of spring crops continues in Broach, Satara and Baroda but was retarded by excessive rain in Nasik, Ahmednagar, Poona and Bijapur. The fodder supply is generally adequate. Agricultural stock is deficient in Ahmednagar and Satara and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Prices have risen in Ahmedabad, have fallen in other Gujarat districts, the Upper Sind Frontier, Bijapur, Dharwar and parts of the Deccan and Konkan and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 79 to 40 per cent, in the Konkan 13 to 20 per cent and in the Karnatak 2 to 25 per cent less than the normal. In Gujarat prices ranged from 18 per cent more than the normal to 10 per cent less in the Deccan from 25 per cent more to 10 per cent less.

**Hyderabad.**—The weather during the week was showery. Heavy rain fell in the Aurangabad division. The total rainfall for the season was nearly 50 inches in the Nander district, over 50 inches in Parbhani and 38 inches in Aurangabad. The cotton crop has suffered especially in the Nander district and the loss is estimated at about 25,000 bales but it is too early to form an opinion. Sowings of spring crops have been retarded in places by the heavy rainfall. Raichur has benefited much by the rainfall. Prospects are good on the whole but settled weather is required.

**Mysore.**—The rainfall was slight in Kolar and Mysore and good elsewhere. Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

**Coorg.**—Rainfall 4 inches 44 cents. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

**Madras.**—The rainfall was very heavy in South Canara; heavy in the Vizagapatam littoral, Godavari, Kistna and Bellary; good in Ganjam, the Vizagapatam Agency, Guntur, Kurnool, Anantapur, Nellore, Chingleput, South Arcot, Malabar and the Nilgiris; nil in Tinnevely and light to fair elsewhere. The rainfall in fifteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in the Circars, Bellary, Anantapur, Cuddapah, Trichinopoly, Ramnad, Malabar, South Canara and the Nilgiris and insufficient in Chingleput and in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary have been damaged by excessive rain and grasshoppers and some in parts of Guntur, Salem, Coimbatore, Madura, Ramnad and Tinnevely require more rain. Harvests continue in parts with outturn generally fair to normal. Pasture is insufficient in parts of Coimbatore and Tinnevely. Fodder is scanty in Ganjam, Godavari, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in ten districts, has fallen in ten and has risen in three. The prices of millets have fluctuated as follows:—*Ragi* is stationary in six districts, has fallen in twelve and has risen in three. *Cholam* is stationary in four districts, has fallen in six and has risen in five. *Cumbu* is stationary in five districts, has fallen in eight and has risen in three. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

# ANNUAL REPORT

ON

## THE POST OFFICE OF INDIA

FOR THE YEAR

### 1909-1910.

*No. 190-S.—B.P., dated Simla, the 26th September 1910.*

*From—The Hon'ble Mr. C. STEWART-WILSON, I.C.S., Director-General of the Post Office of India,  
To—The Secretary to the Government of India, Department of Commerce and Industry.*

I have the honour to submit the Annual Report on the Post Office of India for the official year 1909-10.

2. The administration of the Department was in my hands throughout the year. Charge of  
the Post  
Office.

3. From the following figures some idea will be formed of the magnitude of the business of the Indian Post Office at the present time. At the close of 1909-10, the numerical strength of its staff was 92,163, the number of post offices open was 18,642, and the mileage of mail lines was 156,761 representing an annual travel of over 135 millions of miles. During the year, nearly 920 millions of articles, including nearly 26½ millions of registered articles, were given out for delivery; stamps worth more than ½ million pounds were sold for postal purposes; over 24½ million money orders representing a total value of more than 29 million pounds sterling were issued; a sum of nearly 5½ million pounds was realised on account of tradesmen and others through the value payable system; over a million insured articles representing a total insured value of nearly 17 million pounds were posted, while the amount paid as compensation was only about £500; pensions to the amount of more than £171,000 were disbursed to Native military pensioners in the Punjab; 7,701 lbs. of quinine were sold to the public; and over 5¼ millions of telegraph messages were sent from telegraph offices under the control of the Post Office, representing a total revenue of £213,750 as compared with postal expenditure of £78,000 on account of such offices. The number of accounts open in the Savings Bank on the 31st March, 1910, was 1,378,916 with a total balance of over 10½ million pounds sterling. The total revenue and expenditure for the year, after making the various administrative adjustments, amounted to £1,943,275 and £1,986,755, respectively.

Principal  
events,  
inland post.

4. There were during the year few changes in the inland post which directly affected the public.

On the 1st April, 1909, the last two remaining minor circles, Central Provinces and Rajputana, were abolished and in their place the Central Circle was created.

The reforms in sorting which were alluded to in last year's report were proceeded with. Their success was manifest, and in the course of the current year their completion may be expected.

(The field post offices in North China were maintained, and special postal arrangements were made as usual for military camps, etc., and for the tour of His Excellency the Viceroy.

There was a strike of drivers on the Madras and Southern Mahratta Railway in May, 1909, which temporarily interfered with the running of mail trains. Special arrangements were, however, made to cope with the difficulties, and few serious delays to the mails occurred.

The great cyclone of 17th October last disorganised for the time the steamer and train services of Eastern Bengal. One postal servant lost his life in the storm. Interruptions in the mail service due to breaches on the railways were not more than usual.

The Calcutta-Madras mail train ran off the line and was wrecked at Ennore on 19th June, 1909, and the Inspector of Sorting travelling in the mail van was killed. The Madras inward Postal Special train was also wrecked on 4th March, 1910, at Bhalwani in collision with a goods train.

Only in the Central Circle did plague appear in a more virulent form than last year. The deaths among all employes from the disease were 85 as against 62 in the preceding year.

Increases in  
pay of postal  
servants.

5. As in previous years, the necessity of the pay of postal servants keeping pace with increase in responsibilities and in cost of living has been constantly borne in mind. During the year under report increases in pay were sanctioned in the case of 8 head postmasters, 3 deputy and assistant postmasters, 1,077 sub-postmasters, and 484 branch postmasters. The pay of 575 clerks and sorters, 2,721 postmen and village postmen, 1,122 runners, and 619 other inferior servants was also raised. In spite of the business of the year financially, no fewer than 5,679 postal officials have had their pay and prospects improved.

Principal  
events,  
foreign post.

6. The foreign money order system was extended to Anguilla in the West Indies; to Benadir (Italian Somaliland); to the Chatham, Cook, Fanning, Penrhyn and Savage Islands in the Pacific Ocean; to the French Colonies on the West Coast of Africa; and to the Island of Madagascar. Arrangements were concluded during the year for the introduction, from the 1st April, 1910, of a direct exchange of money orders between India and the Orange River Colony (in place of the previously existing service through Natal) and between India and Siam. The maximum limit of amount for a single money order was raised to £20 in the case of the exchange with Mexico and to £40 in the case of that with Bulgaria.

The rates of postage applicable to parcels for France, Italy, Egypt, and a large number of other countries were reduced in consequence of the British Post Office having agreed to the application of the reduced charges for sea transit—contemplated by Article 3 of the Parcel Post Convention of Rome—to the services performed by the P. and O. steamers between Bombay and Marseilles *via* Aden and Port Said and between Port Said and Brindisi. Reductions were

also effected in the rates of postage on parcels for Canada, North-Eastern Rhodesia, the German offices in Morocco, Netherlands-India, and the Seychelles.

The foreign parcel post was extended to the Malay States of Kedah and Kelantan and insurance to destination was made available for foreign registered letters addressed to German New Guinea, to certain places in the Caroline, Marianne (or Ladrone) Marshall, and Palaos (or Pelew) Islands, and to the British postal agencies in Turkey at Beyrout, Constantinople, Salonica, and Smyrna.

The parcel post service from India to Servia had to be suspended owing to the Servian Postal Administration having imposed certain conditions on the acceptance of postal parcels for that country which could not be complied with by the Indian Post Office.

Arrangements were made, in the case of uninsured parcels exchanged between India on one side and Gibraltar, Hongkong, Mauritius, the Seychelles, and New Zealand on the other, for the payment under certain conditions of compensation not exceeding 25 francs (Rs. 15-0-0), in the event of loss of, damage to, or abstraction from, such parcels.

A revised agreement was entered into with the Chinese Imperial Postal Administration for the establishment of direct mail communication between the Chinese provinces of Yunnan, Kweichow, and Szechwan and Burma *via* Bhamo in Upper Burma and *via* Kengtung in the Southern Shan States.

7. According to the sanctioned time tables of the Peninsular and Oriental Steam Navigation Company the steamers carrying the mails from Europe were due to arrive at Bombay at 6 A.M. on Friday of each week. During the year under report, 52 weekly mails were received, and the mail steamers arrived at Bombay on 51 occasions on Friday and once on Sunday. In the case of the Friday arrivals, the contract time was exceeded on five occasions; while, in the solitary instance of a Sunday arrival, the delay was due to an accident to the S. S. "China" in the London Docks. The shortest time occupied in the transit of the mail from London to Bombay was 13 days, 7 hours, while the average time for the year was 13 days, 9 hours, and 32 minutes. In the opposite direction, that is, from Bombay to London, the quickest transit was 12 days, 22 hours, and 2 minutes, the average time for the year being 13 days, 12 hours, and 51 minutes.

Working of  
the P. and O.  
contract.

## Section I.—Post Offices and Postal Communications.

### (1) Post Offices and Letter-boxes.

8. Appendix I shows the number of post offices, letter-boxes and village postmen in each circle at the close of the year, compared with those in existence at the close of the previous year. There was an increase during the year of 243 post offices and 2,176 letter-boxes. The increase in the number of post offices was greatest in the Bengal and Eastern Bengal and Assam Provinces. The number of post offices in charge of school masters and other persons not being regular servants of the Department rose from 11,918 to 12,149.

Post offices  
and letter-  
boxes

### (2) Postal Communications.

9. In Appendix I is also shown the length of line over which mails were conveyed in each circle by the various agencies employed by this Department.

Postal  
communica-  
tions.

The total figures for the year under report and for the preceding year are given in the following statement:—

The figure 156,761 represents a total annual travel of over 135 millions of miles.

## Section II.—Correspondence and Parcels—Postage Stamps.

### (1) Correspondence and Parcels.

Statistics of postal articles.

10. The estimated number of postal articles of all kinds, exclusive of money orders and parcels, issued for delivery during the year, added to the actual number of parcels, amounted to over 919½ millions, or 44 millions in excess of the corresponding figure of the preceding year. Statistics showing the different classes of articles delivered in the various postal circles during 1909-10 will be found in Appendix II, and a general summary of the results is given in the following statement:—

The slackness of trade in the country during the year consequent on the bad harvests of the year before and the general commercial depression throughout the world accounts for the comparatively small increase. The slow development of our parcel traffic during the last two years is specially noticeable.

The diagram opposite this page shows graphically the growth of postal traffic in its principal branches since 1854.

11. The second table in Appendix I shows, for each postal circle, the number of post offices, letter-boxes, and postal articles in relation to area, population, and literate population, taking the figures of the last census.

Average number of postal articles per head of population.

Altogether there were 3.25 postal articles—letters, postcards, packets, and parcels—per head of the total population and 57.72 postal articles per head of the literate population according to the last census. As in previous years, the number of postal articles per head of the total population was highest in Bombay where it was 6.73.

12. The foreign correspondence received for delivery in India is included in the total figures contained in Appendix II. The estimated number of letters and postcards received from the United Kingdom was over 11½ millions, as compared with about 11½ millions in the preceding year, while the number of newspapers, book-packets, and samples received was a little over 11 millions, as compared with over 11½ millions in the previous year. The estimated number of letters and postcards despatched to the United Kingdom from this country during the year under report was about 10½ millions, as compared with nearly 9 millions, and the number of newspapers, book-packets, and samples was nearly 2 millions, as compared with about 1½ millions during 1908-09.

Foreign correspondence.

As regards correspondence exchanged with countries other than the United Kingdom, the figures for the year under report are based on the fresh statistics recorded in October, 1909. The estimated number of letters and postcards received in India from such countries was nearly 5½ millions in the year under report, while that of newspapers, book-packets, and samples received was 4½ millions. The estimated numbers of (1) letters and postcards and (2) newspapers, book packets, and samples despatched to such countries were about 6½ millions and 3 millions, respectively.

13. The total number of parcels sent by the foreign post from this country during the year was 236,049, as compared with 267,569 during the previous year, and the number of parcels received was 384,296, as compared with 354,134 in 1908-09. There was thus an increase of 6.91 per cent. in the number of foreign parcels despatched and of 8.5 per cent. in the number received.

The numbers of parcels sent to, and received from, the United Kingdom during the year were 123,701 and 276,890, respectively, as compared with 122,220 and 261,534, respectively, during 1908-09. The percentage which this traffic bears to the total of our foreign-parcel traffic remains fairly stationary. In the parcel exchanges with countries other than the United Kingdom, there was, as usual, some development, but, except in the case of Ceylon, they remain unimportant. The numbers of parcels sent to and received from these countries during the year were 161,017 (of which 101,024 were for Ceylon) and 106,930, respectively, as compared with 143,781 and 92,079\*, respectively, in the preceding year.

\* These are revised figures.

Delivery  
work of the  
year.

14. Appendix II shows that the number of letters, postcards, newspapers, and packets issued for delivery and of parcels posted amounted to 919,524,127 and these figures, added to the 24,418,682 money orders issued for payment, make a grand total for all these classes of articles of 943,942,809, as compared with 898,886,127 in 1908-09, being an increase of 5.01 per cent. as against one of 5.82 per cent. in the previous year. Of these 943,942,809 articles, it is estimated that 940,839,537 or 99.67 per cent. were actually delivered or paid.

Work of  
Dead Letter  
Offices.

15. The total number of postal articles, excluding money orders, consigned to the Dead Letter Offices during the year was 9,215,748, representing a satisfactorily small increase over the previous year of only .18 per cent. as against 8.96 per cent. in 1908-09 and 10.48 per cent. in the preceding year.

Detailed information showing the distribution among the Dead Letter Offices and the manner of disposal of the articles which reached them, is given in Appendix III. More than 30½ per cent. of the articles received were redirected to the addressees, while more than 43½ per cent. were issued for return to the senders. Less than 9 per cent. of the total number of articles issued by the Dead Letter Offices came back to them as undelivered, and the total number of articles finally deposited as "Dead," that is as undeliverable either to addressees or senders, was 2,963,653. This represents 32 out of every ten thousand of the total number of articles given out at post offices for delivery, and includes a large number of articles which from their nature were not susceptible of delivery, such as articles with no address at all. In Bengal, Madras, and Bombay alone on an average about 136 articles were posted every day with no address whatever, and many of these contained money or valuables. In articles opened in the five larger Dead Letter Offices, cheques, hundis, currency notes, bills of exchange, coins, and other property of the nominal value of nearly 5½ lakhs of rupees were found. The great majority of these articles were successfully delivered either to the addressees or the senders. Among the articles thus delivered was one containing a number of small diamonds posted in an unpaid cover.

## (2) Postage Stamps.

16. Details of the issues from treasuries of ordinary postage stamps, postcards, embossed envelopes, and wrappers and also of service postage stamps, postcards, and envelopes will be found in Appendix IV. The total value of ordinary postage stamps and postal stationery issued during the year amounted to over three crores of rupees, showing an increase of more than 44½ lakhs over the value of issues during the previous year. The total value of service stamps and stationery issued exceeded 46 lakhs, being an increase of more than 2½ lakhs upon last year's figure.

The quarter-anna ordinary adhesive stamp continued to command the highest sale, the total number sold having increased from 167 millions in the previous year to 185 millions during the year under report. The quarter-anna single postcard had the next largest sale, but, owing to the increasing use of postcards of private manufacture, the sale decreased from over 1.68 millions in 1908-09 to 116½ millions. The half-anna adhesive stamp comes next, its issues (including the stamps in booklets) were over 110½ millions. This was followed by the small half-anna envelope, which is sold for the face value of the stamp, with a sale of 69 millions as against 70 millions in the previous year. Of the ordinary stamps the sale of the 4 anna, 8 anna and 1 rupee denominations was smaller

during the year under report than in the previous year. As regards the 4 anna and the 8 anna stamps this is due to the increase from the 1st January, 1909, of the minimum rate for telegrams from 4 annas to 6 annas. There has been a large corresponding increase in the sale of 6 anna stamps. The demand for the 1 rupee stamp rose abnormally in 1908-09 for the payment of telegraph charges. The issue of the 2 rupees, 3 rupees and 5 rupees stamps to departmental telegraph offices was stopped for some months in 1908, and no stamps of higher value than 5 rupees were available in the country till January, 1909. With greater sales of the stamps of high value there was a natural falling off in the sale of the 1 rupee stamps in the year under report.

In addition to postage stamps, non-judicial and court-fee stamps are sold in many post offices; but, except in Burma, the postmaster acts as a private vendor in respect of these stamps, and they do not form part of the post office balance. In Burma, where general stamps are kept by postmasters in the same way as postage stamps, the sales amounted to Rs. 75,509.

The new 6 anna service stamps and 25 rupees ordinary and service stamps indented for during the previous year reached this country during the year and were put into circulation for the first time.

### Section III—Insurance and Value-payable Post.

#### (1) Insurance.

17. During the year under report 1,044,957 letters and parcels were insured for transmission by post, the aggregate insured value being nearly 25½ crores of rupees. The following statement shows the year's business, as compared with that of the preceding year:—

	Insured letters.		Insured parcels.		Total.		
	Number.	Value.	Number.	Value.	Number.	Value.	Insurance fees.
		R		R		R	R
1908-09	455,715	9,77,89,817	500,474	51,64,305	956,189	23,29,45,122	3,10,046
1909-10	534,527	11,60,09,027	510,430	52,97,232	1,044,957	25,46,06,259	3,33,623
Percentage of increase (+) or decrease (—).	+ 17.29	+ 18.64	+ 1.69	+ 2.54	+ 9.28	+ 9.30	+ 7.60

The average amount for which each letter was insured was Rs. 217, as compared with Rs. 215 in the preceding year, and the average amount for which each parcel was insured was Rs. 272, as compared with Rs. 270 in 1908-09.

18. During the year, one hundred and sixty-seven claims for compensation were made in respect of insured articles, as compared with one hundred and eleven in 1908-09. Fifty-nine claims were admitted, the loss having been caused in fifty-three cases by fraud and negligence on the part of postal servants, in one case by accident and the remaining five cases by highway robbery. The total amount paid in satisfaction of these claims was Rs. 8,046-4-4, as against Rs. 10,489-2-6 in 1908-09. Of this the sum of Rs. 5,377-3-5 was recovered, so that the actual loss to the Department was Rs. 2,669-0-11, as against Rs. 7,936-15-0 in the previous year.

## (2) Value-payable post.

Value-payable business.

19. The total number of value-payable articles of all kinds sent through the post was 6,870,979 as compared with 6,393,575 in the previous year. The total amount declared for recovery was eight crores of rupees, as against nearly seven crores in the preceding year. There was thus an increase of 7.66 per cent. in the number of articles and of 6.75 per cent. in the amount specified for recovery. The number of value-payable articles posted in the city of Calcutta was 2,025,494, as compared with 1,811,512 in the preceding year, and the Department realised on the delivery of these articles and paid over to the tradesmen of Calcutta a total sum of Rs. 2,35,52,396 or over one and a half million pounds sterling. The number of value-payable articles posted in the city of Bombay rose from 924,689 to 983,369 during the year under review and the amount realised on the delivery of the articles and paid to the senders was Rs. 1,13,87,441, or over three-quarters of a million pounds sterling.

The increase extended to all classes of value-payable articles. The average value of each article posted was Rs. 11-14-2, as compared with Rs. 11-15-10 in 1908-09.

The number of value-payable articles despatched from India to Ceylon was 80,720 of the aggregate value of Rs. 7,35,069 as compared with 71,558 articles valued at Rs. 6,07,983 in 1908-09.

## Section IV.—Money Orders.

General money order business.

20. Appendix V (a) shows the entire money order transactions (including value-payable money orders) of the Department year by year for a period of ten years, separate figures being given for inland and foreign money orders. The total number of money orders issued during 1909-10 was 24,669,161 as compared with 23,877,637 in the previous year, and the total amount remitted was more than 43½ crores, as compared with over 42¾ crores in the year 1908-09. Foreign money orders constitute, as usual, a very small percentage (3.17) of the entire transactions of the year.

21. Appendix V (b) shows the issues and payments of inland money orders for 1909-10 by postal circles and compares the results of the year with those of the previous year. More than 23¼ million inland money orders, ordinary and telegraphic, of the aggregate amount of nearly 40 crores of rupees were issued during the year; and the commission amounted to something over 46½ lakhs of rupees. There was an increase over the transactions of the previous year of 3.27 per cent in the number of inland money orders issued, of 1.98 in their amount, and of 2.26 in the commission realised.

The average amount of an inland money order was Rs. 16-11-8 as compared with Rs. 16-15-1 in the preceding year.

Telegraphic money orders.

22. Appendix V (b) also gives separate figures for telegraphic money orders. There was an increase both in the number and in the amount of such orders issued, as well as in the postal commission realised, which amounted to Rs. 2,92,086 as compared with Rs. 2,85,469 in the preceding year. The average amount of a telegraphic money order was Rs. 85-7-2, as compared with Rs. 91-6-11 in 1908-09.

Special money order business.

23. The special classes of money orders for the payment of land revenue, rent, and miscellaneous Government dues are included under inland money orders

in Appendix V.(b). Separate figures for these classes of orders are given in the table below. With one exception, the totals under each class show a satisfactory increase as compared with the corresponding figures of the previous year, which are also given. The exception is in the *number* of orders in payment of miscellaneous Government dues which is less by 8,629 than during the year before.

■ Approximate figures.

The revenue money order system is not in force in Burma; the rent money order system is not in force in the Punjab, Madras, Bombay, and Burma; and the system of remitting miscellaneous Government dues by money order is not in force in the Central Circle and Bombay.

24. Figures relating to the money order exchanges with foreign countries will be found in Appendix V(c). This shows (1) sterling money order exchanges, which are in force with the United Kingdom and its colonies and with foreign countries generally, and (2) rupee money order exchanges, which are in force chiefly with countries and places in the Far East and Africa. The money order transactions with the Native States of India which have separate postal arrangements are also included, for convenience in this Appendix. These figures for no special remark.

25. During the year under report there was a further increase in the sales of British postal orders, the total number of orders sold being 341,981, as compared with 309,048 in the preceding year, and the total value (including poundage) £232,103, as compared with £214,480 in 1908-09. The chief increases occurred in the Punjab and North-West Frontier Circle and in Bengal. Of the total number of British postal orders sold, 161,808 were of the value of £1, 37,708 of the value of 10s., and 26,983 of the value of 5s. each. 64,660 orders of the aggregate value of £42,654-18s.-0d. were paid in this country in 1909-10, and 8,156, of the value of £4,547-11s.-2d., were orders issued and paid in India, as compared with 6,052 of the value of £3,232-17s.-0d. issued and paid in the preceding year. The net commission realised by the Indian Post Office on the sales of the year was Rs. 12,199, as compared with Rs. 10,793 during the previous year.

### Section V.—Post Office Savings Banks.

General  
results of the  
year.

26. Appendix VI shows in detail, according to postal circles, the Savings Bank transactions of the year, as compared with those of the previous year. There were 1,378,916 active accounts in existence on the 31st March, 1910, showing a net increase of 60,284 or 4.57 per cent. The total amount at credit of depositors at the close of the year exceeded 15 crores 86½ lakhs and was about 63½ lakhs or 4.17 per cent. more than the balance at the close of the preceding year.

The deposits and withdrawals, exclusive of all transfers, increased and decreased by over 32½ lakhs and 24½ lakhs, respectively, and the interest paid increased by over 1½ lakhs.

The 1,378,916 active accounts were composed of:—

		Crores.	Lakhs.
70,764	Security deposit accounts with a balance of about . . . . .	R	0 76½
9,528	Public accounts with a balance of over . . . . .	„	0 61½
572	Regimental and other conjoint accounts with a balance of over . . . . .	„	0 17½
169,864	Minors' accounts with a balance of over . . . . .	„	2 69½
1,128,188	Ordinary accounts with a balance of over . . . . .	„	11 61½

The figures show that 94.14 per cent. of the accounts, and 90.21 of the total balance of 15 crores 86½ lakhs represent savings of private persons. Of the total number of accounts open at the close of the year, 1,298,052 were held by private persons. In only 6,211 of these accounts, or .48 per cent., as compared with 6,343 or .51 per cent. in the previous year, were deposits subject to 6 months' notice of withdrawal, the deposits in the remaining accounts being at call. The number of accounts held by natives of the country represents 91.13 per cent. of the total number open at the close of the year.

Occupation  
of depositors.

27. In Appendix VI will be found a classification, according to their occupation, of depositors in the Post Office Savings Bank. It will be seen that, as in the preceding year, the largest number of accounts were held by the under-mentioned classes of depositors in the following order:—

- (1) persons of no occupation or whose incomes are derived from others, classed as "Indefinite" in the statement,
- (2) the professional class, and
- (3) the domestic servant class.

Investment  
in Govern-  
ment secu-  
rities.

28. The number of Government promissory notes purchased through the Post Office was 3,114 of the nominal value of Rs. 16,27,300, as compared with 3,107 of the nominal value of Rs. 16,42,500 in the previous year. The number of Government promissory notes sold was 736 of the nominal value of Rs. 4,88,500, as compared with 745 of the nominal value of Rs. 5,39,000. The nominal value of the Government promissory notes held in the custody of the Accountant-General, Post Office and Telegraphs, at the close of the year on account of depositors in the Post Office Savings Bank was Rs. 64,48,900, as compared with Rs. 57,59,300 on the 31st March, 1909. The value of securities in the custody of the Accountant-General, Post Office and Telegraphs, in the 3½ per cent. loans was Rs. 63,95,400 and in the 3 per cent. loans Rs. 53,500. During the year under report, 1,300 investment certificates for fractional amounts of Government promissory notes of the nominal value of Rs. 3,60,226 were

purchased, as compared with 1,401 investment certificates of the nominal value of Rs. 3,91,257 purchased in the previous year. The number of investment certificates sold was 779 of the nominal value of Rs. 1,93,394, as compared with 697 of the nominal value of Rs. 1,56,902 sold in the preceding year.

29. An estimate of the financial results of the working of the Savings Bank is given below, as directed in Resolution No. 2428 of the 13th May, 1902, issued by Government in the Finance and Commerce Department :—

### Section VI.—Miscellaneous.

30. The statement below shows the transactions of the Post Office Guarantee Fund. The balance at credit of the Fund, including the nominal value of Government securities held on its behalf, rose from Rs. 10,41,380 on the 31st March, 1909, to Rs. 10,47,810 on the 31st March, 1910. The amount decreed against the Fund was Rs. 24,313 as compared with Rs. 11,634 in the previous year. A sum of Rs. 5,590 was paid as gratuities to servants of the Department or their heirs under the powers given by Government, and a sum of Rs. 1,029 was advanced at an easy rate of interest to servants of the Department for various purposes.

A sum of Rs. 37,455 was added to the Fund during the year on account of interest :—

**Complaints  
by the public.**

31. The number of complaints recorded as having been made by the public was 51,483 against 51,124 in 1908-09, being an increase of only 70 per cent. as compared with an increase of 501 per cent. in the number of articles carried. The number of cases in which the complaints were found to be justified was 16,648 against 16,442 in 1908-09. Though it is fully acknowledged that these 16,648 complaints by no means represent all the justifiable causes of complaint given to the public during the year, it is at least of some interest to observe that they represent a percentage of only 0018 on the total number of articles carried during the year.

**Complaints  
regarding  
special classes  
of articles.**

32. During the year under report, 5,331 complaints were received regarding the special classes of postal articles shown in the following statement :—

	Registered articles other than parcels and insured value-payable articles.	Ordinary registered parcels.	Insured letters and insured parcels.	Value-payable registered articles of all kinds.	Total for 1909-10.	Total for 1908-09.
Number of complaints received.	2,121	1,631	347	1,232	5,331	4,615

Out of these, enquiries showed that in 3,064 cases the Post Office was in no way to blame. In 862 cases no definite conclusion had been arrived at when the year closed, while in 1,405 cases, or 26·3 per cent. of the total, the complaints were well-grounded. Of the well-grounded complaints, 284 were made in respect of more than 2½ millions of ordinary registered parcels, 109 in respect of over a million of insured articles, 441 in respect of nearly 3½ millions of value-payable registered articles, and 571 in respect of more than 18½ millions of registered articles of other kinds. The figures for complaints in respect of registered parcels for the last three years (864, 1,074, and 1,270) are eloquent of the growth in size of ladies' hats and of the faith so unworthily bestowed on mere cardboard boxes to keep them safe in transit.

The number of inland registered articles in respect of which claims for compensation were dealt with was 599 as compared with 431 in the previous year. Compensation amounting to Rs. 3,197-1-1 was paid in respect of 227 articles, while applications for compensation were rejected in the case of 228 articles. At the close of the year, 160 cases were still under enquiry.

**Offences by  
servants of  
the Post  
Office.**

33. The number of cases in which servants of the Post Office were held to be guilty of offences punishable by law as well as the number of such servants punished in those cases are shown in Appendix VII, and a summary of the figures is given in the margin.

	1908-09.		1909-10.	
	Number of cases.	Number of offenders.	Number of cases.	Number of offenders.
Convictions in Courts of law.	321	285	330	273
Cases departmentally punished.	232	226	239	247
	553	511	569	520

There were 84 cases of misappropriation of office cash, 144 money order frauds, 11 savings bank frauds, and 83 cases of theft from mails or post offices. Most of the remaining offences were committed in respect of letters, parcels, or other postal articles entrusted to the Post Office for conveyance.

Among the offenders convicted or departmentally punished were 55 departmental postmasters and 34 clerks, 87 extraneous agents in charge of post offices, 224 postmen and village postmen, 33 runners, and 25 officials of the Railway Mail Service. The defalcations and losses amounted to Rs. 46,947-0-9, as compared with Rs. 65,197-9-6 in the previous year. Of this sum Rs. 27,462-8-3 was recovered from the offenders or their sureties, Rs. 4,747-2-0 was decreed against the Post Office Guarantee Fund, Rs. 83-7-4 was written off as irrecoverable, and Rs. 14,653-15-2 had still to be adjusted at the close of the year.

34. The offences against the Post Office committed by persons not belonging to the Department included nine cases of money order frauds involving a sum of Rs. 645 and two cases of fraudulent withdrawals from the Savings Bank amounting to Rs. 175. There were also ninety-eight cases of theft of Government money from the mails and post offices, besides cases of highway robbery, which are dealt with separately. The total amount stolen was Rs. 14,161-15-6, of which Rs. 3,661-2-10 was recovered, Rs. 107-5-2 was decreed against the Guarantee Fund, Rs. 1,030-15-0 written off as finally lost, and Rs. 9,362-8-6 remained unadjusted at the close of the year.

35. There were 29 cases of highway robbery of the mails, as compared with 35 in the previous year. Of these, nineteen occurred in British territory and ten in Native States.

Of the robberies that occurred in British territory, six took place in Madras, four in the Punjab, four in the United Provinces, three in Bombay, and two in Bengal.

Two cases were attended with loss of life. On the night of the 22nd April, 1909, a runner carrying mails from Tekkalakota to Bellary in Madras was murdered by robbers who carried away the whole mail. Four men were arrested on suspicion, but were discharged for want of evidence. The second case occurred on the North-West Frontier on the Fort Sandeman-Daraban line. The mails from Daraban and Moghalkot Shirani due at Fort Sandeman on the 21st March, 1910, were robbed in transit and the trooper accompanying them was murdered. The mails were recovered intact. The murder of the trooper, which was ascertained to have been due to a private feud, was referred to the Shirani *jirga*, which agreed to arrange a settlement according to tribal custom.

Two other cases, though not attended with loss of life, may be mentioned. On the 7th August, 1909, thirteen parcel bags were being conveyed from Karaikudi to Oyakondan Siruvayal in the district of Madura in Madras. The bags were in a bullock cart in charge of an overseer, who was driving it himself when he was attacked and overpowered by a band of robbers, who drove the cart into the jungle and unloaded it. The overseer was left bound hand and foot, but managed to reach the outskirts of the nearest village, whence he sent word to the local Police. Eight of the thirteen bags were found unopened in the jungle. Seven men were subsequently arrested, of whom six were sentenced to various terms of rigorous imprisonment. The second case occurred in the Native State of Bastar during the local rising of February, 1910, during the early stages of which the mail communications between the post offices in the State were seriously disorganised. Two runners' huts and some letter-boxes were destroyed, and some mails were carried off.

Government suffered a loss in this class of case amounting to Rs. 14,326-5-6. Of this sum, Rs. 569-5-0 represents cash and stamps stolen. The entire mail

was recovered in eight cases, and part of the mail in thirteen cases. In the remaining eight cases the whole mail was lost. Eight prosecutions were instituted, in five of which convictions were obtained.

In addition to the cases of actual highway robbery mentioned above, there was one unsuccessful attempt to rob the mails. This took place in British territory.

#### Casualties.

36. These were unfortunately not the only cases during the year in which lives of postal servants were lost. On the 15th May, 1909, a runner in Coorg, while waiting at a stage to receive the incoming mails, was accidentally shot dead by an Indian sportsman. On the 12th June, 1909, a runner in the Punjab was exchanging mails from the footboard of a mail van, when, the train starting suddenly, his foot slipped and he was run over and killed. On the 16th November, 1909, the sub-postmaster of Malkhanagar in the district of Dacca and a postman of the office were brutally murdered in their beds. Robbery was apparently not the object as nothing was taken away. The police enquiry into the case has not yet been concluded. On the 8th December, 1909, a village postman in Bengal was murdered while sleeping in a school house in his beat, having been taken for the school master against whom his assailants had a grudge. Some of them have since been secured and are under trial. In the same month, a postman in the Bombay Presidency, while returning from his beat, was bitten by a venomous snake and died. On the 3rd February, 1910, a runner in Bengal was carried off by a tiger. On the 21st of the same month a mail overseer and a village postman in Burma were severely beaten by some villagers who took the former for a plague inspector against whom they had a grudge. The village postman subsequently died from the injuries received. Three arrests have been made and the accused are under trial. On the 26th February, 1910, a village postman in the Punjab, while out on his beat, was decoyed into a field of sugar-cane and was there murdered for the sake of an insured parcel which he had in his possession. The reported assailants were subsequently arrested by the police, but the enquiry into the case had not been concluded when the year closed.

It is a matter for congratulation that the Leh and Gilgit lines were entirely free from accidents during the year under report.

During the year seventeen post offices and one mail office were destroyed by fire and the severe cyclone of October, 1909, destroyed several post offices in Bengal and Eastern Bengal.

entire staff of the Department, the numbers in the different classes being shown separately for each postal circle. On the 31st March, 1910, the numerical strength of the Post Office establishment was 92,163 as compared with 91,187 at the

close of 1908-09. This included 264 pensioned soldiers of the Native Army, of whom 52 were non-commissioned officers and 212 sepoys. The number of women employed was 82, of whom all except 9 were either Europeans or Eurasians.

The total number of servants of the Department dismissed during the year was 569 as against 612 in the previous year. Of this number 256 were postmen or village postmen and 33 belonged to the road establishment.

38. The number of officials of the Post Office who joined the General Provident Fund during the year was 3,315, representing about seven per cent of the total number of officials eligible for admission, and 801 of the officials who joined paid subscriptions at the maximum rate. The majority of the subscribers were clerks (including signallers) but it is gratifying to note that 581 were postmen and village postmen.

39. The charges incurred during the year on account of printing work done by private presses amounted to Rs. 17,438, as compared with Rs. 22,572 in the year 1908-09.

## Section VII.—Non-Postal Branches of the Post Office.

40. During the year under report 113 combined post and telegraph offices were opened, and 8 previously existing offices were closed. There was, therefore, a net increase of 105 in the total number of combined offices as compared with a net increase of 113 during 1908-09 and 107 during 1907-08. Of the 113 new combined offices 111 were opened at places which had previously been without a Government Telegraph Office and 79 at places where there had previously been neither a Government nor a Railway telegraph office. The total number of combined offices open on the 31st March, 1910, was 2,483 as compared with 2,378 on the 31st March of the preceding year. The number of postal servants who qualified as signallers was 651 and the total number of signallers employed was 3,930 as compared with 3,455 at the close of 1908-09. There were 1,113 boys employed as messengers in these offices as compared with 1,067 at the close of the preceding year.

41. In Appendix IX will be found the traffic statistics of combined offices supplied by the Telegraph Department. According to these there was an increase of 29,545 or 51 per cent in the number of messages sent; and a decrease of 710,926 or 12.07 per cent in the number received, and of Rs. 13,379 or 41 per cent in the revenue realised on sent messages as compared with the figures of the previous year. The apparent decrease in the number of messages received is due to the inclusion this year of paid messages only. In former years both paid and free messages were included. The revenue from messages despatched from combined offices is given as Rs. 32,06,255, as compared with Rs. 32,19,634 during the preceding year, while the total number of messages (excluding free messages) sent is given as 5,783,614 and the number received as 5,177,478.

42. In addition to the telegrams sent and received by the 2,483 combined offices, there were 52,927 telegrams booked at receiving post offices for despatch by post to telegraph offices as compared with 56,956 in the previous year. The revenue realised on these telegrams was Rs. 28,022 as compared with Rs. 31,704 in 1908-09.

The number of telegrams received at post offices in the Persian Gulf on account of the Indo-European Telegraph Department was 440 against 628 in the year 1908-09, and fees to the amount of Rs. 3,077 were realised, as compared with Rs. 4,002 in the previous year.

Carrying  
agency on the  
Kalka-Simla  
line.

43. From the 1st February, 1910, the day mails between Kalka and Simla were conveyed by the Kalka-Simla State Railway and from the same date the horse establishment was greatly reduced. The gross expenditure on the service was Rs. 1,50,710 as compared with Rs. 1,82,557 in the previous year, while the receipts amounted to only Rs. 17,402 as compared with Rs. 25,857. The decrease in revenue is due to the fact that passengers now travel almost exclusively by the railway. The net cost of the line to Government was Rs. 1,33,308 as against Rs. 1,56,700 in the previous year, showing a reduction of Rs. 23,392.

Receipt of  
salt revenue  
at post offices.

44. The Post Office acted as agent for the receipt of salt revenue at certain selected offices in the Punjab and North-West Frontier, United Provinces, Bengal, and Central Circles. The following comparative figures show that there was a slight increase in the small business done through the Post Office:—

	1909-10	1908-09.
Post offices authorised to receive salt revenue	No. 312	... 307
Indents received	No. 1,756	... 1,520
Quantity of salt indented for	Mds. 5,52,144	... 40,3,417

Sale of  
quinine at  
post offices.

45. The Post Office obtained for sale to the public about 7,701 lbs. of quinine as compared with 7,549 lbs. in the previous year.

Postal Insu-  
rance Fund.

46. Appendix X shows the operations of the scheme of Life Insurance, Endowment Assurance, and Monthly Allowances, as compared with those of the previous year, and Appendix XI shows the financial results of the administration of the Postal Insurance Fund up to the end of the year under report. During the year 2,180 new policies were issued of the aggregate value of Rs. 28,75,960, of which 430 of the aggregate value of Rs. 6,26,194 were life insurance policies, while 1,750 of the aggregate value of Rs. 22,49,766 were policies of endowment assurance. The total sum realised on account of premia on old and new policies taken together amounted to Rs. 10,89,663 as compared with Rs. 9,93,955, the revised figure for the previous year. Claims to the extent of Rs. 4,41,148 were discharged as compared with Rs. 4,14,741 during the preceding year; while ninety-nine life insurance policies representing a gross sum of Rs. 1,26,650 and two hundred and seventeen endowment assurance policies representing Rs. 2,13,851 either lapsed or were surrendered or cancelled. The lapses and surrenders during 1908-09 were ninety-two life insurance policies representing a gross assurance of Rs. 1,17,250 and one hundred and eighty-two endowment assurance policies representing Rs. 2,04,443.

Of the 2,180 persons holding policies issued during the year, 2,135 were pure Asiatics by race. Two women employed under Government were insured during the year, so that there are now sixteen female policy-holders in all.

The general results of the past two years are summarised below:—

Life Insurance and Endowment Assurance.		Up to the 31st March 1909.	Up to the 31st March 1910.
Number of lives insured	...	20,772	22,952
		Rs.	Rs.
Amount received in premia	...	71,16,765	82,06,428
Amount of insurance	...	2,85,02,049	3,13,78,009
Amount of claims met	...	24,09,747	28,50,895

At the close of the year there were 19,249 active policies in existence, representing an aggregate of Rs. 2,65,96,126, of which 8,329 were held by Post Office servants and 10,920 by persons employed in other Departments. Four new contracts for monthly allowances were entered into during the year and there were 129 such contracts in existence at the end of the year, the total of the monthly allowances contracted for being Rs. 1,258-11-5.

Four life annuities were purchased from the Post Office under Article 807 of the Civil Service Regulations.

47. The pensions of 36,332 pensioners of the Native Army were paid through the agency of the Post Office in the Punjab and North-West Frontier during 1909-10, as compared with 35,387 in 1908-09 and the amount paid on this account was Rs. 25,65,222-8-5, as compared with Rs. 24,78,362-4-7 in the previous year. The Post Office received only Rs. 19,239-2-7 for this service, almost all of which was, as usual, swallowed up in paying for the establishment, forms and printing required for this special service, so that the Post Office is doing this important and difficult work practically free of cost to Government.

Payment of military pensioners.

### Section VIII.—Financial Results.

48. The total receipts and charges of the year as shown in the Post Office Summary accounts and given in Appendix XII are as under:—

Receipts.		Charges.	
1908-09.	1909-10.	1908-09.	1909-10.
R.	R.	R.	R.
2,73,84,300	2,89,16,324	2,76,29,469	2,79,62,580

According to the figures above, the charges for 1909-10 exceeded the charges for 1908-09 by Rs. 3,33,111, the receipts for 1909-10 exceeded the receipts for 1908-09 by Rs. 15,32,024 and the receipts for 1909-10 exceeded the charges for the same year by Rs. 9,53,744.

49. The receipts for 1909-10 include a sum of Rs. 2,26,50,980 on account of the Post Office share of the total revenue from the sale of postage and unified stamps as compared with the sum of Rs. 2,12,76,030 included on the same account in the receipts for 1908-09. The large increase of Rs. 13,74,950 shown by a comparison of these two figures cannot be taken as entirely due to the growth of business in the year, although the general depression of trade was somewhat less on the whole during 1909-10 than during 1908-09. Some portion of the increase must be accounted for by the fact that, as surmised in the report for 1908-09, the sum allotted to the Post Office as its share of the total revenue from the sale of postage and unified stamps for that year was less than the sum that would have been due to it if there had been a correct computation of the share of the Telegraph Department.

postage

50. With regard to the small increase in charges, it should be explained that whereas the figure for 1908-09 includes a sum of Rs. 11,62,253 on account of grain compensation allowance and the "Fiftieth Anniversary Bonus," the figure for 1909-10 includes only Rs. 6,91,653 on the same account. If these special

Charges.

items of expenditure are left out of consideration, the ordinary charges for 1909-10 exceed those for 1908-09 by Rs. 8,03,716 as compared with Rs. 13,03,503 representing the excess of the ordinary charges for 1908-09 over 1907-08. This result has been obtained only by very careful attention and by avoiding all expenditure that was not urgently necessary.

I am glad to be able to say that the Stationery and Printing bill of the Department was substantially smaller for 1909-10 than for 1908-09, though this is not apparent from a comparison of the figures in Appendix XII to the reports for the two years. To the figure Rs. 10,77,822 shown for 1908-09 must be added not only a sum of Rs. 4,590 which was subsequently adjusted but also the large sum of Rs. 1,19,000 on account of stationery supplied to the contractors which was omitted from the original statement submitted by the Superintendent of Government Printing. The real total for 1908-09 was thus Rs. 12,01,412 as compared with Rs. 10,88,928 representing the expenditure for 1909-10. Expenditure under this head continues to be very strictly watched.

Financial  
position of  
the Post  
Office.

51. Appendix XII shows also under a distinct head (II) certain charges which appear in the Finance and Revenue Accounts but not in the Post Office Accounts. These charges are reproduced in the margin and, if their total be added

	R
Stores from England ... ..	11,085
Payments under postal arrangements with Lords of the Treasury ...	8,18,820
Total ...	8,29,905

to those given in the table in the preceding paragraph, the total charges of the year amount to Rs. 2,87,92,485. It

will thus be seen that there was a surplus of Rs. 1,23,839 on the year's transactions as shown in the Finance and Revenue Accounts. In order, however, to arrive at the true financial result of the year's administration, it is necessary to add to the charges a further sum of Rs. 12,67,765 representing the net balance of the items shown in the margin. The result is that the charges exceeded the

receipts by Rs. 11,43,926. After taking credit for the sum of Rs. 2,65,111 representing the net expenditure during the year on account of unremunerative establishments formerly paid from District Post Funds, the deficit is reduced to Rs. 8,78,815. This figure, however, does not take into account the

services rendered by the Department to a large number of Native States in carrying their official correspondence free of charge in accordance with the arrangements under which their postal systems have been amalgamated with the Indian

Post Office. The total value of these services for the year 1909-10 has been estimated at Rs. 2,26,610 so that the final deficit was Rs. 6,52,205 as compared with Rs. 16,25,984 in 1908-09.

This deficit, it may be noted, is approximately equal to the sum representing the estimated cost of managing the Post Office Savings Bank (*vide* paragraph 29) for which no credit is allowed to this Department. In spite, therefore, of the enormous reduction in rates which unfortunately coincided with two bad years, the Post Office has shown a real deficit for only one year. There is every reason to hope that for the year 1910-11 it will show a moderate surplus which will continue to grow thereafter.

52. The following figures show the financial result of the amalgamation of the posts in the Kashmir and Jammu State with the Imperial Post Office. Financial result of working the posts in Kashmir.

The amalgamation took place in November, 1894, and, except in 1905-06, when there was a small surplus, the working of the Kashmir post offices has always resulted in a loss, owing to the very expensive lines which have to be maintained to serve Gilgit and Leh. The total revenue in 1909-10 was Rs. 1,78,800 as compared with Rs. 1,88,891 in 1908-09, and Rs. 1,60,307 in 1907-08. The expenditure during 1909-10 was Rs. 2,29,627 against Rs. 2,21,577 in 1908-09 and Rs. 2,14,483 in 1907-08, the actual deficit during the year being Rs. 50,828. The decrease in revenue was due mainly to the reduced sale of service stamps to the Durbar, as the purchases in 1903-09 had been above the actual requirements. The increase in expenditure was chiefly due to necessary revision of establishment.

### Section IX.—Personal Matters.

53. During the year under report, Mr. W. T. van Someren, C.I.E., officiating Postmaster-General, Bombay, retired after a long and meritorious service. Mr. van Someren's success in organising the Indian Field Post Office had earned for him the well deserved honour of a Companionship in the Order of the Indian Empire, and the excellent work done by him in this important branch will long be remembered. Personal matters

Soon after the year closed, the Department suffered a serious loss in the retirement of Mr. W. F. Cockell, Deputy Director General, than whom the Post Office has probably never had a more zealous, careful and generally useful officer. With him I have lost a very highly valued adviser.

I have the honour to be,

SIR,

Your most obedient servant,

C. STEWART-WILSON,

*Director-General of the Post Office of India.*

Statement showing according to postal circles, the number of cases in which servants of the Post Office were held to be guilty of offences punishable by law and the number of servants of the Post Office punished in those cases during the year 1909-1910.

NOTE.—The figures in this Appendix show the cases in which punishment was awarded during the year as it is only when a case is closed that it can be entered with certainty as having been committed by a Post Office servant. Besides the 569 cases shown above, there were 75 cases in which postal servants were charged with offences but no punishment was imposed owing to the cases not being concluded on the death or escape of the offenders.

### NOTIFICATION.

*Simla, the 14th October, 1910.*

No. 50.—The following Statutes are published for general information :

[10 EDW. VII AND 1 GEO. V, C. 26.]

(THE REGENCY ACT, 1910.)

AN ACT TO PROVIDE FOR THE ADMINISTRATION OF THE GOVERNMENT IN CASE THE CROWN SHOULD DESCEND TO ANY ISSUE OF HIS MAJESTY WHILE SUCH ISSUE SHALL BE UNDER THE AGE OF EIGHTEEN YEARS, AND FOR THE CARE AND GUARDIANSHIP OF SUCH ISSUE.

[3rd August 1910.]

WHEREAS Your Majesty, by Your Majesty's Royal message to both Houses of Parliament, has been pleased to recommend that provision should be made for a Regency in certain events :

Now therefore we, Your Majesty's most dutiful and loyal subjects, the Lords Spiritual and Temporal, and the Commons, in Parliament assembled, do most humbly beseech Your Majesty that it be enacted, and be it enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and the Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

1.—(1) If on the demise of His present Majesty (whom God long preserve) any child

Her Majesty Queen Mary to be Regent.

of His Majesty succeeds to the Crown whilst under the age of eighteen years, Her Majesty Queen Mary shall be the guardian, and have the care and tuition of such child until the child attain the age of eighteen years, and until that time shall have the disposition, ordering, and management of all matters and things relating thereto.

(2) Her Majesty Queen Mary shall, until such child attain the age of eighteen years and no longer, have full power and authority in the name of such child and in stead of such child, and under the style and title of "the Regent" to exercise and administer according to the laws and constitution thereof, the Royal power and government of this realm, and all the dominions, countries, and territories belonging to the Crown thereof, and use, exercise, and perform all prerogatives, authorities, and acts of government and administration of government that belong to the Sovereign of this realm to use, execute, and perform according to the laws thereof, but in such manner and subject to such conditions, restrictions, limitations, and regulations as are contained in this Act.

(3) All acts of Royal power, prerogative, government, and administration of government of any kind which shall be done or executed during the Regency established by this Act otherwise than by and with the consent and authority of the Regent, in the manner and according to the directions prescribed by this Act, shall be absolutely null and void to all intents and purposes.

2. The Regent, before she shall act or enter upon her office of Regent, shall take the

Oaths to be taken by Regent.

oaths set out in the Schedule to this Act before the Privy Council, and the Privy Council are

empowered and required to administer those oaths and to enter them in the Council books.

3.—(1) During the Regency, the Sovereign, for whom the Regent is appointed, shall not intermarry, before attaining the age of eighteen years, with any person, unless the consent in writing of the Regent and the assent of both Houses of Parliament is previously obtained, and any marriage entered into in contravention of this section shall be null and void to all intents and purposes.

(2) Any person who shall knowingly act, aid, abet, or be concerned in obtaining, procuring, or bringing about any marriage in contravention of this section and the person who shall be married to the Sovereign knowing that the marriage is a marriage in contravention of this section shall be guilty of a felony under the Treason Felony Act, 1848.

4. The Regent shall not give or have power to give the Royal Assent to any Bill for repealing, changing, or in any respect varying, the order or course of succession to the Crown of this realm, as established by the Act of Settlement, or to any Bill for repealing or altering an Act of the fifth year of the reign of Queen Anne, made in Scotland, intituled "An Act for securing the Protestant religion and Presbyterian government."

5. If Her Majesty Queen Mary shall, after becoming Regent, be reconciled to or hold communion with the See or Church of Rome, or shall profess the Roman Catholic religion, or shall marry a person professing the Roman Catholic religion, or shall cease to reside in or absent herself otherwise than temporarily from the United Kingdom, Her Majesty shall no longer be guardian and Regent; and all the powers and authorities which she may have derived under or by virtue of this Act shall thenceforth cease and determine.

6. This Act may be cited as the Regency Act, 1910.

Short title.

#### SCHEDULE.

1. I do swear that I will be faithful and bear true allegiance to [*here insert the name of the Sovereign*] his heirs and successors according to law. So help me God.

2. I do swear that I will truly and faithfully execute the office of Regent according to the Regency Act, 1910, and that I will administer the government of this realm and of all the dominions thereunto belonging according to the laws, customs, and statutes thereof, and will in all things to the utmost of my power and ability consult and maintain the safety, honour, and dignity of [*here insert the name of the Sovereign*] and the welfare of His people. So help me God.

3. I do faithfully promise and swear that I will inviolably maintain and preserve the Settlement of the true Protestant religion with the government, discipline, rights, and privileges of the Church of Scotland as established by law. So help me God.

[10 EDW. VII AND 1 GEO. V, C. 29.]

(THE ACCESSION DECLARATION ACT, 1910.)

AS ACTED AFTER THE FORM OF THE DECLARATION REQUIRED TO BE MADE BY THE SOVEREIGN ON ACCESSION.

[3rd August 1910.]

BE it enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

1. The declaration to be made, subscribed, and audibly repeated by the Sovereign under section 1 of the Bill of Rights and section 2 of the Act of Settlement shall be that set out in the Schedule to this Act instead of that referred to in the said sections.

2. This Act may be cited as the Accession Declaration Act, 1910.

Short title.

#### SCHEDULE.

I [*here insert the name of the Sovereign*] do solemnly and sincerely in the presence of God profess, testify, and declare that I am a faithful Protestant, and that I will, according to the true intent of the enactments which secure the Protestant succession to the Throne of my Realm, uphold and maintain the said enactments to the best of my powers according to law.

[THE REGISTRATION OF BIRTHS, DEATHS AND MARRIAGES (SCOTLAND)  
AMENDMENT ACT, 1910.]

AN ACT TO AMEND THE LAW RESPECTING THE AUTHENTICATION OF EXTRACTS UNDER THE ACTS RELATING TO THE REGISTRATION OF BIRTHS, DEATHS AND MARRIAGES IN SCOTLAND.

[3rd August 1910.]

BE it enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

1. So much of section fifty-eight of the Registration of Births, Deaths and Marriages (Scotland) Act, 1854, as requires extracts of entries which shall be admissible as evidence to be signed by the Registrar General if such extracts shall be from the registers kept at the General Registry Office, shall cease to have effect, and in lieu thereof it is hereby provided that the Registrar General shall cause to be made a seal of the said General Registry Office, and the Registrar General shall cause to be sealed or stamped therewith all extracts of entries given in the said office; and all extracts of entries purporting to be sealed or stamped with the seal of the said General Registry Office shall be deemed to be duly authenticated by the Registrar General, and the provisions of the said section shall apply thereto as fully as if such authenticated extracts were signed by the Registrar General.

2.—(1) This Act may be cited as the Registration of Births, Deaths and Marriages (Scotland) Amendment Act, 1910, and may be cited with the Births, Deaths and Marriages (Scotland) Acts, 1854 to 1860, and this Act and the Registration of Births, Deaths and Marriages (Scotland) Act, 1854, shall be construed as one Act.

(2) This Act shall come into operation on the expiration of three months from the passing thereof.

## MUNICIPALITIES.

*The 14th October, 1910.*

**No. 141.**—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor General in Council is pleased to direct that the following amendments shall be made in the Berar Municipal Law, 1886, namely:

1. In section 63, sub-section (3), after the word "arrear" where that word first occurs the following shall be inserted, namely :  
 "together with any sum leviable on account of court-fees or the prescribed process-fees, and with interest at the rate of twelve-and-a-half per centum per annum."
2. After the same sub-section the following proviso shall be added, namely :  
 "Provided that no interest shall be so recovered in any case in which the Deputy Commissioner, for reasons to be recorded in writing, considers it inexpedient that interest should be charged."
3. In the existing proviso to the same section after the word "Provided" the word "also" shall be inserted.
4. After clause (g) of section 145, sub-section (1), the following shall be inserted, namely :  
 "(r) as to the fees to be levied on processes issued by a Deputy Commissioner or Magistrate respectively under sections 63 and 153 of the Law" and clause "(r)" shall be re-lettered "(s)."
5. For section 153 the following shall be substituted, namely :  
 "153. (1) Any arrears of any tax or any other money claimable by a Committee under this Law, with any sum leviable on account of court-fees or the prescribed process-fees, and with interest at the rate of twelve-and-a-half per centum per annum may be recovered on the application of the Committee or some person authorised generally or specially by the Committee in this behalf to a Magistrate having jurisdiction within the limits of the municipality, by the distress and sale of any moveable property belonging to the person from whom the money is claimable within the limits of the jurisdiction of such Magistrate :  
 "Provided that no interest shall be so recovered in any case in which the Magistrate, for reasons to be recorded in writing, considers it inexpedient that interest should be charged.  
 "(2) Where there is no sufficient moveable property belonging to the person from whom any money is claimable on account of any arrears of any tax within the jurisdiction of any magistrate having jurisdiction within the limits of the municipality, any such magistrate may, on the application of the Committee or of some person authorised generally or specially by the Committee in this behalf, grant a certificate of the amount due on account of arrears, with court-fees, process-fees, and interest, if any, by the person from whom the money is claimable, and shall forward the certificate so granted to the magistrate within whose jurisdiction any such property belonging to such person is or is believed to be; and the Magistrate receiving such certificate shall proceed to recover, by distress and sale of any moveable property belonging to the defaulter within the limits of his jurisdiction, the amount certified, with any further sum leviable on account of court-fees or process-fees, and shall remit the amount recovered under such certificate to the Magistrate by whom the certificate was granted."

## SANITARY.

*The 14th October, 1910.*

**No. 192.**—In exercise of the powers conferred by section 58 of the Pilgrim Ships Act, 1895 (XIV of 1895), the Governor General in Council is pleased to make the following rules in supersession of the rules published with the notification of the Government of India in the Home Department no. 262, dated the 5th October 1896, as amended by subsequent notifications :—

1. In these rules "the Inspector" means the officer appointed by the local Government under section 8, or the person authorized by such officer as aforesaid under section 9 of the Pilgrim Ships Act (XIV of 1895), hereinafter referred to as "the Act," and "section" means a section of the said Act.
2. The Inspector shall, on receiving the notice required by section 8, himself proceed or give written authority to some competent person on his behalf, to inspect the ship, her provisions, medical stores, equipments, ventilation, fittings, etc., and shall satisfy himself by such inspection that they meet all prescribed requirements.
3. The certificates A and B required under sections 11 and 12 shall be given in Forms nos. I and II appended to these rules and that required under section 24 in Form III.

4. No certificate under section 12 shall be granted between May 20th and September 20th in any year in respect of a ship of a tonnage of less than 500 registered tons, or which is not capable of steaming at least eight knots an hour in ordinary monsoon weather; nor shall such a certificate be given unless all the arrangements required by these rules have been made to the entire satisfaction of the Inspector.

5. The Inspector shall see that in all cases where the number of pilgrims exceeds 100, the medical officer of the ship is present at the official inspection and that such medical officer has had an opportunity of satisfying himself as to the completeness of the arrangements made for the accommodation and care of the pilgrims under these rules; and shall require such medical officer to furnish a certificate to that effect in Form IX and to sign the second of the certificates prescribed by rule 58.

*Boats, anchors and cables.*

6. (1) Every pilgrim ship shall be provided with boats (to be placed under davits) at least two of which shall be lifeboats, according to the following scale:—

*Proviso.*—Provided that, where in ships already fitted the minimum cubic contents of boats placed under davits are provided, as required by column 3 of the said scale, this rule shall be deemed to have been sufficiently complied with, although the actual number of boats so carried falls below the minimum prescribed in column 2 of the said scale.

(2) Every boat shall be supplied with two fresh-water breakers, two small tin-lined lockers fitted under the side seats in the stern and each capable of holding about 50 lbs of biscuit, and a tightly spread canvas cover.

(3) Every boat shall be provided, to the satisfaction of the Inspector, with masts, sails, painters, oars, rowlocks or tholes, rudder and tiller, boat hooks, plugs and breakers, all properly secured.

(4) A hatchet or tomahawk shall be kept in each end of every life-boat, in good order and secured by a lanyard; a life-jacket or flt for each oarsman, and one for the coxswain, shall also be provided; and a life-line in loops shall run round the outside of the boat and be securely made fast.

7. Every pilgrim ship shall carry an accident boat swung outboard in the most convenient part of the ship and properly secured with belly bands, which shall be made fast with a stop and toggle on the davit or other convenient place. A mallet shall be secured beside the toggle ready for immediate use. The boat's falls shall be coiled down in the most convenient place (*not* in the boat) clear of the pilgrims. The following gear only shall be in the accident boat:—

- (1) One oar for each man of the crew and two spare ones.
- (2) A life-belt for each man in the boat to be kept on each man's thwart.
- (3) Two boat hooks.
- (4) One rowlock for each thwart and two spare ones.
- (5) One life-buoy.
- (6) One painter of reasonable length.

- (7) Two plugs.
- (8) One tiller, or one yoke and yoke lines.
- (9) One white globe lamp.
- (10) One good flare.
- (11) One rope for each man in the boat securely made fast to the guy between the davit beads and of sufficient length to reach the water when the ship is light. Each rope to be made fast exactly above each thwart so that the man can hold on to it as the boat is lowered.

8. Boat drill shall be practised at least once a week.

9. Every pilgrim ship shall be provided with three bower anchors of such weight, and with cables of such length, size and material as are, in the judgment of the Inspector, sufficient.

*Instruments for purposes of navigation.*

10. Every pilgrim ship shall be provided with—

- (a) not less than three good ship's compasses and two boat's compasses and with a record of the deviation of her compasses on every point, entered in the log-book;
- (b) Admiralty or Indian Government charts and sailing directions suitable for the voyage she is about to undertake;
- (c) not less than two chronometers and not less than two sextants or quadrants and barometers, one of the latter being a mercurial barometer;
- (d) a deep-sea leadline and lead.

*Apparatus for extinguishing fires and precautions against fire.*

11. (1) Every pilgrim ship shall be provided with—

- (a) hose capable of being connected with the engines of the ship, and adapted for extinguishing fire in any part thereof; and
- (b) fire-buckets in the proportion of three for every 100 tons of tonnage up to 600, and two for every 100 tons above 600: Provided that not more than 50 fire-buckets need under any circumstances be carried.

(2) If fire-annihilators or fire-engines are carried, they shall be placed by the master in charge of one of the principal officers of the ship and the ship's carpenter, who shall be held responsible that they, with the buckets and other fire apparatus, are kept in a state fit for immediate use.\*

12. As soon as possible after leaving port, the officers and crew shall be divided into parties and assigned to stations in case of fire; and fire-drill shall be practised at convenient times and at least once a week.

13. Immediately before leaving port, the passengers shall be called on to deliver up whatever lucifer matches, gunpowder or other inflammable articles they may have with them.

14. No naked lights shall on any account be used in the hold or store-rooms or in the between-decks, except under trustworthy superintendence. No person shall be allowed to read in bed with a naked light. Smoking between decks is strictly prohibited.

15. Cases containing spirits shall never be opened in the hold, but may be hoisted on deck for the purpose.

*Appliances for saving life and making signals of distress.*

16. Every pilgrim ship shall be provided, to the satisfaction of the Inspector, with a supply of life-buoys, with lines attached, of which not less than six shall be kept readily available on deck, and with inextinguishable lights fitted for attachment to the life-buoys. Every pilgrim ship shall also be supplied with an approved life-belt or other similar approved article of equal buoyancy suitable for being worn on the person, for each person on board, and such life-belts or other articles as aforesaid shall be so placed, to the satisfaction of the Inspector, as to be readily accessible.

EXPLANATION.—An "approved life-belt" means a belt which does not require to be inflated before use and which is capable of floating in water for 24 hours with at least 15 lbs. of iron suspended from it.†

17. Life-buoys shall be secured by toggle and becket or any similar method allowing of ready release, but shall not be lashed or seized to the vessel.

18. Every pilgrim ship shall carry such quantity of rockets and blue lights or other signals as the Inspector may deem adequate.

*Fittings and other appliances to be provided in the upper and between-decks.*

19. The Inspector shall see that sufficient ventilators are provided for the between-decks to give each pilgrim (a) in the first or upper between-deck 5 square inches, and (b) in the second or lower between-deck 10 square inches of ventilation area exclusive of

\* Fire engines should be worked once a week to keep them in proper order.

† Life-belts should be cut 2 inches under the armpits, and so fitted as to remain securely in place when put on.

hatches and side scuttles, and so placed as to afford an equable diffusion of air through all parts. The ventilators of the second between-deck must act separately from those of the first between-deck and, if pilgrims are carried on a second or lower between-deck, such lower between-deck shall be ventilated by artificial ventilation, such as Blackman's ventilator or a thermantidote approved of by the Inspector. The Inspector shall also see (i) that all air-holes affording a means of communication between the hold and the between-decks are closed so as to shut off, as completely as possible, the escape of foul air from the bilge, or steam from the cargo, into the between-decks; (ii) that the foul air from the hold and the between-decks respectively, is carried in separate shafts above the uppermost deck; and (iii) that all ventilating shafts and tubes for the hold are so arranged as to act quite independently of those for the between-decks.

20. In the absence of hollow iron masts or other means of ventilating the hold, there shall be fitted at least four cowl-headed tubes (of a size to be approved by the Inspector) leading from the lower hold to the open air on the upper deck.

21. Every cowl-headed tube shall be provided with a strong plug for use, if necessary, in bad weather.

22. Such provision shall be made for affording light to the between-decks by means of side ports as the circumstances of the case may, in the judgment of the Inspector, require. The pilgrims shall, moreover, have the free and unimpeded use of the whole of every hatchway situated over the space appropriated to their use, and over each hatchway there shall be erected such a body hatch or other substantial covering as shall, in the opinion of such Inspector, afford the greatest amount of light and air and of protection from sun and wet as the case will admit of.

23. The upper deck of every pilgrim ship shall be either of wood, or of iron or steel sheathed with wood and caulked.

24. Each hatchway shall be provided with a large tarpaulin tent which can in bad weather be spread well over it and securely fastened so as to keep out rain and let in fresh air, and in fine weather be rolled up and put out of the way; and shall, except where arrangements exist for lowering the derrick boom in a way which will serve the purpose, also be fitted with a strong iron or wooden A-shaped frame for the support of such tent.

25. Every pilgrim ship shall have poop, quarter deck, waist and forecastle awnings complete and in good order, and six windsails distributed as the Inspector may direct. The awning and windsails shall be kept up so long as the weather does not render this impossible.

26. Strong ladders 2½ feet wide with hand rails of a convenient height shall be provided for every hatchway used as such and not merely as a ventilator; and, as additional means for women and children to hold on by, knotted handropes shall be fastened, conveniently near the ladders.

27. Hooks for hanging the required number of lanterns shall be fixed at convenient distances apart.

28. The space to be occupied by pilgrims must be kept clear from obstruction of any kind whatever, thoroughly clean and dry; and nothing, except life-belts with the consent of the Inspector given under rule 16, shall be slung-up or stowed away between the beams. Every day while the pilgrims are on deck the between-decks shall be carefully cleaned and scrubbed with dry sand mixed with suitable disinfectants.\*

29. Bamboos, ropes or strong rails shall be securely fastened fore and aft to the midship stanchions on the between-deck.

30. No timber or cargo of any kind, and only the necessary fittings properly secured and live-stock for consumption on the voyage, shall be allowed on the upper deck, which shall, save as aforesaid, be exclusively reserved for the pilgrims.†

31. A set of water-vessels, such as buckets and tin mugs required by topases or others for use in the latrines, shall be exclusively set apart for such purpose; and they shall be marked or printed so as to be clearly distinguishable from those used for cooking or drinking purposes.

#### *Food, fuel and water-supply.*

32. Every pilgrim ship shall be supplied in accordance with the following scale with food, fuel and water, of good quality, conveniently stored and in quantity sufficient to supply the pilgrims on board during the intended voyage (including such detention in quarantine as may be probable):

\* Calvert's powder in the proportion of 10 per cent should be used.

† Pilgrims should be encouraged to use the upper deck as much as possible.

## For each pilgrim daily—

Rice ... ..	1 lb	Tamarind ... ..	1 oz.
Flour or ship's biscuit	4 oz.	Condiments, chillies, garlic, coriander seed or turmeric ...	$\frac{1}{2}$ "
Pulse, dall ... ..	4 "	Salt ... ..	$\frac{1}{2}$ "
Ghee or oil ... ..	1 "	Firewood, dry ... ..	2 lbs.
Onions ... ..	2 "	Drinking-water from iron tanks ... ..	1 gal.
Pumpkins, yams, or other vegetables ... ..	2 "		

Provided that, in the case of drinking-water, the allowance hereby prescribed shall be provided for each pilgrim irrespective of his age.

A signboard written in bold letters in the Persian, Urdu and Guzarati characters shall be displayed at the place, to be approved by the Inspector, at which stores are dispensed, announcing that food can be procured there. At the same place shall be posted a table of the rations of food and water in Persian, Urdu and Guzarati, and a price list in the same languages of the articles of food offered for sale.

33. Excepting fuel and water, which shall always be found by the ship, the articles in the foregoing scale need not be provided for those pilgrims who have satisfied the officer appointed in this behalf under section 10, that they have on board food sufficient for their own use.

34. Every pilgrim ship shall, in addition to the requirements of the two last foregoing rules, have on board, either as cargo or stores, food sufficient, in the opinion of the Inspector, to provide for the pilgrims in the event of an accident to the ship's machinery.

35. (1) Every pilgrim ship shall be provided with caboose accommodation sufficient to cook for the total number of pilgrims on board, and such accommodation shall in no case consist of less than two cabooses or cooking ranges placed on deck, properly housed and covered, to which the pilgrims shall have free access between the hours of 6 A.M. and 9 P.M.

(2) All cooking ranges shall be made of substantial plate-iron lined inside with bricks, and raised at least four inches from the deck, with an outlet or chimney at top for the escape of smoke. Each range shall contain five or six cooking places, and the master shall see that fires adequate for cooking are kept lighted at them from 6 A.M. to 9 P.M. An additional range shall be provided for every 200 pilgrims carried in excess of 100. Cooking on board in pilgrims' private stoves is prohibited.

(3) The Inspector may require the master to provide such number as such Inspector may think necessary of Muhammadan cooks, not exceeding three per hundred pilgrims (exclusive of pilgrims who have on board their own supplies and desire to cook for themselves).

36. The crew of the ship shall not be allowed to use the cooking ranges or latrines set apart for pilgrims while pilgrims are on board, but shall be provided with a separate cooking range and latrine.

37. Each ship shall be fitted with a condenser or distilling apparatus of sufficient capacity to produce at least one gallon of drinking-water a day for every person on board of whatever age, including the crew.

38. No certificate under section 13 shall be granted unless the condenser cannot only supply the minimum quantity of water prescribed under rule 37 for each person on board, but also yield every 24 hours 500 gallons of pure, cold water fit to drink.

39. The tanks for storing drinking-water on board shall not be placed near the latrines. They shall be protected from all filth, and shall be so closed that the distribution of the water can be effected only by means of pumps or from taps with lock and key fitted to the tanks.

40. The water of any tank pronounced bad by the medical officer of the ship shall be immediately rejected and pumped out and the tank cleaned out before being re-filled.

41. If there is any doubt as to the quality of the drinking-water stored, or as to the possibility of its pollution, either at its source or in the course of the voyage, it shall be well boiled; and it shall be thrown into the sea as soon as it is possible to obtain a purer supply.

42. Every condenser or distilling apparatus shall have a separate engine for working the circulating cold-water pump, and under no circumstances shall this engine be used for any other purpose than that of feeding the boiler of the condenser.

43. The arrangements for discharging the circulating water from the condenser shall be such that it can be delivered into buckets or connected with a hose for the purpose of washing decks, or extinguishing fire, as well as discharging over the ship's side. A suitable hose and connection shall also be provided.

44. Either upright or horizontal boilers may be used for condensers. Each boiler shall be furnished with a steam-gauge indexed to double the working pressure, a glass water-gauge and two separate gauge cocks, one safety-valve and two mud-hole doors for the purposes of cleaning.

45. The boilers and all machinery connected with condensers shall be properly covered in, and every wooden bulkhead in the vicinity of the boilers or condensers shall be covered with sheet lead weighing  $4\frac{1}{2}$  lbs. per square foot and securely fastened to such bulkhead.

46. All the piping in connection with the condenser, especially the main suction and the condensed water discharge-pipe, shall be laid in position safe from accident or otherwise securely encased.

47. The Inspector shall satisfy himself by actual experiment that the condenser is capable of performing the work required of it.

48. The Chief Engineer or some other competent person, to be approved by the Inspector, shall be appointed to have charge of the distilling apparatus and machinery connected therewith during the voyage.

49. No ship shall put to sea before the decks have been cleared of any loose straw, hay or other inflammable material, and all the cargo has been properly stowed away.

#### *Cargo.*

50. No petroleum as defined in the Petroleum Act, 1899 (VIII of 1899), or explosive as described in the Indian Explosives Act (IV of 1884), nor any inflammable oils, spirits, jute or coal (except such coal as is required for the voyage and the return voyage to India), nor any commodity likely, by reason of its quantity, quality or mode of stowage, to be prejudicial to the safety of the pilgrims, shall be taken as cargo or part of the cargo.

#### *Allotment of upper deck space.*

51. No cabin shall be provided for any pilgrim on the upper deck unless space remains unallotted on that deck after providing the accommodation required for the permanent and temporary hospitals, latrines, and six superficial feet for every pilgrim carried in the between-decks. Such space as remains unallotted after making provision for these requirements may be reserved for the accommodation of pilgrims in cabins containing not less than 12 superficial and 72 cubic feet of space. No pilgrim shall be furnished with reserved accommodation on the upper deck except in a cabin.

52. The deck space may be distributed between the first and second class pilgrims as the master or owner may desire: Provided that each pilgrim of the lowest class has six feet of deck space provided for him, and provided that no part of a pilgrim ship shall carry more pilgrims than the number which that part of the ship is capable of accommodating in accordance with Notification no. 2145, dated the 17th September 1897.

#### *Amount and distribution of baggage.*

53. Pilgrims' heavy baggage shall be deposited in the hold before the ship leaves her moorings. Pilgrims shall be allowed to keep with them only such articles as are absolutely necessary: Provided that the articles so kept do not exceed one maund (82 lbs.) in weight for each adult pilgrim or in the case of pilgrims who, in accordance with the provisions of section 18, are allowed to provide their own food for the entire voyage, one maund and a half.

{

#### *Hospital accommodation, medical stores, and arrangements for maintaining health, cleanliness and decency.*

54. (1) The hospital accommodation required under section 21 shall be provided where convenient. A permanent hospital shall be provided for 5 per cent of the pilgrims on board and containing not less than six bunks, and having a deck area of at least 32 superficial feet and dimensions of not less than 192 cubic feet per head. On every pilgrim ship on which there are 50 or more female pilgrims, there shall be a separate permanent hospital, containing not less than two bunks with a deck area of at least 72 superficial feet and dimensions of not less than 432 cubic feet, which shall be reserved for the use of women and of children under 12 years of age. The hospitals shall be lighted and ventilated to the satisfaction of the Inspector and shall be provided with raised floors or platforms at least 4 inches off the deck when situated on an iron deck. If on deck they shall be made

as secure as any other deck-house, and the roof shall be well caulked and covered with painted canvas.\* No case of small-pox, cholera, yellow fever or plague shall on any account be treated in a permanent hospital. Permanent hospitals shall be used solely for the accommodation of sick pilgrims, and in so far as they are not required for the accommodation of such pilgrims, shall remain unoccupied.

(2) Materials shall be carried for the construction on the upper deck of a separate temporary hospital for the treatment of such cases of sickness as it may be considered desirable specially to segregate (such as small-pox, cholera, yellow fever or plague) and for any general outbreak of sickness in the event of the permanent hospital accommodation becoming insufficient. The part of the upper deck upon which such hospital shall, if required, be erected, shall be pointed out and measured off by the Inspector. The framework of the hospital shall be either of iron (in pieces that can be easily fitted together) or of wooden spars or bamboos. The roof shall be tented, and both that and the side walls shall be made of stout canvas and be perfectly water-tight, due provision being at the same time made for ventilation. The superficial area of the floor† shall be not less than 144 square feet, and the floor shall be raised at least 4 inches from the deck. In cases of sickness of the kind referred to in this rule, only the medical officer and the person or persons charged with the duty of looking after the patients shall have access to them, and, except the medical officer and medical attendants referred to in rule 70, none of those who have had access to such patients shall be permitted to come into contact with the other persons on board.

55. A suitable dispensary to be approved by the Inspector shall be provided.

*Medical stores, etc.*

56. The following articles shall be provided according to the following scale and supplied gratuitously to the pilgrims on board at the discretion and by the direction of the medical officer, namely:—

• For any number of pilgrims not exceeding 100 (proportionate quantities to be provided for pilgrims in excess of that number)—

Ship

Health Officer.

59. (1) Every pilgrim ship shall carry a disinfecting stove approved by the Health Officer of the port in British India at which the voyage is to commence.

(2) Articles of bedding, carpets and clothes used by patients who have been affected with cholera, as well as by persons who have had access to such patients, shall be immediately disinfected. Such of these articles as have little or no value shall be thrown into the sea, or, if the ship is in a port or canal, be destroyed by fire. All such articles as are not destroyed shall be carried to the disinfecting stove in impermeable bags sprinkled with a solution of corrosive sublimate.

(3) The excreta of the sick shall be collected in vessels containing a disinfecting solution and the latrines in which these vessels are emptied shall be thoroughly disinfected after each operation.

(4) Articles which have come into contact with persons suffering from cholera shall be thoroughly disinfected in the following manner:—

(a) Articles so contaminated or suspected of being so contaminated shall, unless they are liable to be destroyed by exposure to heat, be disinfected in the disinfecting stove under pressure, the stove being maintained at a temperature (to be tested during each operation) of 220° Fahr. and the articles exposed to this temperature for 15 minutes.

(b) Articles liable to be destroyed by exposure to the heat of a disinfecting stove, such as metals, leather, tables, lockers, etc., shall be disinfected by being washed with disinfecting solution \*

(5) Ships on which cases of cholera have occurred shall be disinfected in the following manner:—

(a) The cabins† and all parts of the ship occupied by cholera patients or those suspected to be suffering from cholera shall be emptied, and all articles removed disinfected as above.

(b) The interior sides, bulkheads, floors and decks of the ship shall be washed with the corrosive sublimate solution with the addition of 10 per cent of alcohol (i.e., one gallon of methylated alcohol to every 10 gallons of the corrosive sublimate solution),‡ and, two hours after washing, scrubbed, and then thoroughly washed down with plenty of water.

(c) The hold of the ship shall be strewn from time to time with a sufficient quantity of iron sulphate to neutralize the sulphuretted hydrogen, and the water in the hold shall then, unless the ship is in dock, be pumped out and the hold washed with sea-water and sprinkled with the corrosive sublimate solution.

60. Pilgrims shall air their clothing, blankets, etc., as often as required to do so by the medical officer.

61. The following articles and appliances shall be supplied on the scale shown below:—

Iron boilers with covers—

For rice (large)	...	...	} According to the number of pilgrims to be fed by the ship.
" dall or curry (small)	...	...	

\* One of the following disinfecting solutions should be used—

(a) Corrosive sublimate in the following proportion:—

Corrosive sublimate,  $\frac{1}{2}$  oz.

Hydrochloric acid, 1 oz.

Water, 3 gallons.

Fuchsin or lozin, 5 grains.

(b) Pure phenic acid, five parts in 100 parts of water.

(c) Fresh slaked lime.

The different disinfecting solutions are useful for the following purposes:—

(a) Linen, clothes and articles soiled by the evacuations of cholera patients should be put into the corrosive sublimate solution.

(b) Persons in attendance on the sick should use the corrosive sublimate solution, when washing themselves in the proportion of one part of the solution to 2,000 parts of water.

(c) Phenic acid should be used to disinfect articles which cannot be exposed to a temperature of 220° Fahr. or in contact with sublimate solutions, such as metals, instruments, etc.

(d) Slaked lime is specially useful to disinfect the evacuations of cholera patients; in the absence of slaked lime phenic acid will answer the same purpose. When slaked lime is used for disinfecting liquids, it should be used in the proportion of three lbs. of lime to ten gallons of the liquid to be disinfected.

† For the purpose of fumigating cabins and confined space, one ounce of sulphur should be burnt for every 30 cubic feet of the space to be fumigated, the cabin or other space being completely closed during the operation and kept so for twelve hours.

‡ The washing should commence from the top, horizontally and downwards, so that the whole surface become covered with a coating of the solution in fine drops.

\* All these should be specially marked for privy use.

62. (1) Every pilgrim ship shall be fitted with not less than two latrines, apart from those for the use of the crew, sufficiently screened from public view and readily accessible. If there be any females among the pilgrims, one latrine shall be screened off and set apart for the exclusive use of females. There shall be an additional latrine for every 100 pilgrims, or fraction of that number in excess of 100, and if there be more than 100 female pilgrims on board, the number of latrines reserved for their use shall be increased in the proportion they bear to the total number of pilgrims. The latrines shall be provided with seats at the rate of not less than three for the first 100 pilgrims and at the rate of three for every additional 100 pilgrims. No latrine shall be allowed either between-decks or in the hold.

(2) The latrines shall be in a convenient and accessible place on the upper deck, and close up to the bulwarks or rails. They shall be made of iron and securely bolted down to the deck beams below the deck. They shall not project over the ship's side. They shall be so placed, that the soil shoot of the latrine floor may lead directly out of a port or other opening and well clear of the ship's side. Every latrine shall be divided into separate and

private compartments. Each compartment shall not be less than 3 feet and 2 feet in size and shall have a separate entrance with door and be fitted with a seat or pair of foot-boards having a free opening or hole in the centre. Each such opening shall communicate directly with the floor beneath common to all openings. The floor shall be continued into the shoots and have a good fall from each end towards the shoot in the centre. The floor of the latrine shall be at least 1 foot above the deck to enable the deck beneath to be freely flushed. Every compartment shall be well ventilated by means of such openings as will not interfere with privacy.

(3) All latrines shall be kept in good order and disinfected three times a day. They shall be continuously flushed by pipes laid on to them. These pipes shall be of not less than 2 inches internal diameter and fitted at each end of each set of latrines so that the latrines may be flushed from the ends towards the centre. The deck immediately about the latrines shall be enclosed with a ridge of wood 2 inches high to prevent the flushing water finding its way to other parts of the deck and the deck from this 2 inch ridge to the scuppers shall be covered with tin, lead or other metal.

(4) Not less than two sweepers shall be employed on every pilgrim ship, and one additional sweeper shall be employed for every 100 pilgrims in excess of 100 up to a maximum of five sweepers when the total number of pilgrims does not exceed 1,000. For every 100 or fraction of 100 pilgrims in excess of 1,000 one additional sweeper shall be employed up to a maximum of eight sweepers.

(5) Every pilgrim vessel shall be provided with at least two urinals.

63. Every ship shall be provided with not less than one place for washing on each side of the deck, sufficiently screened from public view, whereof a full proportion, as prescribed in the case of latrine accommodation, shall be set apart exclusively for females, with a water pipe and tap in each for supplying sea-water for ablution.

#### *Medical Inspection.*

64. The medical inspection of female pilgrims shall be carried out either by lady doctors or, under the supervision of the medical officer appointed by the local Government under section 32, by women appointed by the local Government in this behalf.

65. No articles found by the medical officer referred to in the last foregoing rule to have been contaminated by persons suffering from cholera or choleraic indisposition or from a disease which in his opinion is dangerously infectious or contagious, or suspected by him to have been so contaminated, shall be taken on board a pilgrim ship until they have been disinfected under his order in the manner prescribed by rule 59.

66. No pilgrim otherwise entitled shall be prevented from embarking save for any of the causes specified in section 32, sub-section (2).

#### *Issue of tickets and refunds of passage-money.*

67. (1) The ticket which every pilgrim is, under section 35, entitled to receive :

- (a) shall be sold from a book with counterfoils,
- (b) shall be denoted by a serial number which shall also be stamped on the counterfoil, and
- (c) shall be of canvas, paper or parchment, and not less than 4½ inches long by 3 inches wide.

(2) On the ticket and its counterfoil shall be inscribed :—

- (a) the name of the holder, or, if the holder be a female, the name of the pilgrim whom such female is accompanying,
- (b) the cost in words in Urdu, or in some other vernacular language approved by the local Government, and
- (c) the words *food is procurable on board the ships*.

The cost of a ticket shall not include any taxes other than the fixed dues leviable at Camaran and Jeddah.

68. (1) Every intending pilgrim who, having purchased a ticket, has not been permitted to embark under the provisions of section 32, sub-section (2), or who, having been received on board a pilgrim ship, has been removed from it in accordance with the provisions of section 33, sub-section (2), or who is from other unavoidable cause, such as the detention of any member of his family under either of the provisions aforesaid, prevented from proceeding to the Hedjaz shall be entitled to receive back from the owner or agent of the ship the amount paid by him as passage-money.

When a pilgrim dies on board ship before landing at the Camaran Lazaretto, the Master shall make over to his legal heirs if any on board or, if no such legal heirs are on board, shall add to his effects listed in accordance with rule 78 of these rules a sum equivalent to the fixed quarantine and sanitary dues leviable at Camaran and Jeddah in all cases in which such dues have been paid by the pilgrim in addition to the passage-money or have been included in the passage-money under rule 67.

(2) It shall be the duty, in the case of pilgrims at Bombay, of the Protector of Pilgrims appointed under the Protection of Pilgrims Act, 1887, and in the case of pilgrims at any other port, of such officer as the local Government may appoint in this behalf, to see that refunds of passage-money are promptly made to intending pilgrims entitled to them under this rule. Bombay Act II of 1887.

(3) The officer making an inspection under section 32 or section 33 shall, in case of such refund becoming due, impress on the pilgrim's ticket the words "Not permitted to proceed on voyage"; and such pilgrim shall thereupon be entitled, on presentation of the ticket so cancelled at the office of the owner or agent, to a refund of the passage-money paid by him.

(4) If the owner or agent neglects or refuses, on presentation, as provided by clause (3), of the cancelled ticket, to refund to the pilgrim the passage-money paid by him, such owner or agent shall be punishable with fine which may extend to two hundred rupees, and with a further fine which may extend to twenty rupees for each day after the day on which the ticket was presented, during which the refund remains unpaid.

*The Master, Owner, etc.*

69. Besides complying with the foregoing rules so far as they concern him, the master shall give the notice required under section 8 in Form No. IV appended to these rules, and shall produce, before the Inspector at the time of his inspection, a certificate in the following form:—

"Certified that it is proposed to issue tickets to pilgrims and to provide accommodation as follows:

"On the voyage of the pilgrim ship proceeding to—

CLASS OF PILGRIMS.	Maximum number of tickets to be issued.	Special accommodation and privileges (if any) to be reserved for each class.

*Master.*

70. In the event of a ship being engaged to carry more than 100 pilgrims, the owner, agent or master shall appoint to it a medical officer licensed under rule 80. A second medical officer licensed under rule 80 shall be similarly appointed if the number of pilgrims exceeds one thousand. The owner, agent or master shall also in the case of a ship engaged to carry more than 100 pilgrims appoint at least one male and, if there are any female pilgrims to be embarked, also one female attendant to assist the medical officer. In addition to the above attendants a compounder shall be engaged by the owner, agent or master, if the ship is to carry more than 400 pilgrims. Such compounder and attendants must be approved of by the Health Officer at the port of departure and arrangements shall be made to the satisfaction of the Inspector for providing them with adequate accommodation on board ship.

71. The master shall afford the medical officer every facility for examining the provisions, water and medical stores, and for making himself generally familiar with the arrangements made for the accommodation of the pilgrims about to be carried.

72. The master shall cause the statements required by sections 22 and 25 to be prepared in Form No. V appended to these rules.

73. The bond required by section 31 when a ship clears from any port in British India other than Aden for any port in the Red Sea shall be executed in Form No. VI appended to these rules.

74. Before sailing the master shall obtain from the Port Health Officer a bill of health as prescribed in Form no. VII appended to these rules.

75. The master shall post up in the between-decks and in such other places accessible to the pilgrims as may be convenient copies of the Act and of these rules and of articles 92 and 151 to 161 of the Paris Sanitary Convention of 1903, and all notices which he may be required so to post by the Commissioner of Police or other authorized officer at the port of first departure. All such copies shall be in English, French or German, and in Persian, Urdu and Gujarati. The master shall afford every facility to the Port Officer, or other duly authorized officer or person, for making the official inspection of the ship, her equipment, ventilation, fittings, provisions and medical stores, and shall himself be present at such inspection.

76. The master shall be jointly responsible with the medical officer for the care of the pilgrims on the voyage. He shall see that the special accommodation and privileges, if any, to which the pilgrims are entitled, are reserved to them without hindrance or diminution throughout the voyage: that the space in the upper and between-decks is not encroached upon; that all rules and regulations for securing cleanliness and order are carried out, and, as far as possible, that all reasonable requisitions of the medical officer are complied with.

77. The master shall appoint one of the officers of the ship to the charge of the provisions and stores, to see to the punctual issue according to scale of the day's rations and water, and to assist the medical officer generally.

78. (1) When any pilgrim who is unaccompanied by any of his legal heirs dies on the voyage, the master shall call a panch composed, wherever possible, of four literate pilgrims and the medical officer on board the ship and shall make an inventory of the effects of the deceased, adding such particulars as to the name and residence of the deceased and the names and addresses of the legal heirs and nearest relations in India as he may be able to gather.

(2) The inventory and particulars prescribed by sub-rule (1) shall be signed by the master and attested by the members of the said panch and the master shall then take charge of the effects of the deceased.

(3) If the ship returns direct from the Hedjaz to any British Indian port, the master shall immediately on the ship arriving in such port, make over the effects of the deceased with the said inventory and particulars to the Commissioner of Police in Bombay, Madras or Calcutta, and elsewhere to the Magistrate of the District, or, in his absence, the Magistrate in charge.

(4) If the death occurs on the voyage to the Hedjaz, and the ship does not return direct to British India, the master shall make over the effects, with the said inventory and particulars as above, to the British Consul at Jeddah.

79. The master shall cause the supplementary statement, required by section 24 when additional pilgrims are taken on board at an intermediate port, to be prepared in Form no. V appended to these rules, the heading being altered to "Supplementary Statement required by section 24 of the Pilgrims Act, 1895."

#### *The Medical Officer.*

80. (1) Besides complying with the foregoing rules so far as they concern him, the medical officer of every pilgrim ship required by the Act to carry a medical officer shall be licensed by the local Government and appointed by or on behalf of the owner of the pilgrim ship. Every person desiring to obtain a license to act as such medical officer shall apply for a license to the Civil Administrative Medical Officer of the province in which the port of first departure lies. At Jeddah such license may be granted, for the return voyage only, by the British Consul at that port.

(2) The license shall be renewable yearly, and shall be in Form no. VIII appended to these rules.

(3) No person shall be eligible for appointment as medical officer who is unable to write either English or French or German or Italian or who does not possess either a medical qualification registered in a Medical Register in the United Kingdom or a degree or license of one of the following Universities, *viz*, Calcutta, Bombay, Madras, Punjab and Allahabad, or the qualification of a Military Assistant Surgeon.

81. The medical officer shall, if not already attached to the ship, immediately on his being appointed to it, proceed on board, report himself to the master, examine and check the medicines and medical stores, and inform himself generally as to the arrangements made for the accommodation of the pilgrims.

82. The medical officer shall also report himself personally to the Inspector with a view to receiving any instructions which that officer may have to give him in connection with his duties and the official inspection of the ship.

83. The medical officer shall be present at the final inspection and, after it has been held and the ship and her arrangements approved, he shall, if satisfied regarding arrangements for the care and comfort of the pilgrims made in accordance with the rules, furnish a certificate to that effect in Form no. IX appended to these rules.

84. The medical officer shall provide himself with all the necessary instructions and forms required for the voyage.

85. The medical officer shall attend any medical officer appointed to inspect the pilgrims before embarkation under section 32, or after embarkation under section 33, and shall, with a view to special care or precautions on the voyage, watch those who may appear to be in an infirm or sickly state, and make a note regarding them in his diary.

86. The medical officer shall not leave the ship after the medical inspection has been completed. He shall see that the place set apart for the accommodation of the pilgrims is not encroached upon; that all the pilgrims have access to the upper deck; that good drinking water is readily accessible and duly supplied; that the latrines are attended to by the ship's topases; that a supply of water is at hand for use in the latrines; that suitable hours have been fixed, in communication with the officer in charge of the stores, for the regular issue of daily rations to such of the pilgrims as have to be fed by the ship; and generally that every proper care is taken to secure cleanliness and good sanitary arrangements on board.

87. The medical officer shall satisfy himself that any additional passenger waiting to be taken on board at an intermediate port is not suffering from, or shows no signs or symptoms of, choleraic indisposition or any disease which is, in his opinion, dangerously infectious or contagious.

88. The medical officer shall be jointly responsible with the master for the care of the pilgrims on the voyage, and shall co-operate with the master and officers of the ship for the welfare of the pilgrims.

89. During the voyage from any port in British India (except Aden) the medical officer shall for the first five days daily inspect the pilgrims and observe them individually to assure himself that none of them is affected with cholera, small-pox, yellow fever or plague.

90. The medical officer shall, if he has any doubt as to the quality of the drinking water, draw the attention of the master, in writing, to the provisions of rule 41.

91. The medical officer shall, should any case of infectious or contagious disease occur, satisfy himself that disinfection is performed in the manner prescribed by rule 59 and shall record in his diary the fact that he has done so.

92. (1) The medical officer shall keep up regularly, from day to day throughout the voyage, the following records in connection with his duties, *vis.* :—

(a) a medical diary of the principal events of the voyage, briefly and accurately recording all facts in connection with the medical history of the pilgrims, including a record of any advice he may give to the master, and of compliance with or neglect of, such advice;

(b) an Admission and Discharge Book of every case brought under treatment in Form no. X appended to these rules; and

(c) a Register of Deaths in Form no. XI appended to these rules.

(2) These records shall be written in either English, French, German or Italian.

93. On arrival at the port of debarkation in the Red Sea, the medical officer shall submit his diary and returns to the Consular authority there for transmission to the Government of India, and shall forward simultaneously a copy of them to the Inspector at the port in British India from which the voyage commenced, and on arrival at any British Indian port to the Chief Customs-officer or to any officer authorized under section 25 to receive the statements referred to in that section.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday,  
the 13th October 1910, based on the Indian Daily Weather  
Reports of the period.**

1. The Bombay monsoon current was inactive and gave only a few falls of rain, chiefly in the extreme south of the Peninsula, while the Bay current was confined almost entirely to Burma and Eastern Bengal and Assam; there was fairly general rain in Burma throughout the week and in Eastern Bengal and Assam on the 8th and 9th.

2. A feeble disturbance of the winter type affected the extreme north on the 11th. It gave hardly any rain at the reporting stations; but, from the very rapid fall of temperature which followed it in both Kashmir and Baluchistan, it would appear probable that it occasioned more important precipitation in the form of snow in the higher ranges to the north and west.

3. The rainfall of the week was 20 per cent or more in excess in Burma, Eastern Bengal and Assam, Bengal proper, Orissa, the Central Provinces, Hyderabad North and Mysore; and there was a deficiency of half an inch or more in Bihar, the United Provinces East, Berar, the Konkan, Malabar and the Madras Deccan.

4. *Burma.*—Rainfall was fairly general, and skies were moderately to heavily clouded.

*Northeast India, including Orissa.*—Rain fell locally in Eastern Bengal and Assam and a few falls occurred in Bengal, especially in the coast districts. Cloud was moderate to heavy except on the 10th and 11th, when skies were only lightly clouded.

*The United Provinces, Central India and the Central Provinces.*—Weather was dry except for a few falls of rain in the Central Provinces. Skies were practically cloudless in the United Provinces, but there was moderate to heavy cloud on most days in the Central Provinces; and on the 11th and 12th the night temperatures reported were higher than usual in this area.

*Northwest India.*—A light fall of rain occurred at Sonemarg, and snow probably fell on the higher ranges. On the 11th cloud appeared in the extreme north and increased in the south of the division, but on all the remaining days skies were practically clear. Maximum temperature was higher than usual in Kashmir and Baluchistan until precipitation in the extreme north caused it to fall below the normal: it was in local defect in Gujarat and east Rajputana.

*The Peninsula.*—There were a few falls of rain, chiefly in the extreme south. Skies were lightly to moderately clouded.

5. The following are the chief amounts of rainfall as reported at 8 hrs. each day:—

October	7th.	Mergui 2'44", Lashio 2'11", Darjiling 1'92", Bogra 3'49" and Seoni 2'44".
"	8th.	Mandalay 1'38", Lashio 2'30", Silchar 2'15" and Cocanada 1'78".
"	9th.	Myitkyina 2'82", Jalpaiguri 2'70" and Jessore 4'13".
"	10th.	Cherrapunji 3'64", Cuttack 2'51", Salem 1'82" and Kodaikanal 2'07".
"	11th.	Lashio 3'48", Salem 2'60" and Nellore 2'55".
"	12th.	Bhamo 3'48", Mysore 1'87" and Gopalpur 1'70".
"	13th.	Balasore 2'87", Mysore 3'02", Madura 2'13", Trichinopoly 3'35" and Salem 1'75".

6. The rainfall for the whole period from the 29th April to the 13th October is within 20 per cent of the normal every where, except in Kashmir and Baluchistan, where it is more than 20 per cent in defect, and in the North-West Frontier Province, Sind, Mysore and the Madras Deccan, where it is more than 20 per cent in excess.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
8th October 1910.

**Burma.**—The rainfall during the week was practically general and mostly moderate. Transplanting of winter rice continues in parts of Upper Burma but has been delayed in Lower Chindwin for want of rain. Replanting in flooded areas of the Delta districts is progressing. Reaping of early sessamum has been nearly completed and sowing of late sessamum and cultivation of miscellaneous crops are in progress. The condition of standing crops is on the whole good and prospects are favourable. The price of unhusked rice has risen considerably in Tharrawaddy and slightly in three other districts. It has fallen slightly in one district. Prices are generally normal.

**Eastern Bengal and Assam.**—The rainfall has been heavy in parts of Rajshahi; the Surma Valley and the Assam Valley divisions and light to moderate elsewhere. Harvesting of summer rice and jute and transplanting of winter rice have been practically completed. Ploughing for spring crops, plucking of tea and sowing of pulses are in progress. Prospects of standing crops are good. The average price of common rice is practically unchanged. Cattle disease prevails in Malda, Goalpara, Kamrup, Nowgong and the Garo Hills.

**Bengal.**—The rainfall during the week was fairly general over the Province. The fall was heavy in Birbhum, Nadia, Jessore, Patna, Shahabad, Muzaffarpur, Darjeeling, Cooch Behar and in parts of Gaya, Murshidabad, Saran, Champaran, Darbhanga and the Sonthal Parganas; moderate in Midnapore, Cuttack, Sambalpur and Hazaribagh and light elsewhere. More rain is wanted in Burdwan, Bankura, Midnapore and the 24 Parganas. Harvesting of autumn crops still continues. Preparation of lands for spring crops has commenced. Winter paddy and sugarcane are doing well. Some damage to paddy by insects is reported from Sambalpur. The price of common rice has risen in Burdwan, Khulna, Hazaribagh and Singhbhum and has fallen in Bankura, Nadia, Patna, Monghyr, Bhagalpur and Ranchi. Cattle disease is reported from ten districts. The supply of fodder and water is sufficient throughout the Province.

**United Provinces.**—Heavy rain fell at the beginning of the week over a large part of the Provinces causing some damage to cotton and the larger millets. Rivers rose suddenly to full flood, but except in two or three districts inundations are reported to have caused little damage beyond retarding sowings for spring crops in the flooded areas. The general condition of standing crops continues good and prospects are favourable. Cotton-picking and harvesting of rice, maize and millets continue. Preparations for spring crops which were checked by rain are again in full swing. Sporadic cattle disease is reported from twenty-six districts but the general condition of agricultural stock is good. Fodder and supplies are ample. Prices are generally stationary.

**Punjab.**—Good to light rain has fallen in Rohtak and parts of Hissar and Delhi. Autumn crops are being harvested in certain districts. Ploughings for and sowings of spring crops continue. The condition of standing crops is average in Lahore, Sialkot, Multan and parts of Hissar and Ferozepore, average to below average in Lyallpur, average to poor in Mianwali and good elsewhere. Crops are withering for want of rain in Sialkot and Mianwali. Cotton in Rohtak and great millet and bulrush millet in Delhi

have been damaged by heavy rainfall. Slight damage by rats is reported from Ferozepore. Prices are generally unsettled. The condition of cattle is generally good. Fodder is sufficient except in parts of Mianwali.

**North-West Frontier Province.**—No rain fell during the week. It is badly wanted in the Dera Ismail Khan district. The condition of standing crops is generally good in Peshawar and average elsewhere. Picking of cotton and reaping of rice are in progress in the Peshawar district. Sowings of spring crops continue. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal has been stopped. The condition of cattle is generally good but disease is prevalent in one village of the Charsadda tahsil of the Peshawar district, in the Tank tahsil and in Dera tahsil of the Dera Ismail Khan district. The public health is generally good. Seasonal fever is prevalent in the Dera Ismail Khan district. Prices of food grains are generally stationary. Prices :—wheat  $13\frac{1}{4}$  to  $18\frac{7}{16}$  ; gram  $17\frac{5}{16}$  to 26 ; maize 15 to  $29\frac{1}{16}$  and *bajra* 18 to 25 seers per rupee.

**Jammu.**—No rain fell during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

**Kashmir.**—There is no disease among cattle. Fodder is sufficient. Prices are stationary.

**Rajputana.**—The rainfall reported, in cents, was :—Bikaner 22 ; Dungarpur 58 ; Banswara 142 ; Partabgarh 160 ; Tonk 46 ; Bundi 61 ; Jhalawar 110 ; Jaipur 20 ; Alwar 109 ; Karauli 82 ; Dholpur 424 and Ajmer 83. No rain or practically none fell elsewhere. Agricultural operations for both autumn and spring crops are in progress. Crops are generally good but the outturn is much below the average in Bharatpur. Slight damage by winds is reported in Marwar, by grass-hoppers in Mewar and by heavy rains in Karauli and Bharatpur. Cattle disease prevails in Mewar, Banswara, Karauli and Merwara. Fodder is sufficient. Prices are rising in Mewar, Shahpura and Ajmer and are steady or falling elsewhere.

**Central India.**—The rainfall was heavy in the Indore, Malwa and Bhopawar Agencies and has caused some damage to cotton, rice and other crops. The weather is clear and bright. Crops are now maturing rapidly and promise an abundant yield. Harvesting of autumn crops and preparation of ground for spring crops are in progress. Fodder is plentiful. Cattle are generally in good condition but some disease exists in parts of Bhopal, Bundelkhand and Bhopawar. Prices are falling in Bhopal and Baghelkhand and are steady elsewhere.

**Central Provinces.**—The rainfall has been slight. A break has now occurred and is doing good to crops. Harvesting of early rice and minor crops and preparation of land for sowing of spring crops have been resumed. Sowing of gram in Mandla, of linseed in Chanda and Raipur and of pulses in Betul has commenced. Prospects are good. The estimated outturn of *hl* for the Central Provinces and Berar is 111 and 87 per cent of the normal respectively. Fodder and water are sufficient everywhere. Cattle are doing well. Prices are falling slightly.

**Feudatory States.**—The rainfall in the States during the week did not exceed 2 inches. Cutting of rice in places and ploughing of land for sowing of spring crops are in progress. The condition of standing crops is generally good. Fodder and water are

adequate. Prices :—wheat and gram in Kanker fell by 2 and 3 seers per rupee respectively. Rice sells cheaper by 2 seers in Sakti.

**Bombay.**—The rainfall during the week was heavy in parts of Ratnagiri; good in Thana, Colaba, East Khandesh, Kathiwar and Savantvadi; moderate in the Panch Mahals, Kanara, Nasik, Ahmednagar, Poona, Satara, Dharwar, Mahi Kantha, Rewa Kantha and Kolhapur and slight in Ahmedabad, Kaira, Broach, Surat, West Khandesh, Sholapur, Bijapur, Belgaum and Baroda. The rainfall was general and sufficient. Standing crops are suffering from insufficient moisture in Palanpur and from excessive moisture in Ratnagiri, Nasik and Sholapur. They have been damaged slightly by rats in Karachi, by insects in Sukkur, by grass-hoppers in Nasik, Ahmednagar, Poona, Belgaum and Dharwar and are generally good elsewhere. Harvesting of autumn crops is progressing in parts of Sind, Gujarat, the Konkan, the Deccan, Cutch, Baroda, Rewa Kantha and Savantvadi. Lands are being prepared for cultivation of spring crops in parts of Sind, Gujarat, West Khandesh, Nasik, Poona and Rewa Kantha. Sowing of spring crops continues in Broach, Ahmednagar, Poona, Satara, Sholapur, Belgaum, Bijapur and Baroda. The fodder supply is generally adequate. Agricultural stock is deficient in Ahmednagar, Satara and Sholapur and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Prices have risen in Poona, have fallen in Karachi, Larkana, Ahmedabad, Kaira, Colaba, Kanara, East Khandesh, Satara, Sholapur, Belgaum and Dharwar and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 40 per cent; in the Konkan 13 to 29 per cent and in the Karnatak 2 to 21 per cent less than the normal. In Gujarat prices ranged from 18 per cent more than the normal to 23 per cent less and in the Deccan from 30 per cent more to 23 per cent less.

**Hyderabad.**—The average rainfall in the Dominions was 1 inch 9 cents. The rain was almost general. It was heavy in the Aurangabad and Nander districts and fair to light in other parts. The heaviest fall occurred in Jintur in the Parbhani district. Autumn crops are fair to good except in parts of Aurangabad, Parbhani, Nander and Usmanabad where they have suffered from excessive rain. Cotton plants are being rooted up in parts and land is being prepared for spring crops. Some damage has been caused by insects to crops in parts of the Raichur district but prospects are satisfactory. The early rice crop is being weeded. Lands are under preparation for spring crops and sowings are in progress but have been suspended in parts where the rain was excessive and continuous. Cattle disease prevails in some talukas. Prices :—wheat  $6\frac{1}{2}$ ; coarse rice  $6\frac{1}{2}$  and *juar*  $14\frac{1}{2}$  seers per rupee, showing a fall of  $\frac{1}{4}$  seer in the price of *juar*. White *juar* is selling in Hyderabad City at 12 seers and yellow *juar* at  $13\frac{1}{2}$  seers per rupee. The highest price in districts is 8 seers in Karimnagar and the lowest 24 seers in Bidar.

**Mysore.**—The rainfall was good in Tumkur and slight elsewhere. Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition but more rain is needed in parts of Bangalore, Kolar, Mysore, Hassan and Kadur. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

**Coorg.**—Rainfall 18 cents. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

**Madras.**—The rainfall was good in the Circars except Ganjam and light to fair elsewhere. The rainfall in thirteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in the Circars, Bellary, Anantapur, Cuddapah, Trichinopoly, Tanjore, Malabar, South Canara and the Nilgiris and insufficient in Chingleput and

in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary have been damaged by grass-hoppers, some in parts of Kurnool have been damaged by excessive rain and some in parts of Chingleput, North Arcot, Salem, Coimbatore, Madura and Tinnevely are in urgent need of rain. Harvests continue in parts with outturn generally fair to normal. Pasture is insufficient in parts of Coimbatore and Tinnevely. Fodder is scanty in Ganjam, Godavari, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in eleven districts, has fallen in six and has risen in seven. The prices of millets have fluctuated as follows :—*Ragi* is stationary in eight districts, has fallen in ten and has risen in four. *Cholam* is stationary in five districts, has fallen in five and has risen in two. *Cumbu* is stationary in three districts, has fallen in nine and has risen in four. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

RESOLUTION.

It was recently suggested to the Government of India that, in the form of agreement for the engagement of lascars in India, provision should be made rendering it obligatory on the masters of foreign vessels engaging lascar crews to obtain the sanction of the resident British Consular Officer to all alterations in the agreement occurring at foreign ports. The suggestion was referred to the maritime Local Governments and has been unanimously approved by them. The Governor General in Council is accordingly pleased to direct, under section 27 of the Indian Merchant Shipping Act, 1883 (V of 1883), that the following additional stipulation shall be inserted after the last additional stipulation at the foot of the first page of the form of lascar agreement :—

“ Additional stipulation which must be entered into and signed by the owner of a foreign vessel or by the master on his behalf :—

I hereby further agree, in the event of any alteration being effected in this agreement before or after arrival at any foreign port by reason of the engagement, discharge, transfer, leaving behind, desertion or death of any lascar or other native seaman employed under this agreement or through any other cause, to report such alteration for the sanction of the resident British Consular Officer at such port and to submit this agreement to the said Consular Officer for the purpose of having a memorandum of such alteration endorsed thereon and certified by him and to pay to the said Consular Officer the fees prescribed in this behalf by the Consular Fees (Amendment) Order in Council, 1910, or any other Order for the time being in force.

*Owner or Master.”*

#### NOTICE.

The 24th March 1910.

From the 9th April next till further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 2nd April all notifications and other matter intended for publication in the *Gazette* should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

**No. 8963-A.**—The following agreement executed on behalf of the Countess of Dufferin Dispensary Society, of the one part and the Secretary of State for India in Council of the other part under section 41 of the Land Acquisition Act, No. I of 1894, is hereby published for general information under section 42 of that Act :—

**THE COUNTESS OF DUFFERIN DISPENSARY SOCIETY, SURAT.**

AN AGREEMENT made this 31st day of August one thousand nine hundred and ten between the Countess of Dufferin Dispensary Society, Surat, hereinafter called the "Society" of the one part, and the SECRETARY OF STATE FOR INDIA IN COUNCIL hereinafter called "the Secretary of State" of the other part.

WHEREAS for the purpose of the construction of a Hospital on the lands of Surat City in the Chorási Táluka in the Surat District the Society have applied to the Local Government to put in force the provisions of the Land Acquisition Act, 1894 (I of 1894), in order to acquire for the Society certain lands in the schedule hereto more particularly mentioned and described. AND WHEREAS the Local Government having held an inquiry and being satisfied that the proposed acquisition is needed for the construction of the said work and that such work is likely to prove useful to the Public has pursuant to section 41 of the said Act required the Society to enter into such agreement with the Secretary of State as is herein contained. NOW THESE PRESENTS witness and it is hereby agreed between and the Society for and on behalf of themselves and their successors and assigns on the one hand and the Secretary of State for India in Council for and on behalf of himself and his successors on the other hand as follows:—

1. That the Society shall and will pay to the Secretary of State through the Local Government the cost determined by the Local Government of the acquisition of each of the several parcels specified in the schedule hereto as and when possession of the same shall be handed over by the Local Government to the Society.

2. That on such payment as aforesaid being made the land in respect whereof the same shall be so made shall be transferred to and legally vested in the Society subject however to the provisions of clause 3 of these presents.
3. That the said lands when so transferred to and vested in the Society shall be held by the Society as their own property and used for the purposes of their undertaking and in case at any time the said lands or any of them or any part thereof shall no longer be required for the purposes of their undertaking the Society shall be at liberty to sell the same or any part thereof.
4. The work of constructing the said Hospital shall be completed within 2 years from the date on which possession of the whole lands specified in the schedule shall be handed over by the Local Government to the Society. The said Hospital shall be maintained in a state of efficient repair by the Society at their own cost.
5. The Public without any exception shall be entitled to resort to the said Hospital under the usual rules and conditions; and to receive treatment for all women and children either free or on payment of the sanctioned fees according to their means as is usual at all public hospitals.

In witness whereof the common seal of the Countess of Dufferin Dispensary, Surat as been hereunto affixed in the presence of two of the members and the Secretary of the said Society who have hereunto signed their names and one of the Secretaries to the Government of Bombay for and on behalf of the Secretary of State for India in Council has hereunto set his hand the day and year first above written.

*The 22nd October, 1910.*

**No. 7532-13.**—In exercise of the powers conferred by Section 7 of the Indian Telegraph Act, 1885 (XIII of 1885), the Governor General in Council is pleased, with effect from the 1st November 1910, to make the following amendments in the rules published with the Notification of the Government of India in the Department of Commerce and Industry,

No. 7571-163, dated the 8th October 1909, and to direct that the rules as amended shall govern the exchange by radio-telegraph of public correspondence between ships at sea and the coast stations at Bombay, Calcutta, Diamond Island, Sandheads, Table Island and Victoria Point :—

For Rule 1 substitute the following :—

- " 1. The service at coast stations in India will be according to the hours notified for such stations in the Indian Telegraph Guide. Those coast stations at which the service is of limited duration must not close before they have transmitted all their radio-telegrams to such ships as are within their range of transmission and have received from these ships all the radio-telegrams of which notice has been given. This applies also when ships notify their presence before work has actually ceased."

In Rule 6 for the words "the temporary coast station at Bombay" substitute "a coast station," and cancel the last sentence of the Rule.

For Rule 13 substitute the following :—

- " 13. The originals of radio-telegrams and the documents relating to them are kept for three days only in Government telegraph offices, after which they are sent to the Assistant Accountant General, Telegraph Check Office, Calcutta, where they are preserved for at least twelve months, reckoned from the month following that of handing in."

Rule 14 shall be cancelled.

## PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

### NOTIFICATION.

*Simla, the 21st October, 1910.*

**No. 52.**—The Governor General has been pleased, under rule 23 of the Rules for the Conduct of the Legislative Business of the Council of the Governor General, to order the publication of the following Bill, together with the Statement of Objects and Reasons relating thereto, in the *Gazette of India* in English, and the Bill and Statement of Objects and Reasons are accordingly hereby published for general information. It is proposed to introduce the Bill at a forthcoming meeting of the Legislative Council of the Governor General.

Suggestions in regard to the Bill will be taken into consideration by the Government of India if communicated to the Secretary to the Government of India in the Legislative Department by the 30th November next.

#### BILL No. 16 OF 1910.

*A Bill to amend the Indian Ports Act, 1908.*

XV of 1908. WHEREAS it is expedient to amend the Indian Ports Act, 1908; It is hereby enacted as follows:—

1. This Act may be called the Indian Ports (Amendment) Act, 1910.  
Short title.

XV of 1908. 2. For clause (p) of section 6, sub-section (1), of the Indian Ports Act, 1908, the following shall be substituted, namely:—

[*Cf. Public Health Act, 1904, s. 1. S. 130, Public Health Act, 1875.*]  
“(p) subject to the control of the Governor General in Council, for the prevention of danger arising to the public health by the introduction and the spread of any infectious or contagious disease from

vessels arriving at, or being in, any such port, and for the prevention of the conveyance of infection or contagion by means of any vessel sailing from any such port, and in particular and without prejudice to the generality of this provision, for—

- (i) the signals to be hoisted and the places of anchorage to be taken up by such vessels having any case, or suspected case, of any infectious or contagious disease on board, or arriving at such port from a port in which, or in the neighbourhood of which, there is believed to be, or to have been at the time when the vessel left such port, any infectious or contagious disease; [*Cf. Public Health Act, 1896, s. 1.*]
- (ii) the medical inspection of such vessels and of persons on board such vessels; [*Cf. Public Health Act, 1875.*]

Public  
Health Act,  
1886, s. 1 (b).]

(iii) the questions to be answered and the information to be supplied by masters, pilots and other persons of such vessels;

Public  
Health Act,  
1886, s. 1 (c).]

(iv) the detention of such vessels and of persons on board such vessels;

Public  
Health Act,  
1886, s. 1 (d).]

(v) the duties to be performed in cases of any such disease by masters, pilots and other persons on board such vessels;

(vi) the removal to hospital and the detention therein of any person from any such vessel who is suffering or suspected to be suffering from any such disease; [Cf. s. 110, Public Health Act, read with s. 2, Public Health (Ships) Act, 1885.]

(vii) the cleansing, ventilation and disinfection of such vessels or any part thereof and of any articles therein likely to retain infection or contagion, and the destruction of rats or other vermin in such vessels; and

(viii) the disposal of the dead on such vessels; and”.

#### STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to enable provision to be made for the preparation of a satisfactory code of regulations for the prevention of the spread of disease by means of ships arriving at and departing from India. The provisions of the existing law are insufficient for this purpose, and they have been expanded accordingly, following generally the provisions of the English Public Health Acts.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday,  
the 20th October 1910, based on the Indian Daily Weather  
Reports of the period.**

1. The rainfall of the week occurred chiefly in northeast India excluding Bihar, the south of the Peninsula and on the north Madras coast. There was but little rain in Burma, and none to the northwest of a line joining Karwar and Purnea. An excess of 20 per cent or more was received in the divisions of Assam, Eastern Bengal, Bengal proper, Chota Nagpur, Orissa, the Madras Coast North, Mysore and Malabar; and there was a deficiency of half an inch or more in Lower Burma, Bihar, Berar, the Konkan, the Bombay Deccan, Hyderabad North, and Madras Southeast.

2. The low pressure conditions over the Bay usually associated with the gradual retreat of the monsoon were well marked, and at the close of the week weather was apparently disturbed in the centre of the Bay.

3. *Burma*.—Only a few falls of rain were reported, chiefly from the northern districts where skies were moderately to heavily clouded; in the rest of the division cloud was light.

*Northeast India, including Orissa*.—No rain fell in Bihar and only one or two falls occurred in Chota Nagpur, but rainfall on most days was fairly general in the rest of the division. Skies were moderately clouded; and maximum temperature was lower than usual in Assam, and locally in Eastern Bengal, Bengal proper and Orissa.

*The United Provinces, Central India and the Central Provinces*.—Raipur and Jagdalpur were the only places that had rain, and skies were clear or lightly clouded except in the southeast of the Central Provinces. Unusually low night temperatures were reported on the last three days of the week.

*Northwest India.*—There was no rain and skies were cloudless. Night temperature was in defect in parts of Rajputana and of the east and north Punjab.

*The Peninsula.*—Rainfall was fairly general in Mysore, Malabar and on the north Madras coast, and a few falls occurred in southeast Madras and the southeast of Hyderabad. Skies were clear or lightly clouded in the northwest of the Peninsula and were moderately to heavily clouded elsewhere; and day temperature was locally lower than usual on the north Madras coast.

4. The following are the chief amounts of rainfall as reported at 8 hrs. each day:—

October	14th.	Silchar 1·89", Barisal 1·80" and Calcutta 1·86".
"	15th.	Myitkvina 3·63", Silchar 2·04", Cochin 2·43" and Trivandrum 4·62".
"	16th.	Mymensingh 1·99", Bangalore 1·93" and Negapatam 1·85".
"	17th.	Silchar 2·12", Mymensingh 1·88", Saugor Island 1·82", Jessore 2·59" and Chaibassa 2·13".
"	18th.	Cherrapunji 3·72", Mysore 1·91", Calicut 4·00", Cochin 2·90" and Trivandrum 2·70".
"	19th.	Silchar 1·75" and Vizagapatam 1·86".
"	20th.	Masulipatam 2·15".

5. The rainfall of the whole period from the 29th April to the 20th October is in excess by 20 or more per cent in the North-West Frontier Province, Sind, Mysore, the Madras Deccan and on the Madras Coast North; and is in defect by the same amount in Kashmir and Baluchistan.

Season and Crop Prospects for the week ending Saturday,  
15th October 1910.

**Burma.**—The rainfall was generally heavy in the northernmost section and light to moderate elsewhere. Transplanting of winter rice has been nearly completed in Upper Burma. Replanting in flooded areas of three Delta districts continues. Reaping of early sesamum, cutting of maize, plucking of cotton and sowing of pulses are progressing. Standing crops are on the whole in good condition and prospects are satisfactory. The price of unhusked rice has risen considerably in Bassein and slightly in two other districts. Prices are generally normal.

**Eastern Bengal and Assam.**—The rainfall during the week was general. It was heavy in parts of the Dacca, Chittagong and Surma Valley divisions and light to moderate elsewhere. The heaviest fall was 11 inches at Hailakandi. Ploughing for spring crops is in active progress. Sowing of pulses is still going on. Plucking of tea continues. Prospects are favourable. Winter rice, sugarcane and cotton promise well. The average price of common rice has risen one per cent. Cattle disease prevails in Malda, Goalpara, Nowgong, Lakhimpur and the Garo Hills.

**Bengal.**—Rain fell in all the districts of the Province except Patna, Shahabad, Saran, Champaran, Darjeeling and Palamau. The fall was heavy in Burdwan, Bankura, Midnapore, Hooghly, the 24-Parganas, Nadia, Jessore, Khulna, Cuttack and Balasore, moderate in Puri and Singhbhum and light elsewhere. The recent rain has been beneficial to the winter rice crop but more rain is wanted for the purpose in parts of Midnapore and Murshidabad. Harvesting of autumn crops is still in progress. Preparation of lands for spring crops continues and sowings have commenced in some districts. Prospects of standing crops are good. Some damage to paddy by insects and to *kalai* by floods is reported from Sambalpur and Murshidabad respectively. The price of common rice has risen in Midnapore, Gaya, Saran, Darbhanga, the Sonthal Parganas, Hazaribagh, Ranchi, Manbhum and in all the districts of the Presidency division except the 24-Parganas and has fallen in Champaran, Monghyr and Bhagalpur. Cattle disease is reported from eleven districts. The supply of fodder and water is ample throughout the Province.

**United Provinces.**—The weather was seasonable and the week practically rainless. Sugarcane and other standing crops are flourishing. Cotton picking and harvesting of autumn crops continue. Ploughing operations are in full swing and sowing of gram, barley and linseed has begun in places. Prospects are good. Sporadic cattle disease is reported from twenty-six districts but the general condition of stock is good. Fodder and supplies are ample everywhere. Prices are for the most part stationary.

**Punjab.**—No rain fell during the week. Autumn crops are being harvested in certain districts. Picking of cotton is in progress. Ploughings for and sowings of spring crops continue. The condition of standing crops is good to average in Hissar and Ferozepore, average in Lahore, Sialkot and Multan, average to below average in Lyallpur, fair to poor in Mianwali and good elsewhere. Crops are withering owing to drought in parts of Mianwali. Rain is also wanted in Shahpur. The outturn of autumn crops which are being harvested is generally good to average and that of cotton is average to below average in Lyallpur. Bulrush millet has become dark in parts of Rohtak owing to incessant rain and cotton has also been damaged to some extent for the same cause. Autumn crops have been damaged slightly by rats in Ferozepore. Prices are generally unchanged. The condition of cattle is generally good. Fodder is sufficient except in parts of Mianwali. Complaints of a short water supply are being received from the Samundri and Toba Tek Singh tahsils in the Lyallpur district.

**North-West Frontier Province.**—No rain fell during the week. It is badly wanted in the Dera Ismail Khan district. The condition of standing crops and their expected outturn are average. Maize is being reaped and cotton picked in the Mardan tahsil of the Peshawar district. Harvesting of *bajra* has commenced in the Dera Ismail Khan district. Sowing of spring crops is in progress. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal in the Dera Ismail Khan district has been stopped. Cattle are generally in good condition but disease is prevalent in one village of the Nowshera tahsil of the Peshawar District and in one village of the Dera Ismail Khan tahsil. The public health is generally good. Malarial fever is prevalent in the Nowshera and Mardan tahsils of the Peshawar district. Prices of food grains are fluctuating. Prices:—wheat 13½ to 18½; gram 17½ to 26; maize 15 to 28½ and *bajra* 16 to 35 seers per rupee.

**Jammu.**—No rain fell during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

**Kashmir.**—There is no disease among cattle. Fodder is sufficient. Prices are stationary.

**Rajputana.**—No rain fell during the week. Agricultural operations are in progress. Standing crops are generally good but they have been damaged by heavy rainfall in Bharatpur where the probable outturn will be much below the average. Some damage by unfavourable winds is reported in Marwar and by insects in one district of Mewar. Cattle disease is prevalent in Mewar, Banswara, Karauli and Merwara. Fodder is sufficient. Prices have risen in Jhalawar, Jaipur, Kishangarh, Bharatpur and Ajmer and are steady or falling elsewhere.

**Central India.**—The rainfall during the week was slight in parts of Malwa and Bhopawar. No rain fell elsewhere. The weather is excellent. Cotton, oilseeds and other crops have been damaged slightly by insects in Gwalior, Bhopal, Malwa and Bhopawar. Harvesting of autumn crops and preparation of land for spring crops continue. Cattle are generally in good condition except for some disease in Bhopal and Bundelkhand. Prices are falling in Bhopal, Baghelkhand and Bundelkhand and are steady elsewhere.

**Central Provinces.**—The weather has been clear and cool. Only Raipur had 30 cents of rain during the week. No more rain is required at present anywhere. Harvesting of autumn crops and ploughing of land for sowing of spring crops are in progress. Sowing of spring crops has already been started in some districts. Picking of cotton has begun in places in Buldana and Yeotmal. The condition of standing crops is generally good everywhere. The supply of fodder and water is adequate. Cattle are healthy. Variations in prices are unimportant and indicate a downward tendency.

**Feudatory States.**—During the week three States received rain ranging from 2 to 3 inches. Cutting of rice and sowing of spring crops continue. Prospects are good. Pasturage and water are ample. Prices:—gram in Kanker and rice in Jashpur became dearer by 2 seers per rupee.

**Bombay.**—The rainfall during the week was moderate in parts of Dharwar, Savantvadi and Kolhapur and slight in the Konkan, the Deccan, Belgaum, Kathiawar and Rewa Kantha. Standing crops are suffering from insufficient moisture in the Upper Sind Frontier and Palanpur. They have been damaged slightly by rats in Karachi, by insects in Sukkur and Larkana, by grasshoppers in Nasik, Ahmednagar, Poona and Belgaum and are generally good elsewhere. Harvesting of autumn crops is progressing generally. Cotton picking has commenced in Thar and Parkar, Khandesh and Baroda. Lands are

being prepared for cultivation of spring crops in parts of Sind, Gujarat, West Khandesh, Nasik, Poona, Baroda and Rewa Kantha. Sowing of spring crops continues in parts of Gujarat, the Deccan, the Karnatak and Baroda. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Satara and Sholapur and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Kaira and Khandesh, have fallen in the Upper Sind Frontier, Broach and Ratnagiri and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 12 to 40 per cent; in the Konkan 13 to 22 per cent and in the Karnatak 3 to 21 per cent less than the normal. In Gujarat prices ranged from 12 per cent more than the normal to 23 per cent less and in the Deccan from 17 per cent more to 23 per cent less.

**Hyderabad.**—The average rainfall in the Dominions was 42 cents. No rain fell in Mahratwara except the Gulbarga and Raichur districts. The fall in Telingana averaged between 5 cents in Adilabad and 1 inch 80 cents in Nalgonda. The heaviest fall occurred in the Nalgonda district. General prospects are fair. Autumn crops are fair to good but they have suffered from excessive rain in parts of the Aurangabad, Parbhani and Nander districts and in some isolated places. Autumn cotton has suffered especially and in some places the area under the crop is being prepared for spring crops. The condition of spring crops is favourable and that of the early rice crop fair to good. Cattle disease prevails in fifteen talukas. Prices:—wheat 6½; coarse rice 6½ and *juar* 15 seers per rupee, showing a fall of ½ seer in the price of *juar*. White *juar* is selling in Hyderabad City at 12 seers and yellow *juar* at 13½ seers per rupee. The highest price in districts is 8 seers in Karimnagar and the lowest 24 seers in Parbhani, Nander, Usmanabad and Bidar.

**Mysore.**—The rainfall during the week was good throughout the State. Prices of food grains are steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

**Coorg.**—Rainfall 3 inches 64 cents. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

**Madras.**—The rainfall during the week was very heavy in the Nilgiris; heavy in Salem, Coimbatore and Madura; good in the Circars, Anantapur, Nellore, Chingleput, South Arcot, North Arcot, Trichinopoly, Ramnad, Malabar and South Canara and light to fair elsewhere. The rainfall in fourteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Kistna, Guntur, Kurnool, Bellary, Anantapur, Cuddapah, Nellore, Trichinopoly, Tanjore, Malabar, South Canara and the Nilgiris and insufficient in Chingleput and in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary have been damaged by grasshoppers, some in parts of Kurnool and Anantapur have been damaged by excessive rain and some in parts of Chingleput, Coimbatore, Madura, Ramnad and Tinnevely are in urgent need of rain. Harvests continue in parts with outturn generally fair to normal. Pasture is insufficient in parts of Coimbatore and Tinnevely. Fodder is scanty in parts of Ganjam, Godavari, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in nine districts, has fallen in eleven and has risen in four. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eight districts, has fallen in nine and has risen in five. *Cholam* is stationary in eight districts, has fallen in five and has risen in two. *Cumbu* is stationary in five districts, has fallen in nine and has risen in two. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

## PUBLIC WORKS DEPARTMENT.

## CIVIL WORKS.

## Irrigation.

*Simla, the 13th October 1910.***Review of Irrigation in India in 1908-09.**

Irrigation works in India are divided into two main classes, *viz.*, major and minor works. Major works are sub-divided into:—

- (a) Productive works, the capital of which is provided from borrowed money.
- (b) Protective works, designed as a protection against famine, the capital of which is provided from the Famine Insurance Grant. Capital and revenue accounts are kept for all major works.

Minor works are constructed from funds provided out of the general revenues of India and are sub-divided into:—

- (a) Works for which capital and revenue accounts are kept.
- (b) Works for which only revenue accounts are kept.
- (c) Works for which neither capital nor revenue accounts are kept.

## A—MAJOR WORKS.

I.—*Productive Works.*

2. Productive works are expected to yield sufficient revenue to pay their working expenses and the interest on the outlay expended on their construction. No project is now sanctioned as a productive work unless it can be shown beyond reasonable doubt that on full development it will fulfil these conditions. But the same standard did not obtain in former years, and thus it has happened that several large irrigation works which were financed from borrowed capital, are not remunerative. There are 13 such works, *viz.*, four in Bengal, seven in the Deccan and Gujarat, and two in Madras. They are still retained on the list of productive works, but current expenditure against their capital account is now charged against the general revenues of India. The total loss on these 13 works has amounted to about  $10\frac{1}{2}$  crores. But though they have proved financial failures in the ordinary commercial sense, they have been indirectly of great value in securing large areas of cultivation against the vicissitudes of the seasons.

3. The remaining works in operation, 40 in number, satisfy productive conditions. These works paid collectively 10.42 per cent on their capital outlay during the year, while the surplus revenue, after paying interest charges, which they had contributed to the general revenues of the country up to the end of 1908-09, amounted to  $33\frac{1}{4}$  crores of rupees against  $30\frac{1}{2}$  crores, the capital invested on them. The financial results, the area irrigated and the mileage in operation for all productive works in operation are shown separately by provinces in Statements I and II.

4. The total area irrigated by all the productive works including branches in Native States of the Punjab amounted to 14,624,000 acres. Towards this total the Punjab canals contributed more than  $5\frac{1}{2}$  million acres, a larger area than attained in any other province. The return on capital is also highest in the Punjab where the canals yielded 12.58 per cent. The Lower Chenab Canal, despite the abnormally heavy monsoon rainfall and a severe

epidemic of fever which caused heavy mortality amongst the cultivators irrigated about two million acres and yielded a net revenue of about 6½ lakhs, equivalent to a return of 22·56 per cent on the capital invested. The year generally was a prosperous one for the colony. On the Upper Bari Doab Canal, although the rainfall was twice as heavy as that of the preceding year, the acreage sown with the aid of canal water was larger than that of 1907-08.

5. On account of the unusually heavy monsoon in the United Provinces the irrigated area, 2,511,000 acres, fell short of the results of 1907-08 by 676,000 acres. The net revenue shewed a defect of about Rs. 2,67,000 compared with the preceding year. The smaller area irrigated was partly responsible for this result, but other contributing causes are said to be (1) reduction in the rate for sugarcane from Rs. 10 to Rs. 6-10-8 per acre from 1st April 1908, in the Saharanpur, Muzaffarnagar and Meerut Districts, and (2) remissions and reductions made in the rabi demand for 1907-08, collected in the year under review owing to the low river supplies being insufficient to meet the full requirements of the crops at the critical period of ripening.

6. In Madras the figures relating to the acreage under irrigation and the net revenue realised do not differ materially from those of the previous year. In this Presidency the financial results of the productive works taken as a whole are seriously affected by the poor results of the Kurnool-Cuddapah canal, the capital cost of which exceeds 2½ crores of rupees while the area irrigated during the year did not exceed 65,000 acres. The net revenue realised amounted to 1½ lakhs of rupees, representing 0·66 per cent on the capital outlay.

7. In Sind the area of irrigation amounted to 1,351,974 acres, exceeding that of the previous year by 240,745 acres. It is satisfactory to note that the net revenue also surpassed that of the previous year by Rs. 2,03,695. The Sind canals are entirely dependent upon the height and duration of the floods in the Indus during the irrigating season. The inundation of the year was very favourable, the necessary level of the river being reached on a timely date and maintained for a period sufficient to bring crops to maturity. The year was distinguished by one of the greatest floods on record. The Ghotki floods over the left bank above Rohri were of great volume and long duration and silted the Nara supply channel so severely that the greater part of the rabi supply was cut off. The rainfall was very irregular over the whole of Sind. In many places it was considerable and of much benefit to the crops, while in others it was excessive and caused some damage.

8. In the Bombay Deccan and Gujarât, the canal works are limited in scope in comparison with those of other provinces. The area irrigated in the period covered by this review amounted to 37,314 acres only. As stated in paragraph 2 above, the works are not remunerative.

9. In Bengal, the Hijili Tidal canal is used purely for navigation purposes; the three other canals, *viz*, the Orissa, the Midnapore and the Sone, are also so utilised, but they are primarily intended for irrigation. The area served by these canals during the year 1908-09 exceeded a million acres, and although these works failed to fulfil productive conditions, there is no doubt about their indirect value, considering that the estimated value of the crops raised on the area irrigated by them in the year under review amounted to Rs. 5,37,00,000, a sum which is more than four-fifths of their total capital cost.

10. Both in Burma and in the North-West Frontier Province the irrigated area exceeded 200,000 acres.

11. The importance of productive works may be gauged roughly by the value of the crops which are produced by their agency. In the year under review the estimated value of the crops irrigated by productive works amounted to about 53½ crores of rupees, exceeding the capital cost incurred on them by more than 11½ crores. With the completion of the important works now under construction, *viz*, the Upper Jhelum, Upper Chenab and Lower

Bari Doab canals in the Punjab, the Upper Swat River canal in the North-West Frontier Province, the Nagavalli River project in Madras and the Môn and Ye-u canals in Burma considerable additional areas will be brought under cultivation.

## *II.—Protective Works.*

12. There were in operation in the year under review 17 protective works which together irrigated a total of 352,103 acres. The majority are small tank works situated in the Central Provinces, where irrigation is still in its infancy. The works in the Central Provinces were sanctioned as experimental works, in accordance with the recommendations of the Irrigation Commission, to test how far the people were willing to resort to irrigation for the maturing of their crops and what water rates they were prepared to pay. The results obtained are generally gratifying and show that the people are beginning to realise the great advantages of irrigation. In the year 1907-08 the rainfall was somewhat deficient, while in the year under review it was if anything over the average; yet the area irrigated in the latter was 25,413 acres against 25,973 acres in the former. The average water rate paid during the year on these works was Rs. 1.14 per acre. Particulars of all protective works are given in Statements IV, V, and VI.

## **B—MINOR WORKS.**

### *III.—Works for which capital and revenue accounts are kept.*

13. There were ninety-four works so classed in 1908-09, the majority of which are in Bombay and Madras. Seven are purely navigation works.

The net revenue paid by works of this category during the year under review amounted to Rs. 29,37,724 (excluding navigation canals) or a return of 7.95 per cent on the capital outlay, against 6.50 per cent in the previous year. Nearly all the minor works in Sind return exceptionally high percentages; but as some large projects, with which it is intended to amalgamate them, are under consideration, their transfer to major works has been postponed for the present.

Excluding the area shown under Burma, *viz.*, 456,266 acres, which is not under irrigation, but represents the area of cultivation on lands reclaimed by river flood embankments, the area irrigated by minor irrigation works during 1908-09 was 1,511,098 acres against 1,346,545 acres in the previous year.

Statements VII and VIII give particulars of individual works.

### *IV.—Works for which only revenue accounts are kept.*

14. There are numerous minor works for which separate capital accounts are not kept, either because they are not sufficiently important, or because, having been constructed by the former rulers of the country, their capital cost is not known. For such works only revenue accounts are kept; they are credited with a share of the land revenue depending on their maintenance, and are debited with all expenditure incurred on construction, extension, improvements and maintenance. Particulars for the year 1908-09 are shown in Statement X.

### *V.—Works for which neither capital nor revenue accounts are kept.*

15. There is a third important class of minor works, chiefly existing in the Madras Presidency, for which neither capital nor revenue accounts are kept. The Madras works include over 28,000 tanks and 6,000 irrigation channels, the improvements and repairs of which are executed by the Public Works Department, or, in the case of the smaller works, by civil officers. The areas irrigated by these small works in 1908-09 aggregated 3,327,833 acres, (or slightly less than the area irrigated by all the major works in the Presidency taken together), compared with 3,295,815 acres in 1907-08.

16. The following table summarizes the results of irrigation works for all India during 1908-09 in comparison with those of the two previous years :—

# ADMINISTRATION REPORT

## OF THE

# INDIAN TELEGRAPH DEPARTMENT

FOR

1909-10.

### GENERAL REPORT.

Statistical information relating to the growth of the Department from its commencement up to date is given in a convenient form in Appendix E.

2. The capital account at the close of the year amounted to Rs. 10,89,70,113, the expenditure on that head in 1909-10 being Rs. 25,19,323 which includes Rs. 2,57,778, the outlay in the Public Works Department on telegraph buildings. General Capital account, App. B.

3. The revenue earned having been Rs. 1,21,19,219 and the working expenses Rs. 1,21,12,784, the surplus amounts to Rs. 6,435 representing a return on capital outlay of '006 per cent. Revenue account App. B.

4. As compared with the previous year, the working expenses have increased by Rs. 3,67,454 as follows:—

					Increase.	Decrease.
					Rs.	Rs.
General Charges	...	...	...	...	1,22,703	...
Line Maintenance	...	...	...	...	...	28,329
Signalling	...	...	...	...	2,73,080	...
Total					3,95,783	28,329
Net Increase					3,67,454	...

The increase under general charges is due, to a certain extent, to the introduction of the new Time Scale of pay for Superintendents and Assistant Superintendents brought into effect from the 19th of December 1909; but mainly to a smaller share of establishment charges having been debited to capital works consequent on less outlay during the year under that head. The decrease under line maintenance is due to repairs to lines in the previous year having been specially heavy. The increase under signalling is due partly to a slight increase in the clerical and petty establishments of signal offices as well as to annual increases of pay to the staff arising from the reorganisation.

5. The receipts from all sources amounted to Rs. 1,21,19,219 as compared with Rs. 1,33,53,051 in the previous year, the decrease being made up as follows:—

	Increase.	Decrease.
	Rs.	Rs.
Message Revenue ... ..	...	11,61,573
Rent of wires and instruments leased to Railways and Canals.	...	70,778
Rent of Local and Private lines and recoveries from guarantors.	...	4,166
Miscellaneous ... ..	2,685	...
Total ...	2,685	12,36,517
Net Decrease ...	...	12,33,832

The decrease in the value of telegrams is associated with a decrease in their number, the value having decreased by 11.65 per cent and the number by 7.11 per cent. The decrease in value is made up of Rs. 11,12,246 under paid telegrams and Rs. 49,327 under *pro forma* value of news free and concessional telegrams. The decrease in paid telegrams which is entirely under Inland is made up as follows:—

	Increase.	Decrease.
	Rs.	Rs.
Inland State ... ..	...	8,29,238
Inland Private ... ..	...	4,58,120
Foreign State ... ..	3,108	...
Foreign Private ... ..	1,72,004	...
Total ...	1,75,112	12,87,358
Net Decrease ...	..	11,12,246

The decrease under Private may be attributed to general depression in internal trade. The decrease under State is doubtless due to the instructions issued to Government officials in Government of India, Department of Commerce and Industry, Resolution No. 1861-1894-50, dated the 4th of March 1909, to reduce the number and length of State telegrams and to use the lower class as a general rule. The average value of an Inland State telegram, since the introduction of the revised tariff from 1st January 1909, has fallen from Rs. 1.823 to Rs. .943.

6. Appendix F and the diagram of curves immediately following it show by figures and by curves, respectively, the variations that have occurred during the last 17 years in the number of paid telegrams and in the working expenses per paid telegram under the heads "Line Maintenance" and "Signalling". Details of the Departmental expenditure under those heads for the past five years are given in Appendix B, but, in calculating the expenses per telegram for the purposes of this diagram, all charges not properly debitable to Departmental traffic, such as those for Railway and Private Line offices, have been excluded.

The curve denoting the number of paid telegrams shows a fall for the first time since 1898-99; the reasons for which are explained in paragraphs 5 and 44 to 46.

7. On the 31st of March 1910, there were 9,037 telegraph offices of all kinds in India and Burma, of which 7,225 were open for paid telegrams and 1,812 for purely administrative purposes. Of the former 279 were departmental, 2,483 combined, 4,451 railway and 12 canal offices as compared with 6,973 in the previous year made up of 280 departmental, 2,378 combined, 4,304 railway and 11 canal offices. This Department technically supervised 3,999 railway and canal offices of which 2,444 were open to the public for paid message traffic. There were also 2,276 telegraph offices controlled and supervised by railway companies, of which 2,019 were open to the public.

8. The system maintained by the Telegraph Department was augmented during the year by a net increase of 2,682 miles of line and 6,071 miles of wire, including cable, and at its close comprised 72,746 miles of line and 287,266 miles of wire and cable. Of the latter 88,488 miles were used by railways 7,008 miles by canals, 13,368 miles were worked in connection with telephone exchanges and private lines and 178,402 miles were for departmental purposes.

9. The subscriptions to the Telegraph Department for telephone and similar services rendered during the calendar year 1909 amounted to Rs. 4,88,875 being an increase of Rs. 81,929 over the figures of the previous year. The average annual subscriptions for the past five years amounted to Rs. 3,44,185.

Telephone  
Departmental.

10. The gross earnings of the Telephone Companies during the calendar year 1909 amounted to Rs. 9,53,435 being an advance of Rs. 1,48,864 over those of the previous year. The largest increase recorded is in that of the Bengal Telephone Company, Calcutta, which amounted to Rs. 78,144. The average annual collective earnings of the Companies during the past five years were Rs. 7,30,777.

#### EVENTS OF INTEREST.

11. In February, the Government of India announced that the Secretary of State had sanctioned the reorganisation of the Upper ranks of the Department, a matter which had been under consideration for some time.

Reorgan  
of the Dep

12. Under the old scheme, the organisation of the Department was as follows. For Telegraphic purposes, the whole of India was divided into twenty divisions, each in charge of a Superintendent. Each division included two or more minor charges known as Sub-divisions, of which there were 73, the more important of them being in charge of Assistant Superintendents, i.e., junior officers of the Superior Staff, and the less important in charge of Sub-Assistant Superintendents who are Upper Subordinates.

13. In addition to the Heads of Divisions, there were eight officers of the same rank who were also immediately subordinate to the Director-General, *viz.*, the four Superintendents in charge of the Calcutta, Bombay, Madras and Agra Offices, the Superintendent of the Check Office, the Electrician, the Superintendent of Telegraph Stores, and the Superintendent of the Telegraph Workshops. The whole Department was controlled by a Director-General assisted at Headquarters by nine officers as follows:—

- 1 Deputy Director-General.
- 2 Directors for Construction and Traffic.
- 2 Deputy Directors for Construction and Traffic.
  - 1 Personal Assistant.
  - 1 Superintendent in the Traffic Branch.
  - 2 Superintendents usually posted to the Direction.

14. This organisation was defective in several respects. There were as many as 28 Subordinate Officers, whose powers were very limited, in direct correspondence with the Director-General; and the latter officer was consequently overwhelmed with a mass of unimportant references. The five Officers of the Department next in seniority to the Director-General were all stationed at Headquarters. This concentration of so many senior officers at Headquarters and the lack of adequate devolution of responsibility hampered the administration of the Department.

15. The most important changes to be introduced included the formation of eight Circles, each in charge of a Director, coterminous with the existing Postal Circles. The number of Divisions to be increased from 20 to 34, and all Sub-Divisions abolished. Many of the powers exercised by the Director-General are delegated to Directors, while the powers of Superintendents are materially increased. The formation of a purely Technical Branch under an Electrical Engineer-in-Chief, was sanctioned. The scheme also provided for the appointment of a Chief Store-keeper, recruited outside the Department, and for placing the Check Office under a Civil Accounts Officer.

16. The cadre of the Department was entirely changed. The Direction formerly consisted of the Director-General, Deputy Director-General, two Directors—these four being the most senior officers in the Department—and two Deputy Directors. Under the new scheme the post of Deputy Director-General is abolished and in addition to the Director-General there are 10 Directors, eight in charge of Circles, and two at headquarters. The appointments held by Directors are interchangeable. Directors are divided into four classes; the first class containing two on pay of Rs. 2,250; the second class, also two, with pay of Rs. 2,000; the third and fourth classes have three in each with pay of Rs. 1,750 and 1,500 respectively. At the same time all the Superintendents were placed on an incremental scale of pay rising from Rs. 380 to Rs. 1,250 in the case of the Imperial Service officers, and from Rs. 250 to Rs. 900 for Provincial Service officers.

17. Hitherto recruitment for the Provincial Branch of the Superior Staff of the Department was through the Thomason Civil Engineering College at Rurki, where a special class for the training of candidates was maintained. It was found that the Telegraph class at Rurki failed to attract candidates from more than one province and that there has been a complete absence of healthy competition.

18. The maintenance of a special Telegraph Class at one College was necessitated by the fact that the other Colleges did not make any provision, in their ordinary curriculum, for training in electrical engineering. This condition of things is, however, rapidly disappearing and in the course of a few years, it is anticipated, that the colleges in India will be able to maintain thoroughly equipped classes in electrical engineering, quite apart from the requirements of the Telegraph Department. In future it is intended to make appointments to the Provincial Service by selection from the graduates in the engineering classes

of any college which gives a suitable and adequate training in electrical engineering.

19. An Officer of the Provincial Service will be eligible for appointment as Director of Telegraphs if fully qualified to perform the duties attaching to the appointment; and of the thirty-four divisions now established, it is intended that twelve shall ultimately be filled by officers of that service.

20. A new scale of pay was also sanctioned for the Sub-Assistant Superintendents, General Branch, rising from Rs. 250 to Rs. 400, the eight senior officers being allowed to rise to Rs. 500. The Assistant Superintendents and Superintendents were brought on to the new scale from the 19th of December 1909. The Directors under the new scheme and the Sub-Assistant Superintendents (who were to be styled Deputy Superintendents in future) were not to be brought on to the new scale of pay till the 1st April 1910, the date on which the Circles were to be introduced. It was decided that one appointment in the Gazetted ranks of the Provincial Service should be given every two years to a specially selected Upper Subordinate, after the existing surplus of officers has been absorbed.

21. The number of Volunteers on the rolls in the Department during the year was 1,001 (33 per cent of the signalling establishment) being an increase of 13 compared with the previous year. Of this number 624 were extra-efficient, 318 efficient and 59 non-efficient. By way of encouragement, prizes aggregating Rs. 1,070 were granted for proficiency in drill and shooting.

Rifle Volunteer.

22. At the annual camp of exercise of the Bombay Volunteer Rifles held at Santa Cruz from the 29th of January to the 5th of February 1910, the "D" (Telegraph) Company distinguished itself by the exceptionally large attendance on parades, which was 84.8 per cent of the total strength, and the general discipline and good work put in by the members. At the annual inspection of the Corps, "D" Company was selected for Company evolution before the General Officer Commanding the Bombay Brigade, and acquitted itself very creditably. The Commandant highly commended the Company in his address to the Battalion at the conclusion of the inspection parade.

23. The following trophies were won by this Company during this year:—

- (a) His Royal Highness The Prince of Wales Ambulance Shield; open to teams of six Volunteers (other than Railway men) from any Corps in India or Burma. The examination was held this year at Jubbulpore, subject "First Aid" to the injured; St. John's Ambulance Association.
- (b) The Leslie Challenge Cup for long distance marching and Tactical Shooting under service conditions.
- (c) The Bayley Challenge Cup for General Efficiency.
- (d) The Tenant Memorial Drill Challenge Cup for the largest percentage of members putting in the maximum number of parades.
- (e) The Nicholson Challenge Cup for long range shooting.
- (f) Wyer Cup for long distance shooting.
- (g) Lord Harris Cup for drill.

24. The last three trophies were won outright by the Company and are now in its possession.

25. At the annual competition for (a) held at Jubbulpore on the 2nd of March 1910, the Bombay Volunteer Rifle Corps was represented by six men from the Telegraph Company, who won the shield and medals, the team scoring 80 per cent of marks. This is the third year in succession in which the staff of the Bombay Telegraph office have won this trophy.

26. The number of Volunteers on the roll of "F" (Telegraph) Company, 2nd (Presidency) Calcutta Volunteer Rifles, was 2 officers and 108 non-commissioned officers and men, of which 27 were marksmen, 76 first class shots, 4 second class shots and one non-efficient.

27. Colonel P.M. Ball, V.D., Commanding the Agra Volunteer Rifles, wrote as follows regarding the Telegraph Company belonging to the Agra office:—

“It is a pleasure to me to be able to record my appreciation of the progress made by the Telegraph “B” Company during the current year; there has been a great improvement in the firing, the attendance at all parades has been good, the discipline of the Company is excellent, and the members have taken much more interest and shown greater keenness in their work, and I think it is not too much to say that “B” Company, as it is now, will compare favourably with any other company of Volunteers in India.”

**Bastar Rising.**

28. The Telegraph operations in connection with a disturbance which broke out in the Bastar State in February 1910 were not large. Three Telegraphists accompanied the punitive Police Force sent to quell the disturbance and in all twenty eight camp offices were opened and closed. No special wires were erected except a short line of about two miles in length put up in Jagdalpur itself. As only repairing outfit was taken with the Telegraph party there were no posts or wire available for these two miles of line, but Telegraphist Martyris proved his resourcefulness by borrowing two miles of barbed wire from a Missionary and erected this on wooden posts; this line was in use for over ten days and worked well.

**International Telegraph Conference.**

29. The International Service Regulations, which were passed at the quinquennial International Telegraph Conference of the various Telegraph Administrations and Cable Companies, held at Lisbon, referred to in paragraph 12 of last year's report, were brought into effect from the 1st of July 1909. The following is a summary of the more important alterations in the rules for Foreign Telegrams which were introduced from that date:—

- (i) The rules regarding Code language were modified to the extent, that the syllables shall be capable of pronunciation according to the ordinary usage of one of the eight accepted languages.
- (ii) The Administrations of Great Britain, France and Germany were appointed as a Committee of Control, in order to examine all codes that may be presented to them to determine if they are unobjectionable.
- (iii) Combinations or alterations of words sought to be concealed by reversing the order of letters, or syllables, were prohibited.
- (iv) Artificial words may not contain the accented letters ä, á, a°, é, ñ, ö and ü.
- (v) The combinations, æ, aa, ao, œ, ue and ch are to count as two letters each in artificial words.
- (vi) Telegrams addressed to a reforwarding agency, which is known to be organised for the purpose of evading payment of the full rate chargeable for the transmission of telegrams, by acting as intermediaries for the receipt of telegrams and for their re-transmission to a destination beyond, may be stopped.
- (vii) The stipulations relating to telegrams “*To follow*” by order of the sender, and telegrams to be re-transmitted by order of the addressee, which were not binding on such of the Extra-European Administrations as declared their inability to apply them, were made applicable to both *régimes*.
- (viii) Signs of punctuation, apostrophes and hyphens may be transmitted, and consequently charged for, on the formal request of the sender.
- (ix) The period for the preservation of telegrams was extended from eight to ten months.
- (x) In groups of letters and figures used as commercial marks, each letter and figure is counted as one character; five characters,

whether wholly or partly letters and figures, counting as one word. For example, the commercial marks 197A-199A and 3-M which were formerly counted as four and two words, respectively, are now counted as two words (9 characters) and one word (3 characters) respectively.

The alterations enumerated in paragraphs (i), (iii), (iv), (v), (viii) and (x) were made applicable to Inland telegrams also.

30. The Deposit System of Accounts referred to in paragraph 45 of last year's report has not found much favour with the public, except in Calcutta and Bombay, although the rate of commission for the upkeep of Deposit Accounts was reduced at the beginning of the year, from 1 per cent on the gross value of the messages accepted to 1 rupee for every 25 telegrams. At the close of the year the following Deposit Accounts were current:—

31. The Debit Note System, under which a large number of Government officials were permitted to send State telegrams without prepayment, was abolished with effect from the 1st of January 1910. This system necessitated a great deal of additional work in all Telegraph Offices from which these messages were sent, as they had to be separately bundled and docketed and sent separately to the Check Office. An elaborate Accounts procedure had also to be maintained. The Check Office had to prepare some 140 separate bills which entailed the employment of a large staff of clerks. The Deputy Accountant General, Telegraphs, on receipt of these bills from the Check Office was required to book up each bill against the Department concerned. A few selected high Government Officials are now permitted to send State telegrams without prepayment if tendered on special forms marked "O.H.M.S.", while all others are required to pay for their telegrams either in cash or service stamps. The abolition of the old system has thus led to a considerable saving in clerks and lessening of work in Signal Offices.

32. A mixed Postal and Telegraph service was introduced between India and the United Kingdom with effect from the 1st of July. Communications intended for places in the United Kingdom are telegraphed to the Bombay Central Telegraph Office for despatch by registered post to the London Central Telegraph Office, to be telegraphed thence to destination on payment of the following charges:—

- (1) the charge for the telegram in India at Inland Express or Ordinary rates, according to the wishes of the sender.
- (2) one anna for postage, and
- (3) the British Inland telegram rate of  $\frac{1}{2}$  L., or half an anna, per word with a minimum of six pence or six annas.

33. In the reverse direction, telegrams handed in at telegraph offices in the United Kingdom are telegraphed to London for despatch by registered post to Bombay to be telegraphed thence to their destinations in India. The charges are the same as the above, except that the Inland *Ordinary* rate is only levied for the telegraphic transmission in India.

34. From the date of inauguration of this system and up to the end of the year under report, 359 mixed Postal and Telegraph messages were sent from India to the United Kingdom but only 22 were sent in the reverse direction.

**News Agencies.** 35. The Inland and Foreign Press telegram rules and rates, which were formerly confined to Press telegrams addressed to registered Newspapers, were extended to News Agencies in July and February, respectively.

**Fees for Registration of Abbreviated Addresses.** 36. At the end of October, the fees for the registration of abbreviated addresses were altered in order to reduce the fees for those who register more than ten abbreviated addresses. The revised fees are as follows:—

			Rs.
For first 10 abbreviated addresses ...	...	...	10 each.
For second 10 abbreviated addresses	...	...	5 "
For each subsequent abbreviated address	...	...	3 "

An additional fee, equal to half the registration fee, is charged for every change of the word selected, or for every transfer to another telegraph office within the period of registration.

**Redirection of Telegrams.** 37. From the 1st of June, the practice of redirecting telegrams free of charge was discontinued, except in the case of redirection within the same town. Inland telegrams redirected to another town are charged the full Inland rate according to the class of the telegram; while Foreign telegrams redirected within Indian limits are charged the Inland Express rate.

**Reduction of Foreign Press Rates.** 38. As a result of the Imperial Press Congress held at London, the Cable Companies and the British, Indian and Colonial Governments agreed to reduce the Press rates between Great Britain and India, Australasia and South Africa to a uniform rate of 9d, or 9 annas a word. The reduction in the Press rate between Great Britain and India from 12 annas to 9 annas per word took effect from the 1st of August.

39. From the 1st of March, the Press rates between Great Britain on the one side, and Penang, Singapore and Labuan on the other, were reduced to a uniform rate of 9 pence per word, the Indian Government taking its proportionate share in the reduction.

**Foreign Telegrams—Money Orders.** 40. Towards the close of the year arrangements were completed, between the Indian Post Office, the Eastern Telegraph Company, and this Department for the introduction of a system of telegraphic money orders between India and Aden, with the telegram charge at the same rate as for Private telegrams, *viz.*, one rupee per word. The system was introduced with effect from the 1st of April 1910.

**Efficient Reforms.** 41. Mr. Newlands, C.I.E., left India in August having completed his work in this country and having seen the reforms he initiated in full working swing. The rapid disposal of messages has been maintained and the averages of 88 offices that keep up Tablet Checks, show that 81.9 per cent of the sent and transit traffic was disposed of within ten minutes, 91.8 within 20 minutes and 94.8 within 40 minutes. As regards delivery 77 per cent are sent out within five minutes of their being received.

There have been many complaints of mutilation during the year and the matter is receiving the closest attention, but the public are probably unaware to what extent they are themselves responsible for this, owing to the very general use of uncouth and bizarre artificial words in code messages. It is extremely difficult for a telegraphist to deal with such words with accuracy at the same speed with which he disposes of ordinary words and mutilations are chiefly due to his endeavouring to maintain his speed.

## TRAFFIC.

**Amount and Value of Traffic.** 42. The number and value of telegrams of each class are given in Appendix E.

43. The total paid traffic (excluding news-free and concessional telegrams) when compared with the previous year, shows a decrease of 922,081 or 7.08 per cent in number and Rs. 11,12,246 or 11.41 per cent in value. The decrease in number and value is explained in paragraphs 44 to 46.

44. Inland Private traffic (excluding Press) for the whole year shows a decrease in number of 898,200 or 8.37 per cent and of Rs. 1,64,835 or 7.88 per cent in value. The decrease in number may be attributed to depression in internal trade. The decrease in the number masks the effect of the new 6 anna tariff and it is impossible to determine what proportion of the decrease is due to it. The decrease has occurred almost entirely in the Departmental offices, for Combined Offices booked 29,545 messages more than last year with a slight decrease in value of Rs. 13,379. In the Calcutta Office alone there was a decrease of 64,753 in the number of messages booked, and of 115,430 in the number of messages received, clearly showing how much less business was done. It is worthy of notice that this decrease in Inland messages was also felt by the Railways whose receipts, in the calendar year ending the 31st December 1909, fell off by Rs. 1,05,000. Inland Private.

45. The new Inland tariff was introduced on the 1st of January 1909. For the first period of the previous year (April to December 1908), when the old tariff was in force, the average value of an Inland private message was Rs. 547. For the second period (January to March 1909, when the new tariff was in force, it was Rs. 555. For the whole year 1908-09 it was Rs. 549 and for the year under report it was Rs. 552. These figures show that the new tariff has improved the average value of an Inland Private telegram.

46. In Inland State telegrams there has been a decrease of 141,773 or 14.52 per cent in number and of Rs. 8,29,238 or 51.00 per cent in value. The decrease in number and value may be attributed to the instructions issued to Government officials to reduce the number and length of their telegrams and also to use the lower class as a general rule. The decrease in value is also due to the revised Inland Tariff which was introduced on 1st January 1909, vide paragraph 48 of last year's report. The average value of an Inland State telegram has, since the introduction of the revised tariff, fallen from Rs. 1,823 to Rs. 943. Inland State.

47. Foreign Private telegrams (including Press and Foreign transit traffic) show an increase of 118,720 or 10.29 per cent in number and of Rs. 1,72,004 or 8.65 per cent in value. This increase was composed approximately of Rs. 1,01,004 on Indian messages and Rs. 71,000 on messages transiting India. There was an increase in the number of words contained in telegrams also by 1,327,243 or 12.31 per cent. Foreign Private.

48. Foreign State telegrams show a decrease of 646 or 4.68 per cent in number, but an increase of Rs. 3,108 or 6.03 per cent in value. The Revenue from Foreign State telegrams transiting India is included under Foreign Private. Foreign State.

49. There were 161,417 Inland Press telegrams containing 27,556,637 words transmitted during the year, as against 102,483 telegrams containing 49,179,213 words during the previous year, or a decrease of 1,066 or 0.65 per cent in the number of telegrams and of 21,022,576 or 43.96 per cent in the number of words. The receipts for such telegrams decreased from Rs. 1,77,677 in the previous year to Rs. 1,68,063 or 5.24 per cent. The decrease in Press traffic is due principally to News Agencies being allowed the concession of Press telegram rates as stated in paragraph 35. These Agencies, which are at present confined to Calcutta, Bombay and Madras, collect news from outstations and distribute it to local newspapers, instead of as formerly each newspaper arranging for its own news to be telegraphed from outstations. Inland Press.

50. The Foreign Press traffic amounted to 11,897 telegrams, containing 1,289,135 words, as compared with 8,315 telegrams and 737,564 words during the previous year, or an increase of 13.07 per cent in the number of telegrams and of 74.83 per cent in the number of words. The Indian share of their value was Rs. 39,173 as against Rs. 46,625 the previous year, or a decrease of 15.98 per cent. The increase in the number of telegrams and words and the decrease Foreign Press

in the value is due principally to the reduction in the rates for Press telegrams between the United Kingdom and India referred to in paragraph 58. The general elections at home also were the cause of a considerable increase. The figures under Foreign Press represent the number of Press telegrams to and from India, and the Indian share of their value, transit Press traffic to and from countries to the East and West of India being excluded.

News free and concessional telegrams.

54. The table below shows the number and value of Telegraphic Money Order Advices dealt with during the last five years:—

Telegraphic money order advices.

1909-10	337,334	1,91,445	1,614	14,027	15,641	15,641	

55. The Telegraph Department continued to receive the usual fixed fee of one rupee for each Telegraphic Money Order Advice exchanged between India and Ceylon.

56. The number and value of Indian Money Order Advices during the year are shewn below:—

	No.	Value. Rs.
Classed as Express	68,137	72,309
Classed as Ordinary	269,197	1,19,136
Total	337,334	1,91,445

57. From the 1st of October, the fixed fees per Telegraph Money Order Advice of one rupee and eight annas for Express and Ordinary telegrams, respectively, were abolished. The usual rates for Inland telegrams are now levied

and the remitter is permitted to add a private communication at the end of the advice on paying for the additional words at the usual rates.

Signalling operations.

58. The following statement shows the total number of sent telegrams, the total number of signalling operations entailed in their despatch from the office of origin to destination, with the necessary repetition at intermediate offices, and, lastly, the average number of signalling operations per sent telegram, for the past five years :—

Year.	Total number of sent telegrams paid for service and free *	Total number of signalling operations.	Average number of signalling operations per sent telegram.
1905-06 ... ..	11,578,870	56,048,978	4.84

1908-09 ... ..	14,327,356	66,280,389	4.62
1909-10 ... ..	12,281,569	61,302,432	4.99

\* Service telegrams are excluded from 1909-10.

59. The increase in the average number of signalling operations per sent telegram is due to the decrease in the number exchanged between Departmental offices. As shown in paragraph 66 the number of messages sent from Combined offices was practically the same as the previous year. These Combined office messages undergo more operations than others and this effect is now shown.

Communication with foreign countries.

60. Communication with Europe *via* Suez was maintained uninterruptedly throughout the year. The Teleran route was interrupted for 381 hours as against 822 hours in the previous year. The Turkish route was interrupted for 3,306 hours as compared with 3,363 hours in the previous year. Details of the traffic which passed over these routes during the year are given in Appendices C and D.

61. Communication between India and Siam over the Moumein Bangkok line *via* Kamburi was interrupted for 740 hours against 765 hours in the previous year beyond the Indian frontier. There were no interruptions within the Indian frontier as against four interruptions lasting 114 hours in the previous year. The line *via* Raheng was interrupted for 735 hours beyond and 26 hours within the Indian frontier, as compared with 551 and 114 hours respectively during 1908-09.

62. The land route to China *via* Bhamo was interrupted beyond the Indian frontier for 1,223 hours against 1,538 hours in the previous year. There were no interruptions within the Indian frontier.

Meteorological observation offices.

63. On the 31st of March 1910, there were 47 Government telegraph offices which were also Meteorological observation offices.

Signalling establishment.

64. At the close of the year the Signalling establishment stood as follows :—

	Rs.
Deputy Superintendents ... ..	56
Departmental Telegraph Masters and Telegraphists ...	2,912
Unattached List { Warrant officers ... ..	7
{ Non-commissioned officers ... ..	13
Military Telegraphists ... ..	600

Total ... ..	7,518
Total for 1908-09 ... ..	6,934*

\* Revised figures.

65. Certificates of proficiency in telegraphy were granted to 267 soldiers; and at the close of the year 296 were under training. The corresponding numbers for the previous year were 329 and 306 respectively. Training of soldiers in telegraphy.

66. The following statement shows the number of combined offices open at the end of each of the last five years, and the number and value of telegrams sent from them as well as the total number of signalling operations during these years :— Post Office Agency.

67. Certificates of proficiency in telegraphy were granted to 691 postal employes, and at the close of the year 375 were under training. The numbers for the previous year were 577 and 439, respectively. Training of postal employes in telegraphy.

#### EXTENSION AND MAINTENANCE OF LINES.

68. The mileage of line, wire and cable maintained by this Department at the close of each quinquennial period from 1850-51 to 1899-1900 and at the end of each year since, is shown in Appendix E. Appendix A shows the purposes for which the line, wire and cable, were used at the close of the years 1908-09 and 1909-10. Extent of system, Appendices A and E.

69. The net increase in the extent of the system during the year was 2,682 miles of line and 6,671 miles of wire, including cable (*vide* paragraph 8). Additions during year.

70. The following were the principal Departmental works carried out during the year :— Principal work carried out.

			Miles of line.	Miles of wire.

71. The extensive special repairs in connection with the improvement of the lines carrying the Calcutta-Rangoon wires sanctioned by the Government of India were continued during the year and will be completed in 1910-11, very little work remaining to be done after 31st March 1910.

**Reconstruction** 72. The total reconstructions during the year amounted to 811 miles of line and 4,715 miles of wire.

**Cables.** 73. Four submarine type cables across rivers, aggregating 1'29 miles in length, were laid during the year by the Department, either for new circuits or as renewals.

74. Under-ground cables, aggregating 18 miles in length, for telegraph and telephone purposes, were laid during the year, in Calcutta, Madras and Simla. All of them were laid by Messrs. Callender's Cable and Construction Company, Ltd.

75. Aerial telephone cables, aggregating 14 miles in length, were erected during the year in the Lower Burma, Punjab and United Provinces of Agra and Oudh Divisions, by the Department.

**Interruptions to Communication.** 76. Interruptions to communication which occurred during the year are classified below according to the causes to which they were attributed :—

**Compared with the previous year.** 77. As compared with the previous year, the interruptions which occurred in 1909-10 show an increase of 309 or 8'59 per cent in number and 1,233 hours or 2'4 per cent in aggregate duration. The average duration of a fault fell from 14'25 to 13'44 hours.

**Preventable and Unpreventable causes.** 78. Faults from preventable causes show an increase from 317 lasting 4,419 hours to 359 lasting 5,223 hours and those from unpreventable causes, an increase from 2,295 to 2,566 in number and a decrease in duration from 35,373 hours to 36,316 hours.

**Faults in Offices.** 79. Faults in offices show an increase of 33 or 17'41 per cent in number and 413 hours or 13'53 per cent in duration.

**Unknown Causes.** 80. Faults due to unknown causes have decreased by 43 or 5'65 per cent in number and 927 hours or 11'02 per cent in duration.

**Storms.** 81. Extensive damage to telegraph lines was caused by severe cyclones which passed over the Malabar Coast in May, Eastern Bengal on the night of the 17th-18th October and the East Coast on the morning of the 27th of October 1909.

82. In June 1909 half a mile of telegraph line was washed away by floods at the foot of the hills below Cherrapoonji.

## ELECTRICAL.

83. As soon as information was received that the Peninsular and Oriental **Radio telegraphy** mail steamers to Bombay were to be fitted with radio-telegraph apparatus, arrangements were made to erect a radio-telegraph office at Bombay. This was opened in October 1909 and communicates with the mail steamers fitted with radio apparatus for a distance of about 350 miles. A radio-telegraph office was also opened at Jask in December and was subsequently handed over to the Indo-European Telegraph Department.

84. During the cold weather season and at night, when the physical conditions are peculiarly favourable for radio-telegraphy, it was found possible to hold communication over long distances with out stations though they are designed for regular work for distances of only about 300 miles. The stations at Jask and Bombay were frequently able to communicate, the distance being 1,100 miles. Jask was also able to exchange communication with the S. S. "Morea" at a distance of 1,200 miles. Calcutta communicated with a naval vessel 200 miles south of Colombo and received signals from one at Singapore, distance 1,500 miles.

85. A severe magnetic storm was experienced on the 26th of September **Magnetic Storm** 1909 and the natural currents resulting therefrom in the wires seriously interfered with the working of the lines. This storm was also experienced on the continent of Europe and in America and for a time disorganised the telegraph systems. It was remarkable not only for its intensity but for the variations in the direction of the currents experienced on the wires, though, on the whole, lines whose general direction was North and South were less disturbed than those where it was East and West. Work on the Baudôt systems entirely failed but other systems failed at intervals only when the natural current exceeded a certain value. The storm had no effect on radio-telegraphic communication.

86. Two additional Baudôt circuits were installed between Calcutta and **Baudôt Apparatus** Rangoon, one *via* Akyab with a repeater at Akyab, and the other *via* Assam with a repeater at Gauhati and a re-transmitter at Mandalay. An additional Baudôt circuit between Calcutta and Bombay was also brought into use in the busy season. The Baudôt circuits have worked on the whole very successfully and have disposed of a large amount of traffic.

87. The Government Telephone system of Madras has been re-organised and **Telephones.** a modern Central Battery Telephone system installed. It is believed that this will prove satisfactory to the subscribers as the service is very much improved.

## STORES AND WORKSHOPS.

88. The store depôts at Bombay, Calcutta, Karachi, Madras and Rangoon **Store Branch.** imported and exported 825,930 packages in all as compared with 940,273 in the previous year. About 106 tons of stores, effecting a saving of Rs. 1,588 only, were carried by Government steamers from Bombay and Rangoon. No stores were sent by Government steamers from Calcutta during the year. Unserviceable stores in depôts and agencies were sold and Rs. 23,659 realised thereby.

89. The value of the outturn in the workshops during the year was Rs. 9,52,000 **Workshops.** as against 11,27,000 last year. The decrease is chiefly in the value of the output of construction and other stores which amounted to Rs. 1,96,000. There was an increase in the value of instruments completed of Rs. 37,000.

90. The total value of the outturn is made up of stores 69.56 per cent; labour 21.31 per cent; establishment and contingencies 9.13 per cent.

## PERSONAL.

91. Mr. T. D. Berrington relinquished the office of Director-General on the 5th of December 1909 and proceeded on two years' furlough.

---

92. The work in the Direction continued very heavy throughout the year and was increased during the last quarter by the preliminary arrangements that had to be made for the introduction of the Circle Scheme on the 1st of April 1910. I am much indebted to Messrs. C. Streatfeild-James and R. Meredith for the valuable assistance they gave me in this important work.

93. An honorarium of Rs. 750 was granted to Mr. J. D. Bunyan, Sub-Assistant Superintendent, for designing a special switch for use on branch circuits which has proved very valuable.

### GAZETTE OF INDIA.

#### NOTICE.

The 12th October 1910.

From the 12th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 5th November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

No. 1465.—In exercise of the powers conferred by Section 15, Sub-section (2) of the Cantonments Act, 1910 (XV of 1910), and with the previous sanction of the Governor-General in Council, the Honourable the Chief Commissioner of Ajmer-Merwara is pleased to apply to the Cantonment of Nasirabad the following rules, in force in the Municipality of Ajmer, for the assessment and collection of octroi imposed by Notification No. 1464—A dated the 7th October 1910:—

### RULES.

#### Articles liable to octroi duty with exemptions.

1. Subject to the following exemptions, and those shown as exemptions in the Octroi Schedule, the duty will be levied on all goods or animals for slaughter brought within the inner cordon of the Nasirabad Cantonment for use or consumption therein:—

- (a) *Bona fide* passenger's luggage.
- (b) Articles intended for private or personal use which have been previously in use.
- (c) All articles, the duty on which would be severally less than a pice.
- (d) All articles that have already paid octroi duty under these rules.
- (e) Goods or animals the property in which is vested in Government at the time at which they pass the barrier if accompanied by an invoice with the endorsement of the proper officer of Government certifying that they are the property of the Government.

*Explanation.*—Goods or animals, the property in which is not vested in Government at the time at which they pass the barrier, but which, being imported with a view to the fulfilment of a Government Contract, or otherwise intended for the use of Government, will, in the ordinary course of things, become the property of Government after importation, shall, on passing the barrier, be declared as intended for the use of Government, *viz.*, in fulfilment of a certain specified contract. The duty on them shall then be paid and subsequently if they actually do become the property of Government the octroi duty shall be refunded on production of certificate to that effect by the departmental officer concerned.

- (f) Parcels of fresh fruits, sweets, cakes, and the like, or of made up clothes intended for private or personal use.
- (g) All goods imported through the Post Office, except value payable articles the receipts for which are only sent through the Post Office.

NOTE.—The inner cordon consists of imaginary straight lines drawn from each octroi post to the octroi post on either side of it.

#### Assessment and collection.

2. *Octroi posts.*—Octroi posts shall be established at such points within Cantonment limits as the Cantonment Authority may from time to time determine. All goods or animals received by rail shall be dealt with by the Head Octroi Office.

3. No goods or animals liable to octroi shall, except as laid down in Sub-rule 2 of clause (a) and in clause (b) (1) of rule (6) be imported into the Cantonment limits until the octroi duty due thereon has been paid at such Octroi Outposts as exist or may from time to time be established by the Cantonment Authority.

4. (a) All persons bringing dutiable goods or animals into the Cantonment shall, as far as may be within their power, give all such information or produce all such receipts or other documents as may be necessary to enable the octroi officials to collect or assess the duty leviable, and such persons shall afford the octroi officials every facility to weigh, measure or examine the goods or animals, for the purpose of assessing or collecting octroi duty thereon, checking the payment of such duty or carrying out any other provisions of these rules.

(b) Goods brought by Railway will be held to have entered the octroi cordon directly they pass beyond the Railway goods or luggage yard or room, and they then become liable to duty in the same manner as goods brought by Road.

#### Destination of goods, etc., imported into the Cantonment.

5. On the importation of goods or animals liable to octroi duty the octroi moharrir in charge of the post shall call upon the importer to declare whether they are intended:—

- 1) For the consumption, storage, use, or sale within the Cantonment.
- 2) For immediate exportation.
- 3) For temporary detention within Cantonment limits, and eventual exportation.

Forms A, A 1 being used in cases 2 and 3, respectively.

6. (a) (1) In the first case mentioned in Rule (5) (1) the octroi chargeable on goods or animals, shall, if it does not exceed annas eight, be paid at the option of the importer at once to the Moharrir in charge of the Octroi Post, who shall draw up a receipt in triplicate on Badami paper in the annexed Form D. One copy shall be given to the importer, one shall be put into the cash box, and the third shall remain as a counterfoil in the receipt book.

(2) If the duty exceeds eight annas, or if the importer chooses to pay at the head Octroi Office, the Moharrir in charge of the outpost shall draw up a pass in duplicate on white paper in the annexed Form E, and shall retain one in the cash box for transmission to the head Octroi Office, and give one to the importer. The importer shall pay the amount of octroi due at the head Octroi Office the same day. The Moharrir at the head Octroi Office shall draw up in duplicate a receipt in the annexed Form F. One copy shall be given to the importer, and the other shall remain as a counterfoil in the receipt book.

(3) In the case of goods brought direct to the head Octroi Office, the Octroi Darogha shall draw up in duplicate a receipt in Form D on Badami paper, one copy being given to the importer and the other remaining as a counterfoil in the receipt book.

(4) In the case of goods or animals brought by road the Octroi Moharrir shall endorse the Badami Receipt Form D with the word "Received" as soon as the goods or animals enter Cantonment limits. In the case of goods or animals brought by rail the same shall be done by the Moharrir at the Railway Octroi Outpost.

6. (b) (1) In the case of goods for immediate exportation the Moharrir shall draw up in duplicate a pass in Form F on yellow paper filling up all columns except 9 and 10. One copy shall be given to the importer and the other shall remain in the pass book as a counterfoil. The pass given to the exporter shall be delivered up by him at the export barrier, where the Moharrir, after satisfying himself that the goods or animals being exported are those covered by the pass, shall give the exporter a receipt in Form G, see the goods or the animals beyond the octroi boundary, fill up columns 9 and 10 of the pass, and place it in his cash box for eventual despatch to the head Octroi Office. On receipt of the yellow pass at the head Octroi Office, it shall be sent to the Moharrir of the issuing post, who shall paste it on its counterfoil.

The Octroi Inspector shall in the course of his daily inspections see that the books of yellow passes are kept up to date at the Octroi Posts.

If the goods or animals be not exported within 24 hours the importer shall within 48 hours, in the absence of reasonable excuse, the burden of proving of which shall be on him, give notice of the fact to the Octroi Inspector, or to the Moharrir in charge of the Octroi Outpost of Import, and shall pay the duty chargeable on the goods or animals as though he had imported them under clause 6 (a) delivering up at the same time the pass issued, under the preceding paragraph 6 (b) (1); any breach of this rule shall be held to be an evasion of payment of octroi duty.

(3) The Moharrir shall also be bound to report at once in writing to the Octroi Inspector all cases in which the yellow pass issued by him is not received back within 48 hours. On receipt of such report the Octroi Inspector shall enquire into the circumstances and report thereon to the Secretary, Cantonment Committee, for necessary action.

In the case mentioned in Rule 5 the articles may be sent to the bonded warehouse with a pass similar in Form F to that prescribed in Clause 6 (b) (1), but printed on white paper.

7. (a) All goods on which an *ad valorem* octroi is leviable will be taxed according to their full value as given in the original invoice (Bijak) or bill from the station of import.

(b) In the event of there being no invoice or bill, a declaration in Form B must be made out and signed by the importer at the head Octroi Office, specifying the nature, weight in Government maunds and seers, and value of the goods, and the octroi will be levied accordingly. Should the importer or his agent refuse to make a declaration of the value of the goods, the same may be appraised according to the market value of the goods in Nasirabad Cantonment and the octroi levied on it.

When the invoice is subsequently received by the importer, he shall be bound to produce the same at the head Octroi Office for check, and shall pay, or receive back, as the case may be, the difference, if any, on account of octroi that may, after such check, be found to be due by him, or due to him.

(c) In the case of dutiable goods imported by rail, the railway receipt shall be produced in addition to the invoice (Bijak) bill or declaration required under clauses (a) and (b).

#### Inspection of Traders' Account Books.

8. The Secretary of the Cantonment Committee, or a member authorised by the Cantonment Authority, shall be at liberty to inspect and examine the account books of any trader, whenever it may be deemed necessary to do so in the interest of Octroi Taxation.

## Bonded Warehouse.

9. There shall be a bonded warehouse under the charge of the Octroi Darogha for temporary accommodation of goods in transit or in dispute as regards the amount of octroi dues. The warehouse is intended for temporary use only, and the Cantonment Authority reserves to itself the right of refusing to admit any goods except for the purposes stated above, and reserving upon the owners or importers of goods to remove them after a reasonable period, according to the discretion of the Secretary, Cantonment Committee.

## Detention of goods in bonded Warehouse.

10. Importers of goods unable or unwilling to pay the octroi duty at the octroi post or dissatisfied with the amount of octroi thereon demanded shall take such goods to the bonded warehouse to be detained till the octroi is paid, or until the goods are released from the warehouse.

11. On goods arriving at the bonded warehouse, the Octroi Darogha in charge shall at once make an entry of the goods in his register, after comparing them with the pass. The pass shall be filed as a voucher in the Octroi Office. A receipt in Form C shall be given by the Darogha to the owner or importer of the goods in bond.

## Fees for bonded warehouse.

12. In return for the accommodation provided in the bonded warehouse, a fee of 6 pies for every bale or package weighing not more than 3 maunds shall be charged for periods not exceeding 7 days, a further fee of 6 pies per bale or package shall be charged for every subsequent period of 7 days or part thereof during which the goods remain in the bonded warehouse. For bales or packages weighing more than 3 maunds each, the fee will be double the rates prescribed above.

13. A portion of a consignment may be cleared from the bonded warehouse on paying the octroi duty thereon without rendering the remainder of the consignment liable to octroi duty until such remainder leaves the bonded warehouse for sale or consumption within the Cantonment limits.

14. All fees due for goods deposited in the bonded warehouse shall be paid at the time the goods are removed from the bonded warehouse.

## Release of property from the bonded warehouse.

15. (1) When the owner or importer of articles bonded under clauses 9 and 10 to export the same, he shall ask the Darogha in charge of the bonded warehouse for release of his property; the Darogha, having satisfied himself from the register of the propriety of the application, shall direct the release of the articles on payment of the prescribed fees for accommodation, and obtain the signature of the owner or exporter in the register. A receipt in Form C (1) shall be given by the Darogha for all fees received under this rule.

(2) If the articles released from bond under this rule be not expected within 12 hours from the time of release, the owner or exporter shall be bound to give notice to the Octroi Inspector and to pay the octroi chargeable thereon, and a receipt shall be given for octroi paid, as prescribed in Rule 6 (a).

3. Goods shall not be removed from the bonded warehouse except between the hours 8 A.M. and 5 P.M., or between such other hours as the Cantonment Authority may from time to time.

4. A pass similar to that provided for by Rule 6 (b) (1) and under similar conditions shall be granted to the exporter by the Darogha in charge of the bonded warehouse.

16. The Octroi Inspector shall inspect the bonded warehouse daily and satisfy himself that the work is properly done there.

17. A sufficient watch and ward shall be maintained by the Cantonment Authority to ensure the safe custody of the goods in bond. Owners will be at liberty to employ their own chowkidars in addition.

## Non-liability of Cantonment Authority for damage to goods in the bonded warehouse.

18. Persons depositing goods in the bonded warehouse shall have no claim for compensation for any damage or loss that may occur while the goods are passed into or out of the bonded warehouse or while they remain therein, unless such damage or loss shall be proved to have been occasioned by the wilful act or neglect of the official in charge of the bonded warehouse or other official of Cantonment Authority charged with the safe custody of the goods.

## Detention of goods upon evasion of payment of octroi.

19. If the Octroi Inspector considers that any person is evading, or attempting to evade, the payment of octroi on any goods or animals which are being brought into the Cantonment, he may detain such goods or animals, reporting his action without delay to the Secretary, Cantonment Committee.

If the Secretary, Cantonment Committee, determines that octroi is payable on such goods, and the party bringing them into the Cantonment shall not forthwith pay the amount declared by the Secretary to be due, the goods shall be sent to the bonded warehouse, and shall be dealt with in accordance with the provisions of Rules 9 and 18.

#### Conduct and duties of Octroi Establishment.

20. There shall be placed at every Octroi Post a locked box into which the Octroi Moharrir shall drop the money, and the duplicates of receipts and passes issued, together with the passes received by him under Rules 6 (a) (1) and (2), 6 (b) (1) and (2). The key of the box shall remain with the Octroi Inspector.

The Octroi Moharrir shall be bound to supply the octroi payer with exchange, up to the value of one rupee, as may be required by him for the payment of the duties.

#### Verification of octroi receipts.

21. The contents of the cash boxes of Octroi Outposts shall be forwarded to the head Octroi Office, where they shall be counted by the Octroi Inspector every day at a fixed time. The Octroi Inspector shall also compare the entries made in the copies of receipts received with the cash with the entries in the Octroi Post daily registers, and the totals of the latter with the daily abstracts, and he shall satisfy himself that these items agree, and that they correspond with the actual amount of cash received.

The Octroi Inspector shall then enter the totals for the head Octroi Office and for each outpost in the cash account with his own hand in English. He shall also enter the totals in the same manner in the Octroi Outposts daily registers and daily abstracts. He shall then sign the cash account, the daily registers and the daily abstracts.

22. After verification of the receipts the Octroi Inspector shall pay over the whole sum upon the same day to the Cantonment Cashier, who shall acknowledge receipt by signing his name opposite the cash account, and deposit such amount, along with other cash received by him, in the Treasury the same day. Provided that on days when the Treasury is not open for the receipt of money, the money shall remain in the custody of the Octroi Inspector and shall be paid to the Cashier on the first subsequent day on which the Treasury may be open.

23. The copies of the receipts taken out of the cash boxes shall be filed in the head Octroi Office with the counterfoils when received from the Octroi Posts. The copies of the receipts shall be made into bundles corresponding to the counterfoils, with which they shall be filed, and shall be placed in serial order.

#### Checking of Receipts.

24. Monthly lists showing the income from each Octroi Post, and the income under each class of articles shall be prepared in the head Octroi Office, and shall be submitted to the Secretary, Cantonment Committee. An abstract from this list, giving the total income from each Octroi Post, shall be forwarded monthly to the Moharrir in charge for verification. Any discrepancy shall be immediately reported by him to the Secretary, Cantonment Committee.

25. The Octroi Sub-Committee shall supervise generally the octroi administration, and make effective tests both in the realization of octroi income and the refunds of duties. The members of the Octroi Sub-Committee shall in turn, under the direction of the Secretary, inspect the Octroi Posts at uncertain intervals, compare entries in the Daily Registers with the counterfoil receipt books, see that no leaves in this book are left blank while others of higher serial numbers are filled up, and check, when opportunity occurs, the receipts given to importers with the counterfoils. All entries examined shall be initialled by the Member, who shall at once report any irregularity discovered to the Secretary, Cantonment Committee.

#### Duties of Moharrirs.

26. It shall be the duty of the Moharrir in charge of each Octroi Post to transmit to the head Octroi Office at times fixed by the Secretary, Cantonment Committee :—

- (1) The amount of cash collected by him during the day, with vouchers.
- (2) Duplicates of the receipts and passes issued, and the passes received by him during the day.
- (3) A list of the passes granted by him under Rule 6 (b) (1).
- (4) A list of goods or animals passed through on promise of payment under Rule 6 (a) (2).
- (5) The daily register and daily abstract.

It shall also be the duty of the Moharrirs in charge of Octroi Outposts to keep up the following registers :—

- (a) Registers of passes (through challans granted under Rule 6 (b) (1)).

(b) Register of receipts issued on Badami paper.

(c) Register of Refund passes.

(d) Register of white

Octroi Establishment.

28. (a) An Octroi Inspector with a subordinate establishment shall be entrusted with the collection of octroi, under the supervision of the Cantonment Authority to be ordinarily exercised through its Secretary aided by the Octroi Sub-Committee.

(b) The head Octroi Office shall be under the immediate control of the Octroi Inspector, who shall supervise the whole work and keep charge of the cash collected. He shall see that the procedure laid down is properly carried out by the Moharrirs, clerks, and other officials under him, both at the Head Office and the Outposts, and that the prescribed registers are regularly kept up, and the returns duly rendered.

#### Power of appointment of octroi servants.

29. The establishment for the collection of octroi shall be appointed by the Secretary, Cantonment Committee. Servants of the Octroi Establishment shall wear such uniform or distinguishing badge as the Secretary, Cantonment Committee, may from time to time prescribe. Every servant shall be supplied with a copy of these rules, and of the Octroi Schedule, which he shall show on demand to any one desiring to see it.

#### Security deposit by Octroi Establishment and their liability as public servants.

30. Every octroi servant shall be required to furnish adequate security in an amount to be fixed by the Cantonment Authority for the proper performance of his duties. The security shall be liable to forfeiture in case of any criminal or dishonest action.

31. No octroi servant shall demand or accept any duty in excess of the rates specified in the sanctioned schedule, and no money shall be received by any such servant for which a printed counterfoil receipt in the prescribed form is not given to the payer.

32. Complaints connected with the levy of octroi may be addressed to the Secretary of the Cantonment Committee to be laid before the Cantonment Authority for orders.

#### Penalties.

33. Infringement of rules and punishment.

Evasion or infraction of Rules 3, 4, 5, 6, 7, 15, 26, and 31, shall, on conviction before any Magistrate, be punishable with a fine not exceeding Rs. 50, or at the discretion of the Secretary, Cantonment Committee, with the approval of the Cantonment Authority, by the levying of double duty. The Octroi Inspector may apply to the Cantonment Magistrate for a summons against such offenders.

#### General.

34. Registers and counterfoils of receipts and passes shall be kept in the head Octroi Office for three years, and shall then be destroyed.

35. The Cantonment Authority may agree to compound for a period of 12 months or less with any persons or class of persons for the payment of octroi which is or may become due from them. When arrangements are made for compounding for the octroi duty which may become due within the specified time, the sum agreed upon shall be paid in advance. Messes, shops, coffee shops, and institutes are not allowed to compound.

36. The Cantonment Authority shall from time to time prescribe the forms referred to in the aforesaid rules.

37. Copies of the rules for the assessment and collection of octroi and the Octroi Schedule in English, Hindi, and Urdu, shall be exposed at every Octroi Outpost and at the head Octroi Office.

## Refunds

38. On the exportation of dutiable goods beyond the Cantonment limits the exporter shall be entitled to a refund of 8½ per cent. (i.e., 13 annas in the rupee) of the amount paid on the import of goods, but no refund shall be claimable if the amount refunded be less than one rupee.

39. No refund shall be granted on any article manufactured or produced within the Cantonment limits.

40. Application for refund shall be made separately by each exporter.

(a) The Moharrir at the outpost from which goods are exported shall collect the applications of exporters duly endorsed by the Octroi Officer as mentioned in Rule 2, and shall forward them to the Octroi Office at the place where the goods have been actually exported.

(b) Forms of applications printed in vernacular will be supplied free of charge to exporters at the Octroi Office, and will be filled up by a Moharrir or other person if necessary, according to the declaration of the exporters.

(c) The original receipts in proof of duty having been paid at the time of import must be attached to the application. If it is not possible, a certificate must be attached to show that the goods paid duty "as per receipt No.....dated....."

(d) Application for grant of refunds will be made separately by each exporter to the Secretary, Cantonment Committee, who will forward the same to the Octroi Sub-Committee for check and report by means of a register kept in the Cantonment Committee Office, where all payments will be made.

(e) Government contractors are entitled to receive a refund on the goods used for Government purposes, on production of a certificate by the head of the department concerned.

41. The exporter shall attend at the head Octroi Office between the hours of 10 A.M. and 4 P.M. or at such hours as shall be fixed by the Cantonment Authority from time to time, and shall file an application for refund in a printed Form K, to be obtained from the Head Office. The "Remarks" column shall contain the signature of the exporter or his agent. Such goods as are not to be exported by rail, as also those on which a refund of *ad valorem* duty is claimed, shall be brought to the head Octroi Office for inspection. The application shall be accompanied by the original receipt for octroi paid on exportation of the goods, or by the original invoice.

42. The Darogha at the head Octroi Office shall register the application and write a pass in Form L in triplicate. He shall inspect the goods and make an endorsement on their value or quality in column 10 of the pass. He shall then deliver the pass in triplicate to the exporter to be produced with the goods at the export Octroi post.

43. On arrival of the goods at the export Octroi Outpost, the exporter shall deliver the pass to the Moharrir in charge, who shall satisfy himself that the goods passing out are with the declaration in column 4 of pass L, made by the exporter at the head Office and shall attest the same in column 11 of both slips, of which he shall retain one slip and send the other into the Head Office with the daily remittances, and shall deliver the goods to the exporter, for presentation at the Head Office.

44. If goods are despatched by rail, the exporter shall also be bound to produce the Railway Receipt for verification at the head Octroi Office within 2 days after despatch. A copy of the entries in the Railway Receipt shall be made on the back of the application, and this copy shall be signed by the Octroi Inspector.

45. On production of the pass and the Railway Receipt in cases of exports by rail at the head Octroi Office, the exporter shall be entitled to receive a refund, after due verification of demand.

46. Only the exporter himself or his agent authorized in writing on his behalf shall be entitled to receive payment on account of refund.

47. If within 7 days from the date of export of goods, for which a pass has been given, the refund due on the pass is not applied for, no application for payment of the same will be entertained, and no payment shall be made.

48. Exporters shall not club their goods received under different *Rawannas* for the purpose of raising the refund claimed above the prescribed minimum.

49. In the case of a claim for refund of *ad valorem* duty the value of the goods shall be calculated at the original cost or invoice price, and not at the selling rates at Nasirabad. The Octroi Inspector shall insist on the production of the *Rawanna* or *Bijak* upon which the octroi was originally paid. In case of dispute the matter shall be decided by the Secretary, Cantonment Committee.

50. If any trader produces an invoice containing more than one description of goods which he is about to export, refund may be granted on all the goods on one application only, provided that the separate duty on any one description of goods be not less than one rupee. These goods shall be separately detailed as in the application.

51. Claimants for refund of goods, which subsequent to import become Government property, shall present their applications at the head Octroi Office within 7 days from the date on which goods have become Government property, or, where a certificate is given, within one week from the date of such certificate. After the expiration of this period no application for payment of refunds will be entertained, and no payment will be made.

52. Exporters who have not complied with the provisions of these rules shall not be entitled to refund.

53. Any intentional infraction or evasion of any of these rules shall be punishable on conviction by any Magistrate with a fine which may extend to rupees 50 or ; at the discretion of the Secretary, Cantonment Committee, with the approval of the Cantonment Committee, of levying of double fees.

54. Rules of detention, shall be translated into Hindi and vernacular and displayed in a prominent place at the head Octroi Office and at Octroi Posts.

55. A register of applications for refunds shall be kept in the form given below (Register M), in which all applications for refunds shall be duly entered. After payments have been made the Octroi Inspector shall cause the necessary entries to be made daily in Register N, and shall sign the same, and see that all applications, certificates (passes), and vouchers relating to each case are properly put together and filed. Refund applications shall be kept in the head Octroi Office for 3 years and shall then be destroyed.

56. The Octroi Sub-Committee, to be appointed by the Cantonment Authority, shall check all papers connected with applications for refunds of octroi duty and submit to the Secretary, Cantonment Committee, recommendations for payment of the demand in full or otherwise. Payments will be made by the Secretary himself at the office of the Cantonment Authority every Monday at 11 A.M.

LEGISLATIVE DEPARTMENT

NOTIFICATION

Simla, the 28th Oct. 1910.

No. 53.—Whereas by Resolution passed by the Secretary of State for India in Council on the 26th day of February, 1886, the provisions of Section 1 of the Government of India Act, 1870 (33rd Vict., Cap. 3), were declared applicable to Upper Burma.

And whereas the Lieutenant-Governor of Burma has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same ;

And whereas the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft and the same has received the assent of the Governor General on the 28th day of October, 1910 ;

( 1081 )

In pursuance of the direction contained in the said section, the said Regulation is now published in the *Gazette of India* and in the *Burma Gazette* :—

REGULATION NO. VI OF 1910.

*A Regulation to provide for the control of the petroleum-mining industry in Upper Burma.*

WHEREAS it is expedient to control and regulate the petroleum-mining industry in Upper Burma; It is hereby enacted as follows:—

1. (1) This Regulation may be called the Upper Burma Oil Fields Regulation, 1910.

(2) It extends to the whole of Upper Burma; and

(3) It shall come into force on such date as the Local Government may, by notification in the *Burma Gazette*, prescribe.

2. In this Regulation, unless there is something repugnant in the subject or context,—

(a) "oil-field" means an area which the Local Government has, by notification as aforesaid, declared to be an oil-field for the purposes of this Regulation;

(b) "company" means a company registered under the Indian Companies Act, 1882, or under the Companies (Consolidation) Act, 1908, or any Act thereby repealed, or incorporated by an Act of Parliament or of the Governor General in Council or by Royal Charter or Letters Patent, and carrying on oil-winning operations in an oil-field;

(c) "oil" means petroleum oil, and includes crude oil, refined oil, oil partially refined and any of the products of petroleum;

(d) "well" means an excavation made in the ground for the purpose of extracting oil;

oil which flows  
—ly from the  
the uped well  
— which  
aid

(2) Such limits may extend to any place where oil is stored or pipe-line stations are erected, and to any portion of a foreshore where oil is loaded into flats or boats.

4. (1) The Local Government may appoint an officer of the Government, to be called the Warden, to carry out the purposes of this Regulation, and to exercise such powers and perform such duties within any oil-field as may be assigned to him under this Regulation.

(2) The Warden shall be deemed to be a Revenue-officer within the meaning of the Upper Burma Land and Revenue Regulation, 1889.

5. (1) The control of all oil-winning operations in an oil-field is vested in the Local Government, which may make rules to regulate all matters connected with such operations.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may—

(a) define the powers of the Warden;

(b) provide for the appointment by Companies working in an oil-field of responsible local officers, and the duties to be carried out by such officers;

(c) provide for the upkeep of registers, and the submission of records, reports and statistics by persons holding grants or leases from the Government of oil-sites or working in an oil-field, and for the inspection of such records by the public or by any persons;

(d) prescribe the manner in which persons owning wells or well-sites shall demarcate such wells or sites and provide for the preservation of the demarcation marks prescribed;

(e) prescribe the manner in which hand-dug wells shall be protected;

(f) regulate or prohibit the access of any person not employed on any work in an oil-field, or who appears to be present for any vexatious or unlawful object or purpose;

(g) prescribe methods for securing the proper weighing or measurement of the oil produced;

(h) provide for the reporting of fires and accidents which may occur in an oil-field;

(i) prescribe the precautions which persons working on adjacent sites shall take, so as not to interfere with the safety or convenience of persons carrying on oil-winning operations in the neighbourhood or with the lines of communication across the oil-field;

(j) regulate the rights of ingress or egress to and from any site in the oil-field, and the right to transport materials, tools or machinery across any such site or to lay pipes or wires above or below ground across any site belonging to any other person engaged in the oil industry;

III of

1 of 1882,

Edw. VII

(k) prescribe the measures to be taken to shut off water from wells, whether in use or abandoned;

(l) provide for the prohibition or limitation of the drilling of any well where such drilling might cause danger of flooding to any part of the oil-field; and

(m) provide for the precautions to be taken to detect and prevent the influx of water into the oil-sands.

(3) The Local Government may, by rule, attach to the breach of any rule under this section any punishment not exceeding a fine of five hundred rupees, and if fraudulent intention is proved or actual injury or damage to person or property in the oil-field ensues, any punishment not exceeding imprisonment for a term of six months, or a fine of one thousand rupees, or both.

The Local Government may also, by rule, attach to the breach of any rule made under sub-clause (m) of sub-section (2) the penalty of forfeiture of the grant or lease held by the offender or his employer from Government.

6. (1) The Local Government may make rules for the prevention and extinction of fires in an oil-field or in any specified portion thereof.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may—

(a) regulate or prohibit the use of naked lights and of lamps other than those of a prescribed description or pattern;

(b) regulate or prohibit smoking and the use or possession of matches;

(c) regulate or prohibit the use of forges and open fires;

(d) regulate or prohibit all or any kind of work by night;

(e) regulate or prohibit the use of steam-boilers;

(f) regulate the use of engines and machinery;

(g) provide for the prohibition within or removal from any area of any construction which might in the opinion of the Warden prove a source of danger to the oil-field;

(h) provide for the disposal of inflammable gases;

(i) regulate or prohibit the use of oil-tanks;

(j) provide for the institution and regulation of fire-brigades, voluntary or otherwise;

(k) prescribe and regulate the use of lighting conductors;

(l) prescribe the use of fire extinguishers and of fire-extinguishing apparatus;

(m) regulate the position of pipes for the conveyance of oil and for the laying of such pipes underground where necessary;

(n) prescribe the method of dealing with flowing wells;

(o) prescribe the procedure to be adopted when a fire breaks out;

(p) provide for the compulsory cessation or limitation of operations of any kind in order to prevent or limit the spread of fire;

(q) provide for the bringing to the surface of well-diggers immediately on an alarm of fire;

(r) provide for the construction of gate-valves or stop-cocks on flowing wells and their closure on an alarm of fire being given; and

(s) provide for the maintenance of fire-lines.

(3) The Local Government may, by rule, attach to the breach of any rule under this section any punishment not exceeding a fine of five hundred rupees, and if fraudulent intention is proved or actual injury or damage to person or property in the oil-field ensues, any punishment not exceeding imprisonment for a term of six months, or a fine of one thousand rupees, or both.

(4) The Local Government may also, by rule, attach to the breach of any rule made under clauses (a), (b), (d), (i) and (n) of sub-section (2) the penalty of forfeiture of the grant or lease held by the offender or his employer from Government.

(5) The Warden may from time to time define the limits within which all or any of the rules made under this section shall apply.

7. The Local Government may, by notification

as aforesaid, declare that all steam-boilers consuming crude oil-fuel in any oil-field shall be subject to the payment of such rate as may be specified in

10. No suit or criminal prosecution shall lie against any public servant for anything done under this Regulation or in good faith intended to be done under this Regulation.

11. The Government shall not be responsible for any loss or damage which may occur owing to any action taken in good faith by any public servant under this Regulation.

12. Every person empowered by any rules made under section 6, sub-section (2), clause (i), to do any act shall to that behalf for the purposes of Chapter X of the Indian Penal Code be deemed to be a public servant within the meaning of section 21 of the said Code.

13. (1) An order made by the Warden under this Regulation shall be subject to review and revision in the same manner and to the same extent as an order of a Revenue-officer under sections 10 and 11 of the Upper Burma Land and Revenue Regulation, 1889.

(2) Save as provided by this section, no appeal shall lie from any order made under this Regulation, but such order shall be final and shall not be liable to be contested by suit or otherwise.

14. The Local Government may revoke any grant or lease and take possession of any well or site in respect of which there has been committed a breach of any rule made under this Regulation to which this penalty may be attached by the Local Government.

15. (1) The power to make rules conferred on the Local Government by the Local Government by sections 5 and 6 shall be subject to the condition of the rules being made after previous publication.

(2) All rules made under this Regulation shall be published in the Burma Gazette, and on such publication shall have effect as if enacted in this Regulation.

16. Notwithstanding anything contained in section 53 of the Upper Burma Land and Revenue Regulation, 1889, a Revenue-officer shall not exercise jurisdiction over any of the following matters, which shall be cognisable exclusively by a Civil Court, namely :—

Any claim as between private persons to the ownership or possession of any well or well-site, whether situate on State or other land or to establish any lien upon or other interest in any such well or well-site, or the rents, profits or produce thereof.

No. 54.—The Governor General is pleased to accept the resignation by the Hon'ble Colonel F. B. Longe, C.B., R.E., A.D.C., of his office of Additional Member of the Legislative Council of the Governor General.

R. SHEEPSHANKS,

RESOLUTION.—By the Government of India, Department of Commerce and Industry.

The Governor General in Council is pleased to direct that the following Rule shall be substituted for Rule 5 of the revised Rules for the supply of articles for the public service, which were published with the Resolution in this Department, No. 4941—4988-102, dated the 14th July 1909:

#### *Rule 5.—Special purchases in India.*

When serious inconvenience to the public service would be caused by waiting to obtain an article from England through the Director General of Stores, or when, owing to the greater promptitude of supply, an economy can be effected by purchasing in India articles which under the foregoing rules should be obtained through the Store Department, the purchase may be made in India, subject to Rule 13, provided that the articles are already in India at the time of order; but in such cases, if the value of the articles exceed Rs. 50, the sanctioning officer should place on record the reasons which make the local purchase desirable. This ~~rule~~ shall be available for the inspection of the Examiner of Accounts ~~and the~~ <sup>the</sup> sanctioning officer when required.

ORDER.—Ordered that this Resolution be communicated to all Departments of the Government of India, to all Local Governments and Administrations, to all Accountants General and Comptrollers (including the Comptroller and Auditor General), to all Heads of Departments subordinate to this Department and to the Private and Military Secretaries to His Excellency the Viceroy.

Ordered, also, that the Resolution be published in the *Gazette of India* for general information.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
22nd October 1910.

**Burma.**—Light or moderate showers were reported from nearly all districts from which reports have been received but reports from ten districts in Upper Burma have been delayed. In spite of irregular rain, winter crops generally promise about a normal outturn. The heavy rains of the previous week are reported to have done some damage in Katha to *ti* which is now coming into ear. Cotton plucking and other agricultural operations are progressing normally but a severe attack of disease among cattle in Minbu is reported to have impeded work. Variations in the prices of food grains from the normal are not important.

**Eastern Bengal and Assam.**—The rainfall was light in the Assam Valley and Rajshahi divisions and fairly heavy elsewhere. Plucking of tea and ploughing for spring crops are in progress. Sowing of mustard has commenced in the Assam Valley. Cotton promises well. Prospects of tea, winter rice and sugarcane are fair. Some damage to winter rice by insect pests has been reported in Sylhet, Goalpara, Nowgong and Sibsagar. The average price of common rice has risen by about one per cent. Cattle disease prevails in Malda, Goalpara, Darrang, Nowgong, Sibsagar and the Garo Hills.

**Bengal.**—During the week rain fell all over the Province except Birbhum, Murshidabad, Hazaribagh, Manbhum and practically all the districts of Bihar except the Sonthal Parganas. The fall was heavy in Orissa, Khulna, Jessore, the 24-Parganas, Midnapore, Burdwan and Howrah, moderate in Nadia and Cooch Behar and light elsewhere. Harvesting of autumn crops still continues in some districts. Sowings of spring crops have commenced in most districts but progress has been retarded in Angul by excessive rain. Winter paddy and sugarcane are doing well. Insects did some damage to paddy in Sambalpur. The price of common rice has risen in Midnapore, the 24-Parganas, Jessore and Bhagalpur and has fallen in Bankura, Nadia, Murshidabad, Patna, Darbhanga, Monghyr, the Sonthal Parganas, Hazaribagh, Ranchi, Singhbhum and Cooch Behar. Cattle disease exists in Midnapore, Patna, Gaya, Saran, Muzaffarnur, Purnea and in all the districts of Orissa and Chota Nagpur except Cuttack, Balasore and Singhbhum. The supply of fodder and water is sufficient throughout the Province.

**United Provinces.**—No rain fell during the week. Standing crops are flourishing and prospects are good. Cotton picking and harvesting of rice and the larger millets are in progress. Preparation of fields for spring crops is being pressed forward and sowings of gram, barley, pulse and linseed have begun in places. The general condition of livestock is good though sporadic cattle disease is reported from twenty-five districts. Fodder and supplies are ample everywhere. Prices have fallen in a few districts but are generally stationary.

**Punjab.**—No rain fell during the week. Harvesting of wheat and maize, picking of cotton and ploughings for and sowings of spring crops are in progress. The condition and outturn of standing crops are generally good to average. Cotton is disappointing and millet is very poor in Rohtak. Drought is felt in Mianwali. The outturn of *munj* and of *moth* is reported bad from Rawalpindi. Great millet has been damaged by moth borer in parts of Hissar. Prices are generally unchanged. They are rising slightly in one and falling in four districts. The condition of cattle is generally good. Fodder is sufficient except in parts of Mianwali. Complaints of a short canal water supply are being received from the Samundri and Toba Tek Singh tahsils in the Lyallpur district.

**North-West Frontier Province.**—No rain fell during the week. It is badly wanted in Dera Ismail Khan. The condition of standing crops is poor in Dera Ismail Khan owing to lack of rain. Elsewhere it is generally average. Harvesting of autumn crops is in progress and the expected outturn is average except that of rice and cotton which is reported below the average in the Charsadda tahsil of the Peshawar district. Sowings of spring crops continue in Dera Ismail Khan. Crops have been damaged by the *tiddi* insect in one village of the Dera Ismail Khan tahsil and in the Kulachi tahsil. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal in the Dera Ismail Khan district has been stopped. The condition of cattle is generally good but disease is prevalent in two villages of the Charsadda tahsil in the Peshawar district. The public health is generally good except in some parts of the Peshawar and Charsadda tahsils. Malarial fever is prevalent in Peshawar and Nowshera. Prices of food-grains except that of *bajra* show a slight tendency to fall. Prices:—wheat 13½ to 19½; gram 17½ to 27; maize 16 to 30½ and *bajra* 16 to 23 seers per rupee.

**Jammu.**—No rain fell during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

**Kashmir.**—There is no disease among cattle. Fodder is sufficient. Prices are stationary.

**Rajputana.**—No rain fell during the week. Agricultural operations for both autumn and spring crops continue. Standing crops are fair to good except in Bharatpur where the expected outturn is much below the average. Damage by grass-hoppers is reported in one district of Mewar and by heavy rainfall in Bharatpur. Cattle disease is prevalent in Karauli and in parts of Merwara, Banswara and Jhalawar. Fodder is sufficient. Prices have risen in Mewar, Partabgarh, Shahpura, Alwar and Karauli and have fallen or are steady elsewhere.

**Central India.**—No rain fell during the week. The weather is clear and cool. Harvesting of autumn crops and sowing of spring crops are in progress. Standing crops are generally good but have been damaged slightly by insects in parts of Bhopal, Jhansi and Bhopawar. Cattle are in good condition but some disease prevails in parts of Jhansi, Bhopal, Baghelkhand, Bundelkhand and Bhopawar. Prices are falling in Bhopal, Baghelkhand and Bundelkhand and are generally easy.

**Central Provinces.**—The week was almost rainless. Reaping of autumn crops, picking of cotton and sowing of spring crops are proceeding. Prospects are good. Pasture and water are sufficient. Agricultural stock is in good condition. Prices show little variation.

**Feudatory States.**—The rainfall during the week measured in inches was :—in Kanker and Bastar 2 and in Sarangarh 1½. Raigarh, Sirguja and Jashpur also had light showers. No rain is required in Bastar and Sakti. Harvesting of autumn crops and sowing of spring crops continue. Cotton has suffered slightly from insect pests in Kawardha. The condition of crops is generally good. Fodder and water are sufficient. Prices :—gram in Kanker and rice in Raigarh, Sirguja and Bastar fell by 2 seers per rupee.

**Bombay.**—The rainfall during the week was moderate in parts of Kanara, Dharwar and Kolhapur and slight in Satara, Bijapur, Belgaum and Savantvadi. Standing crops are suffering from insufficient moisture in Palanpur. They have been damaged slightly by rats in Karachi, by insects in Sukkur, by grass-hoppers in Nasik, Ahmednagar, Belgaum and Kolhapur and are generally good elsewhere. Harvesting of autumn crops

is progressing generally. Cotton picking is progressing in Hyderabad, Thar and Parkar, Khandesh, Ahmednagar and Baroda. Lands are being prepared for cultivation of spring crops in parts of Sind, Ahmedabad, the Panch Mahals, Surat, Nasik and Palanpur. Sowing of spring crops continues in parts of Gujarat, the Deccan, the Karnatak, Baroda and Rewa Kantha. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Satara and Sholapur but is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in the Upper Sind Frontier, East Khandesh and Bijapur, have fallen in Nasik, Ahmednagar, Satara and Dharwar and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 40 per cent; in the Konkan 13 to 22 per cent and in the Karnatak 3 to 19 per cent less than the normal. In Gujarat prices ranged from 12 per cent more than the normal to 23 per cent less and in the Deccan from 13 per cent more to 23 per cent less.

**Hyderabad.**—The average rainfall in the Dominions was 1 inch 2 cents. The rainfall in the Mahratwara districts was light, except in Raichur, with an average of 1 inch 32 cents. In Telingana the fall averaged from 76 cents in the Medak district to 5 inches 14 cents in Nalgonda. The heaviest falls occurred in the Nalgonda, Mahbubnagar and Warangal districts. The general situation is satisfactory. The autumn crop has been damaged by the excessive rainfall of the week in parts of Telingana and to some extent by insects in parts of the Raichur and Medak districts. The crop is being harvested in many places. Autumn cotton has suffered in parts of Mahratwara. The rain during the week was generally beneficial to the early rice crop. Lands are being prepared for spring crops and sowings are proceeding in most places. Cattle disease prevails in fourteen talukas. Prices:—wheat 6½; coarse rice 6½ and *juar* 15½ seers per rupee, showing a fall of ½ seer in the price of *juar*. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 13½ seers. The highest price in districts is 8 seers in Karimnagar and the lowest 26 seers in Aurangabad.

**Mysore.**—The rainfall during the week was good throughout the State. Prices of food grains have fallen slightly in Kolar and Chitaldroog and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

**Coorg.**—Rainfall 1 inch 84 cents. The condition of the rice crop is good. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

**Madras.**—The rainfall was heavy in Ganjam, Godavari, Kistna, Guntur, Nellore, South Arcot, North Arcot, Salem, Trichinopoly, Tanjore and Malabar, good in Vizagapatam, Kurnool, Anantapur, Cuddapah, Chingleput, Coimbatore, Madura, Ramnad, South Canara and the Nilgiris and light to fair elsewhere. The rainfall in sixteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in the Circars, the Deccan, Salem, Trichinopoly, Tanjore, Madras, South Canara and the Nilgiris and insufficient in Chingleput and in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary have been damaged by grass-hoppers, some in parts of Anantapur by excessive rain and some in parts of Chingleput and Tinnevely are in urgent need of rain. Harvests continue in parts with outturn fair to bumper. Pasture is insufficient in parts of Coimbatore and Tinnevely. Fodder is scanty in parts of Ganjam, Godavari, Cuddapah, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in fourteen districts, has fallen in nine and has risen in one. The prices of millets have fluctuated as follows:—*Ragi* is stationary in seven districts, has fallen in twelve and has risen in three. *Cholam* is stationary in seven districts, has fallen in four and has risen in four. *Cumbu* is stationary in three districts, has fallen in seven and has risen in six.

The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

**Nepal.**—*Report for the quarter ending 15th October 1910*:—Owing to the continued heavy rainfall during the month of July the maize crop in the hills suffered to some extent, but the rice crop did well. 10·75 inches of rain were registered during the last sixteen days of this month. In the month of August rice was sown in the Terai, and pears and apples were gathered in Nepal, the outturn being good. Cardamoms, early rice and maize were harvested in September in the hills and in the Nepal valley. The outturn was satisfactory with the exception of maize. Potatoes and early winter vegetables were sown. Millet and autumn rice are now being harvested and sowing of garlic and onions is in progress. Lands are being prepared for the sowing of wheat, barley and peas for the spring crop. The market is well stocked and the price of food grains is normal, also that of ghee. The rainfall for the period was 36·82 as compared with 36·32 for the corresponding period of last year. No epidemic of cattle disease has been reported.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 27th October 1910, based on the Indian Daily Weather Reports of the period.**

1. At the beginning of the week fairly general rain was falling in Burma, especially in Upper Burma, but northerly winds set in on the 24th and rainfall in consequence practically ceased. In northern India the only areas that received rain were the coast districts at the head of the Bay, and on the last two days of the week even these were practically rainless. In the Peninsula rainfall occurred nearly every day in the east and south, and during the last three days an advance of the monsoon in the Arabian sea caused an extension of rainfall northwards along the west coast and into Hyderabad and the Bombay Deccan.

2. Rainfall was in excess by 20 or more per cent in Upper Burma, Bengal proper, Orissa, the Central Provinces East, Hyderabad North, Mysore, Madras Southeast and the Madras Coast North; and was in defect by half an inch or more in Assam, Berar, the Central Provinces West, the Konkan and Malabar.

3. *Burma.*—Fairly general rain was reported on the first two days of the week, but on the remaining days there were only a few scattered falls. Skies were lightly to moderately clouded.

*Northeast India, including Orissa.*—Rainfall was confined almost entirely to the coast districts; and skies were clear or only lightly clouded except in the south of the division.

*The United Provinces, Central India and the Central Provinces.*—A few falls of rain occurred in the east of the Central Provinces, and skies were moderately clouded in this area, while they were clear or only lightly clouded elsewhere. Night temperature was lower than usual in Central India and the west of the Central Provinces.

*Northwest India.*—Skies were free from cloud except on the 26th, when light cloud appeared in Gujarat and the extreme north. Night temperature was lower than usual in Rajputana, especially in the western districts.

*The Peninsula.*—On most days rainfall was fairly general in the south of the Peninsula and on the north Madras coast, and at the close of the week it also occurred in the Konkan and the Bombay Deccan. Skies were moderately clouded in the south and east; and except on the 25th, 26th and 27th they were clear or only lightly clouded in the northwest, where night temperature was accordingly lower than usual. Day temperature was now the normal in the Madras Deccan and on the north Madras coast.

4. The following are the principal amounts of rainfall as reported at 8 hrs. each day:—

October	21st.	Akyab 2·68", Monywa 2·75", Barisal 1·71", False Point 2·22", Negapatam 3·57" and Nellore 2·39".
"	22nd.	Tavoy 1·83", Minbu 1·28", Bangalore 2·67", Trichinopoly 2·79" and Salem 2·25".
"	23rd.	False Point 2·73", Cuttack 1·55", Gr. Point 3·65" and Vizagapatam 1·71".
"	24th.	Vizagapatam 1·62", Madras 1·95" and Bangalore 1·72".
"	25th.	Vizagapatam 2·84", Masulipatam 3·57", Coimbatore 2·28", Trichinopoly 2·26" and Madura 1·93".
"	26th.	Poona 1·26".
"	27th.	Madras and Cuddalore each 1·33".

5. As will be seen from the table that follows, the rainfall of the whole period from the 29th April to the 27th October is in excess by 20 or more per cent in the North-West Frontier Province, Sind, Mysore, the Madras Deccan and the Madras Coast North; and in defect by the same amount in Kashmir and Baluchistan.

#### POST OFFICE.

**No. 7843—7880-51.**

*Simla, the 29th October, 1910.*

**RESOLUTION**—By the Government of India, Department of Commerce and Industry.

THE Government of India have had under their consideration the question of increasing the number of Post Office holidays. At present holidays are given in the Post Office on Sundays, New Year's Day, Good Friday, the King's Birth Day and Christmas Day, but even on these days very few of the postal officials can be allowed complete relaxation from work as certain duties must be performed in connection with the delivery and despatch of mails, which necessitate the attendance for some period of the day of the majority of the staff at the various offices.

2. Representations have been made to the Government of India that the general liability to work on Sundays and holidays constitutes a grievance in the case of its large body of Post Office employes, for which a remedy should be found. It is recognised that it would be impossible to allow the staff of the Post Office as many holidays as are enjoyed by most other Government servants, but inasmuch as work in business offices is either stopped altogether or greatly curtailed on the more important public holidays, it has been represented that there would be no serious objection to increasing the number of Post Office holidays by six <sup>more</sup>, to be selected as far as possible from those gazetted under the Negotiable Instruments Act. Most of these holidays are granted on account of important religious festivals, and the duties of postal servants prevent them to a large extent from attending and taking part in these observances to which many of them attach great importance. The six additional holidays would not necessarily agree in the different postal circles but would be arranged to suit local conditions.

3. It has accordingly been proposed that six new holidays should be held on the days of the following festivals :—

*For all Circles except Madras and Burma—*

1. Muharram.
2. Holi or Doljatra.
3. Janmastami or Gokulastami.
4. Id-ul-Fitr or Ramzan.
5. Dasehra, or one day of the Pujas.
6. Divali or Kali Puja.

*For Madras—*

1. Pongul.
2. Mahasiva Ratri (or Telugu New Year).
3. Avani Avittam (or Tamil New Year).
4. Mahalaya Amavasi.
5. Id-ul-Fitr or Ramzan.
6. Dipavali.

*For Burma—*

1. Muharram.
2. Burma New Year.
3. Beginning of Buddhist Lent.
4. One day of the Pujas.
5. End of Buddhist Lent.
6. Tazaundaing.

The dates to be selected would be notified before the beginning of the year in all post offices and in the Postal Guide.

4. The Government of India are prepared to take this question into consideration, if there is a generally expressed desire on the part of the public to afford relief in the matter of holidays to the employes of the Post Office. And this Resolution is published in order to afford the public an opportunity of expressing their opinion on the proposals it contains. It is not intended that these should apply to the Telegraph Department or to the Telegraph Staff in combined offices.

5. The Government of India will finally consider these proposals after the 1st January 1911. They will be glad to receive before that date any representations on the subject which Local Governments, public bodies, or private persons may desire to make.

ORDER.—Ordered that a copy of this Resolution be forwarded to all Local Governments and Administrations, to all Chambers of Commerce and Trades Associations and to all Departments of the Government of India.

Ordered, also, that a copy be published in the *Gazette of India*.

## GEOLOGY AND MINERALS.

*The 5th November, 1910.*

No. 7907-152.—The following draft of certain rules which it is proposed to make in respect of mica, manganese, and limestone mines other than mines which have been exempted from the operation of the Act under Section 29 thereof, in exercise of the powers conferred by Section 20 of the Indian Mines Act, 1901 (VIII of 1901), is published as required by the said section for the information of persons concerned, and notice is hereby given that the

draft will be taken into consideration by the Governor General in Council on or after the 8th day of February 1911.

2. Any objection or suggestion which may be received from any person with respect to the draft before the date fixed aforesaid, will be considered by the Governor General in Council.

### *Draft Rules.*

#### PART I.

#### MANAGEMENT.

1. When a change occurs in the name or address of the manager of a mine, notice of the change shall be sent within one month, by the owner, agent or manager to the Chief Inspector of Mines in India.

Notice of change of name and address of Manager.

2. At every mine a book, to be called the Inspection Book, shall be kept in which Inspecting Officers shall record their observations. The owner, agent or manager, shall also write or cause to be written at the commencement of the book—

- (a) the name of the mine,
- (b) the name and address of the owner of the mine and of the Agent (if any),
- (c) the name and address of the manager of the mine, and
- (d) the name of the competent person appointed under Rule 3.

3. The manager or some competent person or persons appointed in writing, by the owner, agent or manager for the purpose shall, at least once in every 24 hours, inspect every part of a mine in or through which any person has to work or pass, and if more than 20 persons are employed in the mine simultaneously shall without delay write or cause to be written a report of such inspection in a book to be called the Daily Report Book. Every such report shall be signed by the person making the inspection.

Daily Report Book.

4. Where any person required by these rules, or by any special rule made under Section 21 of the Indian Mines Act, 1901, to make any report is unable to write, he shall be present when his report is written for him, and shall have it read over to him, and shall attach his thumb-mark to it. The person writing the report shall also sign his name at the end, together with a statement that it has been read over to the person for whom it was written.

Procedure to be followed when a person required to report is unable to write.

5. All books which are required to be kept under these rules, together with a copy of the Indian Mines Act and of all rules applicable to the mine shall be kept in a convenient place adjacent to the mine, and shall be produced on the request of an Inspector of Mines, a Magistrate, or any person authorised in that behalf by the local Government.

Books and rules to be kept in a convenient place.

#### PART II.

#### SINGLE SHAFTS AND OUTLETS.

6. (a) At every mine, other than an open quarry, where more than 20 persons are employed below ground or where, in the opinion of the local Government it is necessary, there shall be at least two shafts or outlets affording separate means of ingress and egress available to all the persons employed in the mine.

Shafts and Outlets.

(b) Proper arrangements shall be made for persons to descend to and ascend from the mine at each of such shafts or outlets. If apparatus is necessary, it shall be kept on the works belonging to the mine, and shall be constantly available for use.

(c) Such shafts or outlets shall not at any point be nearer to one another than 20 feet.

(d) The foregoing provisions of this rule with respect to shafts and outlets shall not apply—

- (i) while a shaft is being sunk or an outlet being made ;
- (ii) to any working for the purpose of making a communication between two or more shafts or outlets.

(e) In cases where there are special difficulties which make compliance with the foregoing provisions of this rule not reasonably practicable, the mine may be exempted therefrom by the local Government, subject to such conditions as it may think fit to impose.

## PART III.

## VENTILATION.

7. An adequate amount of ventilation shall be constantly produced in every mine to such an extent, that the shafts, tunnels and working places of the mine and the travelling roads leading thereto shall be in a fit state for working and passing therein.

## PART IV.

## EXPLOSIVES AND SHOT-FIRING.

Storage of explosives in mines prohibited.

8. No explosive substance shall be stored in the mine.

9. No explosive substance shall be taken into the mine except in secured cases or boxes containing not more than 5 lbs. each, and a person shall not have in use or keep for use at one time in any one place more than one of such cases or boxes; provided that the Chief Inspector of Mines may, in special cases and by order in writing, permit, subject to such limitations as he may prescribe, the use at one time in one place of more than one of such cases or boxes.

Secured cases or boxes for taking explosives in mine.

10. No detonator shall be carried or kept in the same case or box with any other explosive material.

Detonators.

11. No person shall use any iron or steel implement in the process of charging or stemming for blasting.

Iron or steel implements.

12. Blasting shall not be commenced until due warning has been given to all persons working in the mine and its vicinity by an efficient system of signals or by other means arranged by the manager. Notice shall similarly be given as soon as blasting is finished.

Warning to be given before and after blasting.

13. If a shot has, or appears to have missed fire, no person shall approach the place until at least one hour has elapsed unless the shot has been fired by electrical means when this interval may be reduced to 15 minutes after the battery has been disconnected.

Misfires.

14. After a hole has been charged and made ready for firing, no person shall remove or attempt to remove anything therefrom.

Removal of things from holes which have been charged.

15. A new shot-hole shall not be commenced in any portion of a shot-hole left by a previous shot.

New shot-holes.

16. If a shot has missed fire, no new hole shall be commenced within twelve inches from the hole in which the misfire occurred and care shall be taken to drill the hole in such a direction that there is no danger of touching the unexploded charge.

The new hole shall be bored in the presence of the manager or of the person who exercises daily personal supervision over the mine, or that section thereof and also, if possible, of the man who bored the hole in which the misfire occurred.

## PART V.

## SAFETY OF PERSONS EMPLOYED.

17. The roofs and sides of all travelling roads and working places shall be made and kept secure.

Roofs and sides of travelling roads and working places.

18. In open workings the overburden and all loose ground and material shall be removed sufficiently far from the edge, or otherwise made secure in order to prevent danger to persons employed in the mine.

Overburden, loose ground and material.

19. The sides of open workings shall be sloped, stepped or secured in such a manner as to prevent danger from falls of material.

Sides of open workings.

20. When an open working is worked in steps, the steps shall be of sufficient breadth in comparison with their height to secure safety.

Steps in open workings.

21. Every flywheel and all exposed and dangerous part of the machinery used in or about a mine shall be kept securely fenced.

Fencing of exposed and dangerous parts of machinery.

22. Where no enactment for the regulation and inspection of steam boilers and prime movers is for the time being in force, every steam boiler, whether separate or one of a range, shall have attached to it, a proper safety valve, and also a proper steam gauge and water gauge to show respectively the pressure of steam and the height of water in each boiler.

#### PART VI.

#### MISCELLANEOUS.

23. Any place in or about an excavation which is dangerous shall be and shall be kept securely fenced. Should any doubt arise as to whether a place is dangerous or not, the opinion of an Inspector of Mines shall be conclusive on the point.

24. Any place in or about an excavation which, in the opinion of an Inspector of Mines, is dangerous, shall be and shall be kept securely fenced.

25. Where a place is likely to contain a dangerous accumulation of water, the working approaching that place shall not at any point within 30 feet thereof exceed six feet in width or height, and there shall be constantly kept at a sufficient distance, not being less than five feet in advance, at least one borehole near the centre of the working, and sufficient boreholes on each side, and, where necessary, above or below.

26. A sufficient supply of good drinking water shall be provided or kept in or near the mine, so as to be easily accessible to all persons employed in or about the mine and care shall be taken to secure that the supply remains free from contamination.

**GOVERNMENT OF INDIA.**

**DEPARTMENT OF REVENUE AND AGRICULTURE.**

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 3rd November 1910, based on the Indian Daily Weather Reports of the period.**

1. Rainfall occurred chiefly in Mysore and the Madras presidency, but scattered falls were reported from other parts of the Peninsula and from Assam. An area of disturbed weather appeared over the Andamans on the 30th October, and travelling in a northerly direction carried rainfall into Upper Burma where the precipitation of the week was more than 20 per cent in excess of the normal; in Lower Burma however rainfall was below the average.

2. In addition to Upper Burma, rainfall was 20 per cent or more in excess in Assam, Hyderabad South, Mysore, Malabar and Madras Southeast, and was half an inch or more in defect in the Bay Islands, Eastern Bengal, Bengal proper and Orissa.

3. *Burma.*—Fairly general rain was reported from Upper Burma on the 1st and 2nd November, but on the remaining days only a few falls occurred. Cloud was moderate to heavy in the northern half of the province and light to moderate in the southern, and at the close of the week maximum temperature was considerably lower than usual in Upper Burma.

*Northeast India, including Orissa.*—Rainfall was restricted to a few falls in Eastern Bengal and Assam. Skies were clear or only lightly clouded.

*The United Provinces, Central India and the Central Provinces.*—Jagdalpur had a light fall of rain on the 28th. Skies were clear except for occasional cloud in the south of the Central Provinces, and night temperature was lower than usual in the Central Provinces.

*Northwest India.*—Skies were clear or lightly clouded; and in Baluchistan, Sind and the Punjab temperature was higher than usual especially at night.

*The Peninsula.*—Nearly general rain fell in the south and a few falls occurred in the north. Skies were moderately to heavily clouded in the area of rainfall.

4. The following are the chief amounts of rainfall as reported at 8 hrs. each day:—

October	28th.	Nellore 1·93", Madras 2·15", Cuddalore 1·91", Negapatam 2·12", Pamban 2·20", Trivandrum 2·24" and Cochin 3·55".
"	29th	Masulipatam 3·10", Madras 1·83", Cuddalore 2·05", Coimbatore 3·43", Trichinopoly 2·06" and Ootacamund 2·12".
"	30th.	Slipper Island 2·41", Bharno 2·47", Nellore 2·08", Cuddalore 3·64", Pamban 1·82", Cochin 1·92" and Mercara 1·85".
"	31st.	Pamban 2·90" and Calicut 1·92".
November	1st.	Pamban 2·04" and Mangalore 2·64".
"	2nd.	Akyab 2·07", Cuddalore 1·74" and Cochin 2·03".
"	3rd.	Negapatam 2·45".

5. The rainfall of the whole period from the 29th April to the 3rd November is 20 per cent or more in excess in the North-West Frontier Province, Sind, Mysore, Madras South-east, the Madras Deccan and the Madras Coast North; and in defect by a similar amount in Kashmir and Baluchistan.

## Season and Crop Prospects for the week ending Saturday, 29th October 1910.

**Burma.**—Nearly all districts report rain but mostly very slight in amount. Sowing and planting of rice were completed in good time in Lower Burma except in a few flooded tracts where replanting still continues. In Tharrawady where a large area was flooded replanted crops are not expected to mature. Later rains have so far been satisfactory in Lower Burma and have partly made good the harm caused by deficient rain. In Upper Burma reaping of autumn rice is progressing under favourable conditions and an early start has been made with preparations for beans, tobacco and other dry weather crops. The recent continued rain in Upper Burma has much improved prospects and a good winter harvest is expected. Variations from the normal in prices of food grains are unimportant. Prices are generally rather low compared with recent years.

**Eastern Bengal and Assam.**—The weather was seasonable with slight scattered rain in parts of the Dacca division and on and near the hills. Plucking of tea, ploughing for and sowing of mustard and other spring crops are progressing. Prospects of tea and sugarcane are fair and of cotton, winter rice and other standing crops good. The average price of common rice has risen 2 per cent. Cattle disease prevails in Kamrup, Darrang, Nowgong, Sibsagar, Lakhimpur and the Garo Hills.

**Bengal.**—During the week no rain was received in Behar, Chota Nagpur, Birbhum and Bankura. The fall was heavy in Angul, moderate in Midnapore, Howrah and Cooch Behar and light elsewhere. Harvesting of autumn crops is still going on in some districts and that of early rice has commenced in some districts of Orissa and Chota Nagpur. Sowings of spring crops are in progress. Pressing of sugarcane has commenced in Gaya and Bhagalpur. Standing crops are doing well. Some damage to paddy by insects is reported from Sambalpur. The price of common rice has risen in Burdwan, Nadia, Murshidabad, Khulna, Patna, Puri, Hazaribagh and Cooch Behar, and has fallen in Bankura, Midnapore, Saran, Champaran, Muzaffarpur, Monghyr, Bhagalpur, the Sonthal Bargaras, Sambalpur, Ranchi and Palamau. Cattle disease prevails in Midnapore, Muzaffarpur, Darbhanga, Purnea, Angul, Puri, Sambalpur, Hazaribagh and Palamau. The supply of fodder and water is sufficient throughout the Province.

**United Provinces.**—No rain fell during the week. Standing crops are flourishing and prospects are good. Harvesting and threshing of autumn crops and cotton picking are in progress. Wheat, gram, barley and linseed are being sown. Sporadic cattle disease is reported from twenty-five districts but the general condition of stock is good. Fodder and supplies are ample. Prices have fallen slightly in nine districts and are generally stationary elsewhere.

**Punjab.**—Rainfall *nil*. Harvesting of paddy, maize, great millet, etc., picking of cotton and ploughing for and sowing of spring crops continue. The condition and outturn of standing crops are generally good to average. Cotton is disappointing and the outturn of great millet and *mung* is poor in Rohtak and of cotton below average in Hissar. Crops are generally dried up owing to drought in Mianwali. Rain is also wanted in Lahore and Sialkot. Prices are generally unchanged. They are falling slightly in Gurgaon, Jullundur, Lahore, Amritsar and Mianwali. The condition of cattle is generally good. Fodder is sufficient except in Mianwali. Complaints of a short water-supply are being received from the Samundri tahsil in the Lyallpur district.

**North-West Frontier Province.**—Rainfall *nil*. Rain is badly required in Dera Ismail Khan where the condition of standing crops is reported poor. Crops are generally average elsewhere. Harvesting of autumn crops continues and the expected outturn is average except that of rice, maize and cotton which is reported below average in the Charsadda tahsil of the Peshawar district. Sowing of spring crops is in progress. Sowing of clover and grain is nearly over in the Bannu district. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal in the Dera Ismail Khan district has been stopped. Cattle are generally in good condition except in three villages of the Charsadda tahsil. The public health is generally good. Prices of food-grain except of wheat and maize, show a slight tendency to fall. Wheat sells from 13½ to 19½; gram 17½ to 27; maize 16 to 30 and *bajra* 16 to 23½ seers per rupee.

**Jammu.**—Rain *nil*. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

**Kashmir.**—There is no disease among cattle. Fodder is sufficient. Prices are stationary.

**Rajputana.**—Rainfall *nil*. Agricultural operations for both autumn and spring crops continue. Standing crops are fair to good. The outturn is about half the normal in Bharatpur where crops have been damaged by heavy rainfall. Cattle disease prevails in Karauli and in the district of Banswara. Fodder is sufficient. Prices have risen in Bikaner, Jaisalmer, Mewar and Partabgarh and have fallen or are steady elsewhere.

**Central India.**—No rain fell during the week. The weather was clear and cool. Harvesting of autumn crops and sowing of spring crops are in progress. Standing crops are generally good but they have been damaged slightly by insects in Bhopal. Cattle are in good condition but some disease is prevalent in parts of Bhopal, Baghelkhand, Bundelkhand and Bhopawar. There are slight variations in prices but they indicate a downward tendency.

**Central Provinces.**—During the week Wardha, Drug, Raipur and Buldana had a sprinkling of rain not exceeding 76 cents. Harvesting of autumn crops, picking of cotton and sowing of spring crops continue. The condition of standing crops is generally good everywhere. The supply of fodder and water is adequate. Cattle are doing well. Prices:—The price of rice remained stationary in fifteen districts, gram in seventeen, *juar* in eighteen and wheat in twenty districts. Rice became cheaper in Mandla and Bilaspur by 3 and 2½ seers per rupee respectively. Variations are unimportant elsewhere.

**Feudatory States.**—Seven States received rain ranging from 6 cents to 1 inch. A break is required in Bastar where excessive moisture has caused some damage to crops. Reaping of autumn crops and sowing of spring crops are in progress. Prospects are favourable. Pasturage and water are ample. Prices:—wheat and gram fell in Chhuikhadan by 6 and 9 seers per rupee respectively. Gram rose by 2 seers in Kanker.

**Bombay.**—The rain during the week was good in parts of Kanara, Ahmednagar, and the Karnatak, moderate in Poona, Satara, Sholapur and Savantvadi, slight in Surat, Thana, Colaba, Ratnagiri, East Khandesh and Nasik. Standing crops have been damaged slightly by recent rain in Ratnagiri, by rats in Karachi, by insects in Sukkur and Poona, by grass-hoppers in Nasik, Ahmednagar, Belgaum and Dharwar and are generally good elsewhere. Cotton has been affected slightly by recent rain in Ahmednagar and Sholapur. Harvesting of autumn crops is generally progressing. Cotton picking continues in Hyderabad, Thar and Parkar, Ahmedabad, Khandesh, Ahmednagar and Baroda. Lands are

being prepared for spring cultivation in parts of Sind, the Panch Mahals, Palanpur and Mahi Kantha. Sowing of spring crops continues in parts of Gujarat, the Deccan, the Karnatak, Kathiawar, Baroda, Cutch and Rewa Kantha. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Satara and Sholapur and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Ahmednagar and Dharwar, have fallen in the Panch Mahals, Surat and East Khandesh and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 40 per cent. In the Konkan 13 to 22 per cent and in the Karnatak 3 to 22 per cent less than the normal. In Gujarat prices vary from 12 per cent more than the normal to 17 per cent less and in the Deccan from 17 per cent more than the normal to 23 per cent less.

**Hyderabad.**—The average rainfall in the Dominions was 77 cents. The rainfall was more or less general. The heaviest falls occurred in Mahbubnagar and Nalgonda. Fair weather is needed and has apparently set in. General prospects are fair. The autumn crop, especially cotton, has suffered rather heavily in parts where the rainfall was excessive and untimely. Crops have been damaged somewhat by insect pests in parts of Medak and Raichur and some of the area under autumn cotton has been resown with other crops. Spring sowings have been suspended in places by excessive rain but prospects of the crop are favourable. The early rice crop has suffered to some extent by the week's rain in parts of Telingana but its prospects are fair to good. The crop is being weeded in a few places and harvested in places. Lands for late rice are being prepared in a very few parts of Telingana. Cattle disease prevails in thirteen talukas. Prices :—wheat 6½; coarse rice 6½ and *juar* 15½ seers per rupee, showing a fall of ¼ seer in the price of coarse rice and *juar*. White *juar* is selling in Hyderabad City at 12 seers per rupee and yellow *juar* at 13½. The highest price in districts is 8½ seers in parts of Karimnagar and the lowest 23 seers in Nander, showing a downward tendency in prices.

**Mysore.**—The rainfall was good throughout the State. Prices of food grains have fallen slightly in Kolar and Mysore and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

**Coorg.**—Rainfall 7 inches 47 cents. The rice crop is in good condition. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

**Madras.**—The rainfall was very heavy in Chingleput, Madras, Nellore, the Nilgiris and Guntur; heavy in South Arcot, Madura, Godavari, Kistna, Ramnad, the Vizagapatam litoral, North Arcot, Tanjore, Trichinopoly, Tinnevely, Coimbatore, South Canara, Malabar and Ganjam and good elsewhere. The rainfall in seventeen districts was above the average of 35 years. Irrigation supplies are sufficient except in parts of Madura. Ploughing, sowing, weeding and transplanting are in progress. Standing crops are generally good and have benefited by the recent rains in Chingleput and Salem, but some in parts of Godavari, Guntur, Kurnool, Anantapur and Cuddapah have been damaged by excessive rain and some in parts of Bellary have been damaged by grass-hoppers. Harvests continue in parts with outturn fair to bumper. Pasture is sufficient except in parts of Godavari. Fodder is scanty in parts of Ganjam, Godavari, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in fourteen districts, has fallen in seven and has risen in three. The prices of millets have fluctuated as follows :—*Ragi* is stationary in eight districts, has fallen in ten and has risen in four. *Cholam* is stationary in three districts, has fallen in seven and has risen in five. *Cumbu* is stationary in two districts, has fallen in eight and has risen in six. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

## PART II.

Notifications by High Court, Comptroller General, etc.

### GAZETTE OF INDIA.

#### NOTICE.

The 12th October 1910.

From the 12th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 5th November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, the Department, of August 1901:—

It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next *Gazette*, and that this involves considerable inconvenience to the Press and expense of carriage. In the Circular Memorandum of this Department, No. 777-79, dated 9th February 1900, the Government of India directed that all notifications or other matter intended for publication in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to secure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

Brief remarks by compiling authority as to any noticeable points in the returns for the month.

Cholera prevailed in epidemic form in the Peshawar and Kohat Districts. The cause of the disease in the Peshawar District is due chiefly to the eating of cucumbers and plums and in the Kohat District the disease first made its appearance in the persons of 4 syces of 23rd Cavalry while they were working in grass farm on the 31st August 1910.

#### NOTICE.

The 12th October 1910.

From the 12th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 5th November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777-79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

**NOTIFICATIONS.**

Mount Abu, the 3rd November 1910.

No. 1556-1149.—In exercise of the powers conferred by Section 15, Sub-section (1), clause (a) of the Cantonments Act, 1910 (XV of 1910) and with the previous sanction of

he Governor-General in Council, the Hon'ble the Chief Commissioner, Ajmer-Merwara, is pleased to impose a Water Tax on all houses, lands and buildings occupied by persons not entitled to a free supply of water from the State, within the Nasirabad Cantonment, with effect from the 1st January 1911, at the following rates:—

- (a) On houses having no house connection with rentals of Rs 10 per mensem, and under, at Rs 4 per cent. on the annual rent.
- (b) On similar houses with rentals of over Rs 10 per month at Rs 5 per cent. on the annual rent.
- (c) On houses with private connections, in addition, Rs 2 per mensem.

Provided that:—

1. In the case of houses which have no separate service for a domestic supply:

- (a) No house shall be liable to the tax of which no part is within a radius of 600 feet from the nearest stand pipe or other supply of water available to the public.

(2) The tax shall not be levied on:—

- (a) Hospitals and dispensaries.
- (b) So far as they are not used for residential purposes, all schools supported by a grant-in-aid from Government or local Funds.
- (c) Buildings and their appurtenances devoted exclusively to public worship.
- (d) Houses the rent of which is Rs 4-0-0 per mensem or less.

**No. 1557-1149.**—In exercise of the powers conferred by Section 15, Sub-section (2), of the Cantonments Act, 1910 (XV of 1910) and with the previous sanction of the Governor General in Council, the Hon'ble the Chief Commissioner, Ajmer-Merwara, is pleased to apply to the Cantonment of Nasirabad, for the assessment and recovery of the Water Tax imposed by Notification No. 1556-1149, dated the 3rd November 1910, the following rules adapted from the Ajmer Municipalities Regulation, 1886.

**Ajmer Municipalities Regulation, Section 55.** 1. Preparation of Assessment List.—The Cantonment Committee shall cause an assessment list of all buildings and lands on which the water tax is imposed to be prepared containing:—

- (a) the name of the street or division in which the property is situated,
- (b) the designation of the property, either by name or by number, sufficient for identification,
- (c) the names of the owners and occupiers, if known,
- (d) the annual value on which the property is assessed, and
- (e) the amount of the tax assessed thereon by the Cantonment Committee.

2. For the purpose of preparing this list, the Cantonment Committee may require the owners or occupiers of the buildings or lands to furnish it with returns of annual value.

**Ajmer Municipalities Regulations, Section 41 (2).** 2. Annual value defined.—Annual value means the gross annual rent for which buildings liable to taxation may reasonably be expected to let.

3. Owner defined. Owner includes the person for the time being receiving the rent of lands and buildings, or either of them, whether on his own account or as agent or trustee for any person or society or for any religious or charitable purpose or who would so receive the same if the land or building were let to a tenant.

**Ajmer Municipalities Regulation, Section 1 (6).** 4. Publication of the notice of Assessment. When the assessment list has been completed, the Cantonment Committee shall give public notice thereof, and of the place where the list or a copy thereof may be inspected; and every person claiming to be either owner or occupier of property included in the list, or the agent of any such person shall be at liberty to inspect the list and to make extracts therefrom without charge.

4. (1). The Cantonment Committee shall at the same time give public notice of a time, not less than one month from the publication of the notice, when it will proceed to revise the valuation and assessment; and in all cases in which any property is for the first time assessed, or the assessment thereof is increased, it shall also give notice thereof to the owners or occupiers of the property.

(2). All objections to the valuation and assessment shall be made in writing before the time fixed in the notice or orally or in writing at that time.

5. Settlement of list. After the objections have been enquired into and the persons making them have been allowed an opportunity of being heard in person or by authorised agent as they think fit, and the revision of the valuation and assessment has been completed, the amendments in the list shall be authenticated by the signature of not less

than two members of the Committee who shall at the same time certify that no valid objection has been made to the valuation and assessment contained in the list, except in the cases in which amendments have been entered therein; and subject to such amendments as may thereafter be duly made, the tax so assessed shall be deemed to be the tax for the whole year by which it is leviable.

(2) The list when amended under this section shall be deposited in the Committee's office, and shall there be open during office hours to all owners and occupiers of property comprised therein, and a public notice that it is so open shall forthwith be published.

6. Further amendment of assessment list. The Cantonment Committee may at any time amend the list by inserting the name of any person whose name ought to be inserted or by inserting any property which ought to have been inserted, or by altering the assessment on any property which has been insufficiently valued or assessed through mistake, oversight or fraud, after giving one month's notice, to any person interested in the amendment, from the date of service of which notice at which the amendment is to be made.

Any person interested in any such amendment may tender his objection to the Cantonment Committee in writing before the time fixed in the notice and shall be allowed an opportunity of being heard in support of the same in person or by authorised agent as he thinks fit.

7. New list need not be prepared every year. It shall be in the discretion of the Cantonment Committee to prepare a new assessment list every year, or to adopt the valuation and assessment contained in the list for any year, with such alterations as may in particular cases be deemed necessary, as the valuation and assessment for the year following, giving the same notice of the valuation and assessment, as if a new assessment list had been prepared.

8. Tax when and by whom payable. Any water tax assessed under the foregoing rules shall be payable by the owner, who may recover the amount from the occupier, quarterly in advance on the first of each quarter, provided the first instalment shall include that due from the date of Notification imposing the rate. Provided also that in the event of the owner not being discoverable, the tenant or occupier will be held responsible for the payment of the Water Tax assessed.

9. RECOVERY OF TAX PAYABLE BY OWNER.—When any sum is due on account of the Water Tax, the Cantonment Committee shall cause a bill for the amount, stating the property for which the charge is made, to be presented to the person liable to pay the same.

(2) If the bill is not paid within one month from the presentation thereof, the sum shall be deemed to be an arrears of Tax.

10. RECEIPTS TO BE GIVEN.—For all sums paid under these rules a receipt, stating the amount and the tax on account of which it is paid, shall be given by the person receiving the same, on request by the person making the payment.

11. TAXATION NOT TO BE QUESTIONED SAVE UNDER THESE RULES.—No objection shall be taken to any valuation or assessment, nor shall the liability of any person to be assessed or taxed be questioned, in any other manner or by any other authority is provided for in these rules.

12. PUNISHMENT OF BREACH OF RULES.—A breach of any provision of these rules shall be punished with which may extend to fifty rupees.

13. RECOVERY OF TAX.—Any arrears of taxation claimable by the Cantonment Committee under these rules may be recovered on application to a Magistrate having jurisdiction within the limit of the Cantonment, or in any other place where the person from whom the money is claimable may for the time being reside, by the distress and sale of any moveable property within the limits of his jurisdiction, belonging to the person from whom the money is claimable.

No. 1558—1149.—In exercise of the powers conferred by section 15, sub-section (2) (b), of the Cantonments Act, 1910 (Act XV of 1910), the Governor-General in Council is pleased to declare that buildings in the Cantonment of Nasirabad shall be exempt from payment of the Water Tax imposed by Notification No. 1556, 1149, dated 3 November 1910, in the cases and to the extent hereinafter stated, namely:—

1 (a) When any building has remained unoccupied and unproductive of rent throughout the period in respect of which any instalment is payable, such building shall be exempt from payment of the said instalment.

(b) When any such building as aforesaid has not been occupied or productive of rent for any period of not less than 30 consecutive days, such building shall be exempt from payment of as much of the said tax, or instalment, as is proportionate to the number of days during which such building has not been occupied or productive of rent. Provided that the owner of such property has given to the Cantonment Authority notice in writing of the vacancy of the said building within the first thirty days of the period in respect of which exemption is claimed and that the application for refund is made within 6 months from the date on which such notice is delivered at the office of the Cantonment Authority.

2. The burden of proving the facts entitling any person to claim relief under this Notification shall lie upon that person.

3. Neither the presence of a caretaker nor the mere retention in an otherwise unoccupied dwelling house of the furniture habitually used in it shall constitute occupation of the house.

4. A building shall be deemed to be productive of rent if let to a tenant who has a continuing right to occupy such building whether it is actually occupied by such tenant or not.

By order,

R. E. HOLLAND,

First Assistant to the Agent to the  
Governor-General in Rajputana and Chief Commissioner  
of Ajmer-Merwara.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 10th November 1910, based on the Indian Daily Weather Reports of the period.**

1. Weather was disturbed in the south of the Bay at the beginning of the week, and the disturbance developed into a storm which crossed the coast near Nellore on the 4th and travelled across the peninsula passing out into the Arabian Sea near Bombay. The storm gave rain over the whole peninsula as far north as Berar, and as it passed away to the west, cloud extended northwards over the Central Provinces and Central India into the United Provinces, and eastwards into north-east India. The disturbed conditions thus indicated resulting in widespread rain over the Central Provinces and Central India and local falls in the United Provinces and southeast Rajputana.

2. The rainfall of the week was twenty or more per cent. in excess in the United Provinces East, Central India, Rajputana East, the Central Provinces, Berar, the Konkan, the Bombay Deccan, Hyderabad, Malabar, the Madras Deccan and the Madras Coast North. It was half an inch or more in defect in the Bay Islands, Orissa, Mysore and Madras Southeast.

3. *Burma*.—Only a few falls of rain occurred chiefly on the coast and skies were lightly clouded.

*Northeast India, including Orissa.*—There was no rain and skies were practically cloudless except on the 9th and 10th when cloud spread over the western and northern districts.

*The United Provinces, Central India and the Central Provinces.*—Rainfall was reported on the 8th, 9th and 10th chiefly from the Central Provinces and Central India. Cloud appeared in the south of the Central Provinces on the 6th and extended northwards; the whole division was more or less covered with cloud by the 10th. Night temperature which at the beginning of the week was lower than usual in the Central Provinces rose with the increase of cloud, and was everywhere above the normal on the 9th and 10th.

*Northwest India.*—Kota and Surat had light falls of rain. Skies were clear except for occasional cloud, and night temperature during the first part of the week was higher than usual in Baluchistan, Upper Sind and the southwest Punjab.

*The Peninsula.*—Rain fell in all parts of the division, and was most widespread in the southern half of the peninsula on the 6th at the time when the storm in the Bay was crossing the coast. Skies were clear at the beginning of the week in the north western districts, but heavy cloud spread over this area as the storm approached Bombay. Day temperature was generally below the normal and night temperature above it.

4. The following are the chief amounts of rainfall as reported at 8 hrs. each day :—

November 4th.	Negapatam 1'90".	
" 5th.	Trivandrum 4'40".	
" 6th.	Madras 7'02"	
" 7th.	Cochin "	Cocanada 1'40"
	and " "	
" 8th.	Chanda 1'44", Calicut "	Gopalpur 1'90".
" 9th.	Khandwa 1'92" and C "	
" 10th.	Nowgong 2'48", Jubbu "	and Khandwa 2'85"

5. The rainfall of the whole period from April to the 10th November was 100 per cent. in excess in the North-Western Provinces, Madras presidency excluding Malabar; and Baluchistan.

in April to the 10th November was 100 per cent. in excess in the North-Western Provinces, Madras presidency excluding Malabar; and Baluchistan.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
5th November 1910.

**Burma.**—Nearly all districts including those of the dry central region report rain. The late rain has been moderate and beneficial to the winter rice crop which is now generally in ear and normal yields are generally expected. The cotton harvest has been impaired to some extent by continued rain in Lower Chindwin. Reaping of hillside rice in Upper Burma and early varieties of rice in the dry Burmah and preparation for crops on alluvial lands are proceeding normal beginning of the rice season. Recent rains show no important variations from the normal.

**Eastern Bengal and Assam.**—The season is reasonable. Plucking of tea and ploughing for and sowing of spring crops are well advanced. Prospects of standing crops are on the whole good. The average price of rice is unchanged. Cattle disease prevails in Sylhet, Darrang, Nowgong, Sibsagar and the Garo Hills.

**Bengal.**—There was no rain during the month. Harvesting of autumn crops commenced in Orissa and Chota Nagpur. Some damage to the crop by insects is reported. The crop has fallen in Midnapore, Hooghly, Murshidabad, Ranchi, Palamou, and Manbhum and a disease is reported from Medinipur, Gaya, Angul, Puri, Sambalpur, Hazaribagh, Ranchi and Manbhum. The water supply is sufficient throughout the Province. The crops are in progress. Early winter rice crops are good. Some of common rice in Cuttack, Sambalpur, Hazaribagh and Bhagalpur. The crops in Bihar, Orissa, Manipal, Monghyr, Patna, and Manbhum. The fodder crops are in progress.

**United Provinces.**—No rainfall during the week. Standing crops are doing well and prospects are excellent. The sowing of winter crops is nearing completion. Satisfactory progress for the spring harvest are being made in all districts and germination is so far good. No serious cattle disease is reported from nineteen districts. Stock is on the whole in good condition. Fodder and supplies are abundant. Prices have fallen a little in eleven districts and are fluctuating in five districts and stationary in the remainder.

**Punjab.**—No rain fell during the week. Harvesting of autumn crops and ploughing for and sowings of spring crops are in progress. The condition and outturn of standing crops are generally good to average. The condition of autumn crops except that sugarcane is reported poor in Rohtak. Rain is wanted in Lahore and Sialkot. The outturn of autumn crops is average to poor in Mianwali. Rats are doing slight damage to crops in parts of Ferozepore and to sugarcane in Rohtak. Prices are generally unsettled. Cattle are in good condition. Fodder is sufficient except in Mianwali. Complaints of a short canal water supply continue to be received from the Samundri tahsil in the Lyallpur district.

**North-West Frontier Province.**—Rainfall *nil*. It is wanted all over the Province. The condition of standing crops is generally average. Harvesting of autumn crops continues. The expected outturn of maize and rice is below the average in the Charsadda tahsil of the Peshawar district and average elsewhere. Sowings of spring crops are in progress. Sowing of clove and gram has been practically finished in the Bannu district. The fodder and water supply is sufficient throughout the Province. Irrigation from the Pishapur canal in the Dera Ismail Khan district has been stopped. The condition of cattle is generally good but disease is prevalent in four villages. The health of the people is generally good except in some parts of the Peshawar tahsil. Malarial fever is prevalent in the Charsadda, Peshawar, Nowshera and Mardan tahsils. The prices of wheat and *barja* show a slight tendency to fall. Prices:—wheat 13½ to 19½; gram 17½ to 27; maize 16 to 29 and *barja* 16 to 23½ seers per rupee.

**Jammu.**—No rain fell during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

**Kashmir.**—No rain fell during the week. There is no disease among cattle. Fodder is sufficient. Prices are stationary.

**Rajputana.**—Late autumn crops are being harvested in a few States and spring sowings continue. Standing crops are fair to good. Prospects are improving in Bharatpur where the outturn is estimated at 8 annas in the rupee. Cattle disease is prevailing in Banswara and Karauli. Fodder is sufficient. Prices have risen in Banswara, Shahpura, Karauli and Merwara and are steady or have fallen elsewhere.

**Central India.**—Rainfall *nil*. The weather is clear and cool. Harvesting of autumn crops, cotton picking and sowings of spring crops continue. Standing crops are flourishing and prospects are generally favourable. Cattle are in good condition but some disease prevails in parts of Gwalior, Indore, Baghelkhand, Bundelkhand and Bhopalwar. Prices show a tendency to fall.

**Central Provinces.**—Chhindwara 1.8 inches of rain during the week. Balaghat, Wardha and the rest of the district had light showers ranging from 11 to 32 cents. Harvesting of autumn crops and sowing of spring crops are in progress. Germination of the spring crops is good. General prospects are good. Fodder and water are sufficient everywhere. Cattle are in good condition. Prices—rice rose in Bilaspur by 2½ seers per rupee. Prices of staple food grains elsewhere remain stationary or fluctuated slightly, with a tendency to fall.

**Feudatory States.**—Harvesting of autumn crops and sowing of spring crops continue. Conditions are generally good. In Kawardha considerable damage has been done by insects, cloudy weather and heavy rain. Condition of crops elsewhere is generally good. Fodder is sufficient. Prices—rice in Kawardha and Bastar and gram and rice in Bilaspur are steady. Wheat rose in Kanker by 2 seers per rupee.

**Bombay.**—The week was moderately rainy in parts of Kanara and Ratnagiri, Sholapur, Satara and the Karnatak, Savar, Adli and Kolhapur. Standing crops have been damaged slightly by rain in Ratnagiri and Kanara, by rats in Ratnagiri, by insects in Poona, by grasshoppers in Nasik, Belgaum and Dharwar and are generally good elsewhere. Harvesting of autumn crops is progressing generally. Cotton picking continues in Hyderabad, Ahmedabad, Khandesh, Nasik, Bar and Baroda. Lands are generally prepared for cultivation of spring crops in the Panch Mahals, Baroda, Palampur and Kantha. Sowing of spring crops continues in parts of Larkana, Gujarat, the Deccan, Dharwar, Kathiawar, Baroda and Rewa Kantha. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Sholapur and Satara and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in East Khandesh, Nasik and Bijapur, have fallen in Surat, Kanara, Ahmednagar and Belgaum and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 40 per cent, in the Konkan 13 to 22 per cent and in the Karnatak 10 to 22 per cent less than the normal. In Gujarat prices ranged from 12 per cent more than the normal to 17 per cent less and in the Deccan from 12 per cent more to 23 per cent less.

**Hyderabad.**—The average rainfall during the week was 35 cents. No rain fell in the Mahratwara districts except Gulbarga. In Telingana rain fell in the districts of Nalgonda, Warangal, Medak and Nizamabad. The heaviest falls occurred in the Bhongir and Suryapet talukas of the Nalgonda district. The week's rain has injured autumn crops especially the *til* crop in parts of Telingana. The cotton crop has also suffered somewhat heavily especially in the Mahratwara districts, but full particulars are awaited regarding the extent of the damage. Early rice has suffered to some extent in the Telingana country by the week's rain. Cattle disease prevails in fourteen talukas. Prices:—wheat 6½; coarse rice 6½ and *juar* 16 seers per rupee, showing a fall of ¼ seer in the price of *juar*. White *juar* in selling in Hyderabad City at 12 and yellow *juar* at 14 seers showing a fall of ½ seer in the price of yellow *juar*. The highest price in districts is 8½ seers in Karimnagar and the lowest 28 seers in Nander.

**Mysore.**—The rainfall was generally good. Prices of food grains have fallen slightly in Bangalore, Tumkur and Shimoga and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Cattle are generally healthy. Water and fodder are available.

**Coorg.**—Rainfall 50 cents. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

**Madras.**—The rainfall during the week was very heavy in Tanjore and South Arcot, heavy in Ramnad, Chingleput, Madura, Tinnevely and Malabar, good in South Canara, the Nilgiris. Madras, Coimbatore, North Arcot, Trichinopoly, Cuddapah, Salem, the Vizagapatam Agency and Guntur and light to fair elsewhere. The rainfall in seventeen districts was above the average of the last thirty-five years. Irrigation supplies are generally sufficient except in parts of Chingleput. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally good but some in parts of Kurnool, Anantapur, Cuddapah and Tanjore have been affected by excessive rain and some in parts of Bellary have been damaged by grass-hoppers. Harvests continue in parts with outturn fair to bumper. Pasture is generally sufficient. Fodder is scanty in parts of Ganjam, Godavari and North Arcot. The condition of cattle is generally good. The price of rice is stationary in nine districts, has fallen in six and has risen in eight. The prices of millets have fluctuated as follows :—*Ragi* is stationary in seven districts, has fallen in thirteen and has risen in one. *Chorlam* is stationary in four districts, has fallen in nine and has risen in one. *Cumbu* is stationary in one district, has fallen in eight and has risen in four. The public health is good. Births and deaths are generally good. Condition of the labouring classes at beginning of week is generally good and employment is readily available. Grain stocks are generally sufficient and stored in good condition.

*Calcutta, the 18th November 1910.***No. 5278.**

IN exercise of the powers conferred by section 3, sub-section (1), of the Indian Councils Act, 1909 (9, Edw. 7, c. 4), the Governor General in Council with the approval of the Secretary of State in Council, is pleased to issue the following Proclamation:—

## PROCLAMATION.

1. A Council shall be constituted in the Bengal Division of the Province of Fort William with effect from the 18th day of November 1910, for the purpose of assisting the Lieutenant-Governor in the administration of the Province.

2. The number of the members of the Council shall be four, not exceeding four, as the Governor General in Council may from time to time determine.

3. (a) Two members of the Council shall be persons who at the time of their appointment have been in the service of the Crown in India for at least twelve years.

(b) The other member or members shall be either persons so qualified or persons who at the time of their appointment have resided in India for at least twelve years.

4. If a member is absent from illness or otherwise, the Lieutenant-Governor may, subject to the condition prescribed by sub-clause (a) of clause 3, appoint a person qualified under clause 3 to be a temporary member during such absence.

5. In any case which in the judgment of the Lieutenant-Governor is of high importance and essentially affects the public interest and in which the Lieutenant-Governor may direct that such case shall be decided in accordance with his opinion, the opinion of the majority of the Council shall prevail notwithstanding.

6. Where the Lieutenant-Governor makes a direction under clause 5, he shall record a statement of his reason for making such direction, and any dissentient member may record a statement of the reasons for his dissent, and the statement recorded under this rule shall forthwith be submitted to the Secretary of State.

7. In the case of a tie, the opinion of the Lieutenant-Governor shall prevail; and in the case of equality of votes, the Lieutenant-Governor shall have a second or casting vote.

8. If the Lieutenant-Governor is absent from the meeting of the Council, he may, in his absence, appoint any person who is qualified to be a member of the Council to act in his stead, and the powers which are exercisable in Council by the Lieutenant-Governor shall be exercisable by the person so appointed, and the Lieutenant-Governor may discharge by the Vice-President of the Council appointed under the Indian Councils Act, 1909.
